CONVEY DOC LAND TO WAYNE COUNTY

House Bill 4227 (Substitute H-1)
First Analysis (4-4-89)
Sponsor: Rep. Gerald H. Law
Committee: State Affairs

THE APPARENT PROBLEM:

Heavy traffic near the Scott Correctional Facility in the city of Plymouth prompted Wayne County road officials to widen sections of Five Mile and Beck Roads recently. The road improvements were done with the understanding that the county would be granted a right-of-way from the state along Five Mile Road. The Department of Corrections (DOC) has state jurisdiction over the land near Five Mile Road, which the county apparently has been planning to use to drain the roads recently improved near the prison. The county has therefore requested the state to convey a small strip of land near Five Mile and Beck Roads, from the DOC to the county of Wayne, to be used for drainage purposes.

THE CONTENT OF THE BILL:

The bill would authorize the state to convey a certain 60' X 60' strip of state-owned land under the jurisdiction of the DOC to Wayne County for consideration of \$1. The conveyance would be by quitclaim deed approved by the attorney general, and revenue received under the conveyance would be deposited into the general fund.

FISCAL IMPLICATIONS:

According to the Department of Management and Budget, the bill would have no fiscal implications for the state, except for a \$1 revenue increase from the conveyance. (3-31-89)

ARGUMENTS:

For:

The bill would simply permit the state to convey land under the jurisdiction of the DOC, near the Scott Correctional Facility in Plymouth, to Wayne County's road officials. The county widened two roads close to the prison because of increased traffic in the area, and did the work with the understanding it would be given right-of-way to specific state land next to the roads for drainage purposes. Because the conveyance is for a public road improvement, the land is not being sold to the county at its fair market value.

POSITIONS:

The Department of Transportation has no position on the bill. (3-22-89)
