STORMWATER TREATMENT FUNDS

House Bill 4500

Sponsor: Rep. Mary C. Brown

Committee: Conservation,

Environment and Great Lakes Affairs

Complete to 3-25-93

A SUMMARY OF HOUSE BILL 4500 INTRODUCED 3-16-93

Currently, the State Water Pollution Control Revolving Fund, in compliance with the federal Water Pollution Control Act, provides various forms of assistance to local governments for certain types of public improvements. House Bill 4500 would amend the State Clean Water Assistance Act to include stormwater treatment projects under those projects eligible for assistance from the fund. (The bill would define a "stormwater treatment project" to mean construction activities on any device or system for the treatment, storage, recycling, or reclamation of stormwater that is conveyed by a storm sewer that is separate from a sanitary sewer.)
