REGULATE OIL RECYCLING

House Bill 4247

Sponsor: Rep. John Bennett

**Committee: Conservation, Recreation, &
Environment**

Complete to 4-5-89

A SUMMARY OF HOUSE BILL 4247 AS INTRODUCED 2-21-89

The Hazardous Waste Management Act provides for the regulation and recycling of hazardous wastes. The bill would amend the act's definition of "treatment facility" to include any facility that purchased or received petroleum substances for treatment if that facility had been cited for a violation of the Air Pollution Act. The bill would, accordingly, prohibit the director from exempting from the definition of "managed hazardous waste" petroleum substances purchased or received for the purpose of treatment by such treatment facilities.

MCL 299.505 and 299.526
