The People of the State of Michigan enact:

Section 1. Section 109 of Act No. 280 of the Public Acts of 1939, as amended by Act No. 352 of the Public Acts of 1994, being section 400.109 of the Michigan Compiled Laws, is amended to read as follows:

Sec. 109. (1) The following medical services may be provided under this act:

(a) Hospital services that an eligible person may receive consist of medical, surgical, or obstetrical care, together with necessary drugs, X-rays, physical therapy, prosthesis, transportation, and nursing care incident to the medical, surgical, or obstetrical care. The period of inpatient hospital service shall be the minimum period necessary in this type of facility for the proper care and treatment of the individual. Necessary hospitalization to provide dental care shall be provided if certified by the attending dentist with the approval of the state department. A person who is receiving medical treatment as an inpatient because of a diagnosis of tuberculosis or mental disease may receive service under this section, notwithstanding the mental health code, Act No. 258 of the Public Acts of 1974, being sections 330.1001 to 330.2106 of the Michigan Compiled Laws, and Act No. 177 of the Public Acts of 1925, as amended, being sections 332.151 to 332.164 of the Michigan Compiled Laws. The state department shall pay for hospital services in accordance with the state plan for medical assistance adopted pursuant to section 10 and approved by the United States department of health and human services.

(b) An eligible person may receive physician services authorized by the state department. The service may be furnished in the office of the physician, the eligible person's home, a medical institution, or elsewhere in case of emergency. A physician shall be paid a reasonable charge for the service rendered. Reasonable charges shall be determined by the state department and shall not be more than those paid in this state for services rendered under title XVIII.

(c) An eligible person may receive nursing home services in a state licensed nursing home, a medical care facility, or other facility or identifiable unit of that facility, certified by the appropriate authority as meeting established standards for a nursing home under the laws and rules of this state and the United States department of health and human services, to the extent found necessary by the attending physician, dentist, or certified Christian Science practitioner. An eligible person may receive nursing services in a short-term nursing care program established under section 22210 of the public health code, Act No. 368 of the Public Acts of 1978, being section 333.22210 of the Michigan Compiled Laws, to the extent found necessary by the attending physician when the combined length of stay in the acute care bed and short-term nursing care bed exceeds the average length of stay for medicaid hospital diagnostic related group reimbursement. The state department shall not make a final payment pursuant to title XIX for benefits available under title XVIII without documentation that title XVIII claims have been filed and denied. The state department shall pay for nursing home services in accordance with the state plan for medical assistance adopted pursuant to section 10 and approved by the United States department of health and human services. A county shall reimburse a county maintenance of effort rate determined on an annual basis for each patient day of medicaid nursing home services provided to eligible persons in long term care facilities owned by the county and licensed to provide nursing home services. For purposes of determining rates and costs described in this subdivision, all of the following apply:

(i) For county owned facilities with per patient day updated variable costs exceeding the variable cost limit for the county facility, county maintenance of effort rate means 45% of the difference between per patient day updated variable cost and the concomitant nursing home-class variable cost limit, the quantity offset by the difference between per patient day updated variable cost and the concomitant variable cost limit for the county facility. The county rate shall not be less than zero.

(ii) For county owned facilities with per patient day updated variable costs not exceeding the variable cost limit for the county facility, county maintenance of effort rate means 45% of the difference between per patient day updated variable cost and the concomitant nursing home class variable cost limit.

(iii) For county owned facilities with per patient day updated variable costs not exceeding the concomitant nursing home class variable cost limit, the county maintenance of effort rate shall equal zero.

(iv) For the purposes of this section: "per patient day updated variable costs and the variable cost limit for the county facility" shall be determined pursuant to the state plan for medical assistance; for freestanding county facilities the "nursing home class variable cost limit" shall be determined pursuant to the state plan for medical assistance and for hospital attached county facilities the "nursing class variable cost limit" shall be determined pursuant to the state plan for medical assistance plus \$5.00 per patient day; and "freestanding" and "hospital attached" shall be determined in accordance with the federal regulations.

(v) If the county maintenance of effort rate computed in accordance with this section exceeds the county maintenance of effort rate in effect as of September 30, 1984, the rate in effect as of September 30, 1984 shall remain in effect until such time as the rate computed in accordance with this section is less than the September 30, 1984 rate. This limitation shall remain in effect until December 31, 1996. For each subsequent county fiscal year the maintenance of effort may not increase by more than \$1.00 per patient day each year.

(vi) For county owned facilities, reimbursement for plant costs will continue to be based on interest expense and depreciation allowance unless otherwise provided by law.

(d) An eligible person may receive pharmaceutical services from a licensed pharmacist of the person's choice as prescribed by a licensed physician or dentist and approved by the state department. In an emergency, but not routinely, the person may receive pharmaceutical services rendered personally by a licensed physician or dentist on the same basis as approved for pharmacists.

(e) An eligible person may receive other medical and health services as authorized by the state department.

(f) Psychiatric care may also be provided pursuant to the guidelines established by the state department to the extent of appropriations made available by the legislature for the fiscal year.

(2) The director shall provide notice to the public, in accordance with applicable federal regulations, and shall obtain the approval of the committees on appropriations of the house of representatives and senate of the legislature of this state, of any proposed change in the statewide method or level of reimbursement for a service, if the proposed change is expected to increase or decrease payments for that service by 1% or more during the 12 months after the effective date of the change.
