A SUMMARY OF HOUSE BILL 5210 AS INTRODUCED 11-18-93

The bill would amend the Freedom of Information Act to include under the definition of "public body" a person or entity that provides goods or services to the state pursuant to a contract with the state. (This would make certain of their records public records subject to disclosure under the act.) However, such a contractor could exempt from disclosure business records that did not contain information identifying money received or goods or services provided under the state contract.
