A SUMMARY OF HOUSE BILL 4730 AS INTRODUCED 5-1-89

The bill would amend the Animal Industry Act of 1987 by adding a new section to require that all horses, ponies, and mules ("equines") be vaccinated annually for certain diseases before the animal was imported, sold, or participated in fairs, races, or shows. The required vaccinations would be for equine encephalomyelitis (EEE), equine infectious anemia (EIA), and Potomac horse fever.
