### **A REVISED SUMMARY OF HOUSE BILL 4737 AS INTRODUCED 5-11-93**

The School Code permits a school board to contract with a photographer for the taking of yearbook pictures but also allows for a student to have a picture taken by another photographer and get it included in the yearbook if it meets the specifications of the yearbook staff. House Bill 4737 would amend the code to specify that a student picture taken by a photographer of the student's choice would have to be included in a class composite picture if it met the specifications of the photographer preparing the class composite picture. The contract photographer would be allowed to charge a student a reasonable fee for reimbursement of the costs of including the picture.

The bill would re-write Section 1349 of the School Code to require that a contract between the board and the photographer specify all of the provisions referred to above.
