Instruments of conveyance to or from a public school academy are exempt from all taxation including taxes imposed by Act No. 134 of the Public Acts of 1966, being sections 207.501 to 207.513 of the Michigan Compiled Laws. A public school academy may not levy ad valorem property taxes or any other tax for any purpose. (9) A public school academy may acquire by purchase, gift, devise, lease, sublease, installment purchase agreement, land contract, option, or by any other means, hold and own in its own name buildings and other property for school purposes, and interests therein, and other real and personal property, including, but not limited to, interests in property subject to mortgages, security interests, or other liens, necessary or convenient to fulfill its purposes. Sec. 503a. If a school district or intermediate school district applies for and obtains a contract to operate 1 or more public school academies under this part, the power of the school district or intermediate school district to levy taxes for any purpose under this act is not affected by the operation of a public school academy by the school district or intermediate school district. Revenue from taxes levied by a school district or intermediate school district under this act or bonds issued by a school district or intermediate school district under this act may be used to support the operation or facilities of a public school academy operated by the school district or intermediate school district in the same manner as that revenue may be used under this act by the school district or intermediate school district to support school district or intermediate school district operations and facilities. This section does not authorize a school district or intermediate school district to levy taxes or to issue bonds for any purpose that is not otherwise authorized under this act.

Sec. 504a. In addition to other powers set forth in this part, a public school academy may take action to carry out the purposes for which it was incorporated under this part, including, but not limited to, all of the following:

(a) To sue and be sued in its name.

(b) To acquire, hold, and own in its own name real and personal property, or interests in real or personal property, for educational purposes by purchase, gift, grant, devise, bequest, lease, sublease, installment purchase agreement, land

Sec. 507. (1) The authorizing body for a public school academy is the fiscal agent for the public school academy. A state school aid payment for a public school academy shall be paid to the authorizing body that is the fiscal agent for that public school academy, which shall then forward the payment to the public school academy. An authorizing body has the responsibility to oversee a public school academy's compliance with the contract and all applicable law. (f) Act No. 35 of the Public Acts of 1951, being sections 124.1 to 124.13 of the Michigan Compiled Laws.

(g) Act No. 8 of the Public Acts of the Extra Session of 1967, being sections 124.531 to 124.536 of the Michigan Compiled Laws.

(9) Subsection (8) does not exempt a public school academy from any law.

(10) A public school academy and its incorporators, board members, officers, employees, and volunteers have governmental immunity as provided in section 7 of Act No. 170 of the Public Acts of 1964, being section 691.1407 of the Michigan Compiled Laws. An authorizing body and its board members, officers, and employees are immune from civil liability, both personally and professionally, for any acts or omissions in authorizing a public school academy if the authorizing body or the person acted or reasonably believed he or she acted within the authorizing body's or the person's scope of authority.

(11) A public school academy is exempt from all taxation on its earnings and property. Instruments of conveyance to or from a public school academy are exempt from all taxation including taxes imposed by Act No. 134 of the Public Acts of 1966, being sections 207.501 to 207.513 of the Michigan Compiled Laws. A public school academy may not levy ad valorem property taxes or any other tax for any purpose. However, operation of 1 or more public school academies by a school district or intermediate school district does not affect the ability of the school district or intermediate school district to levy ad valorem property taxes or any other tax.

(12) A public school academy may acquire by purchase, gift, devise, lease, sublease, installment purchase agreement, land contract, option, or by any other means, hold and own in its own name buildings and other property for school purposes, and interests therein, and other real and personal property, including, but not limited to, interests in property subject to mortgages, security interests, or other liens, necessary or convenient to fulfill its purposes. For the purposes of condemnation, a public school academy may proceed under the uniform condemnation procedures act, Act No. 87 of the Public Acts of 1980, being sections 213.51 to 213.77 of the Michigan Compiled Laws, excluding sections 6 to 9 of that act, being sections 213.56 to 213.59 of the Michigan Compiled Laws, or other applicable statutes, but only with the express, written permission of the authorizing body in each instance of condemnation and only after just compensation has been determined and paid.

Sec. 513a. If a school district or intermediate school district applies for and obtains a contract to operate 1 or more public school academies under this part, the power of the school district or intermediate school district to levy taxes for any purpose under this act is not affected by the operation of a public school academy by the school district or intermediate school district. Revenue from taxes levied by a school district or intermediate school district under this act or bonds issued by a school district or intermediate school district under this act may be used to support the operation or facilities of a public school academy operated by the school district or intermediate school district in the same manner as that revenue may be used under this act by a school district or intermediate school district to support school district or intermediate school district operations and facilities. This section does not authorize a school district or intermediate school district to levy taxes or to issue bonds for any purpose that is not otherwise authorized under this act.

Sec. 514a. In addition to other powers set forth in this part, a public school academy may take action to carry out the purposes for which it was incorporated under this part, including, but not limited to, all of the following:

- (a) To sue and be sued in its name.
- (b) To acquire, hold, and own in its own name real and personal property, or interests in real or personal property, for educational purposes by purchase, gift, grant, devise, bequest, lease, sublease, installment purchase agreement, land contract, option, or condemnation, and subject to mortgages, security interests, or other liens; and to sell or convey the property as the interests of the public school academy require.
- (c) To receive and disburse funds for lawful purposes.
- (d) To enter into binding legal agreements with persons or entities as necessary for the operation, management, and maintenance of the public school academy.
- (e) To incur temporary debt in accordance with section 1225.
- (f) To solicit and accept any grants or gifts for educational purposes and to establish or permit to be established on its behalf 1 or more nonprofit corporations the purpose of which is to assist the public school academy in the furtherance of its public purposes.

Sec. 514b. If a public school academy is operated by a school district that is subject to a court desegregation order, pupil selection at the public school academy is subject to that order.

Sec. 517. (1) The authorizing body for a public school academy is the fiscal agent for the public school academy. Subject to the state school aid act of 1979 and applicable state board rules, a state school aid payment for a public school academy shall be paid to the authorizing body that is the fiscal agent for that public school academy, which shall then forward the payment to the public school academy.

(2) Subject to the leadership and general supervision of the state board over all public education, an authorizing body has the responsibility to oversee a public school academy's compliance with the contract and all applicable law.

(3) In addition to other remedies available to the authorizing body or state board under the contract or by law, a contract issued under this part may be revoked by the authorizing body that issued the contract or by the state board if the authorizing body or state board determines that 1 or more of the following has occurred:

- (a) Failure of the public school academy to abide by and meet the educational goals set forth in the contract.
- (b) Failure of the public school academy to comply with all applicable law.
- (c) Substantial failure to comply with applicable state board rule.
- (d) Failure of the public school academy to meet generally accepted public sector accounting principles.
- (e) The existence of 1 or more other grounds for revocation as specified in the contract.

(f) Failure of the public school academy to pay for services provided to the public school academy by a nonauthorizing local or intermediate school district, if the public school academy requested and contracted for the services.

(4) The decision of an authorizing body to revoke a contract under this section is solely within the discretion of the authorizing body, is final, and is not subject to review by a court or any state agency. An authorizing body that revokes a contract under this section is not liable for that action to the public school academy, public school academy corporation, a pupil of the public school academy, the parent or guardian of a pupil of the public school academy, or any other person.

Sec. 601a. (1) An intermediate school district has all of the rights, powers, and duties expressly stated in this act; may exercise a power implied or incident to any power expressly stated in this act; and, except as provided by law, may exercise a power incidental or appropriate to the performance of any function related to the operation of the intermediate school district in the interests of public elementary and secondary education in the intermediate school district, including, but not limited to, all of the following:

(a) Educating pupils. In addition to educating pupils in grades K-12, this function may include operation of preschool, lifelong education, adult education, community education, training, enrichment, and recreation programs for other persons.

(b) Providing for the safety and welfare of pupils while at school or a school sponsored activity or while en route to or from school or a school sponsored activity.

(c) Acquiring, constructing, maintaining, repairing, renovating, disposing of, or conveying intermediate school district property, facilities, equipment, technology, or furnishings.

(d) Hiring, contracting for, scheduling, supervising, or terminating employees, independent contractors, and others to carry out intermediate school district powers. An intermediate school district may indemnify its employees.

(e) Receiving, accounting for, investing, or expending intermediate school district money; borrowing money and pledging intermediate school district funds for repayment; and qualifying for state school aid and other public or private money from local, regional, state, or federal sources.

(2) An intermediate school district may enter into agreements or cooperative arrangements with other entities, public or private, or join organizations as part of performing the functions of the intermediate school district.

(3) An intermediate school board may conduct, operate, participate in, administer, or serve as fiscal agent or administrative entity, or both, for 1 or more programs involving workforce development, including, but not limited to, job training and development programs, school-to-work initiatives, work first or programs under the job training partnership act, Public Law 97-300, 96 Stat. 1322, or a successor program.

(4) Unless expressly provided in the amendatory act that added this section, the powers of an intermediate school board or intermediate school district are not diminished by this section or by the amendatory act that added this section.

Sec. 604. An intermediate school district is a body corporate governed by an intermediate school board, to be known as "the intermediate school board of the intermediate school district of the county (or counties) of _____", and under that name may sue and be sued. The intermediate school board may choose a distinctive name for the intermediate school district if approval is given by the state board.

Sec. 623. (1) The intermediate school board shall do all of the following:

(a) Perform duties required by law and by the state board, but shall not supersede or replace the board of a constituent district, nor shall the intermediate school board control or otherwise interfere with the rights of constituent districts or public school academies except as provided in this part.

(b) Employ a superintendent, assistants, and other employees the intermediate school board considers necessary and fix their compensation. The compensation of the intermediate superintendent, assistants, and other employees shall include salaries, travel expenses incurred in the discharge of their official duties, and other benefits the board approves. The necessary contingent expenses of the office of the intermediate school board and the intermediate superintendent shall be paid by the treasurer subject to the authorization of the intermediate school board. The intermediate superintendent shall have the qualifications prescribed in section 651 and perform the duties provided by law and by the intermediate school board.

(2) The business the intermediate school board is authorized to perform shall be conducted at a public meeting of the board held in compliance with the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws. An act of the board shall not be valid unless voted at a meeting by a majority vote of the members elected and serving on the board and a record made of the vote. An action of an intermediate school board on matters of personnel, property transfers, bonding, expenditures of money, or other matters designated by the board's bylaws shall be by yeas and nays vote entered upon its record. Public notice of the time, date, and place of the meeting shall be given in the manner required by section 5 of Act No. 267 of the Public Acts of 1976, being section 15.265 of the Michigan Compiled Laws.

Sec. 624. (1) Not later than April 1 of each year, the intermediate school board shall prepare an annual general fund operating budget, which shall be in the form prescribed by the county tax allocation board, and shall file the budget with the county clerk of each county in which the intermediate school board is situated except a county that has established separate tax limitation millage rates pursuant to sections 5a to 5l of the property tax limitation act, Act No. 62 of the Public Acts of 1933, being sections 211.205a to 211.205l of the Michigan Compiled Laws. Each county clerk receiving the budget shall deliver it to the county tax allocation board in the same manner as other school district budgets are handled.

(2) Not later than June 1 of each year, the board shall submit the budget, for review, to a meeting of 1 board member named from each constituent district to represent the district. At the meeting the president of the intermediate school board shall preside, and the intermediate secretary shall keep the minutes.

(3) The tax allocation board shall receive the budget from its county clerk and shall allocate a tax rate to the intermediate school district. Not later than September 1 of each year, or not later than 5 days after the election if taxes are authorized at an election held pursuant to section 36(2) of the general property tax act, Act No. 206 of the Public Acts of 1893, being section 211.36 of the Michigan Compiled Laws, the secretary of the intermediate school board shall file a certified copy of the resolution of the intermediate school board certifying the taxes to be levied on the taxable property within the intermediate school district with the clerk of each city and township in which the district is situated.

(4) As used in this section, "general fund operating budget" means the budget that includes revenues from the intermediate school district's share of mills as determined by the tax allocation board or by referendum and state school aid. Disbursements from the general fund operating budget shall apply to those expenditures required for the operation of all intermediate school district programs except cooperative education, special education, and vocational education, and may apply to any expenditures from the general fund to assist with the costs of cooperative education, special education, and vocational education.

Sec. 627. (1) An intermediate school board shall do all of the following:

(a) Upon request of the board of a constituent district, furnish services on a management, consultant, or supervisory basis to the district. The intermediate school board may charge a constituent district for the costs of services furnished under this subdivision.

(b) Upon request of the board of a constituent district, direct, supervise, and conduct cooperative educational programs on behalf of the district. The intermediate school board may utilize available funds not otherwise obligated by law and accept contributions from other sources for the purpose of financing the programs. The funds shall be deposited with the treasurer in a cooperative education fund and shall be disbursed as the intermediate school board directs. The intermediate school board may employ personnel and take other action necessary to direct, supervise, and conduct cooperative educational programs.

(c) Conduct cooperative programs mutually agreed upon by 2 or more intermediate school boards.

(d) Conduct cooperative programs mutually agreed upon with 1 or more public school academies.

(2) An intermediate school board may conduct or participate in cooperative programs for information technology systems which may include, but are not limited to, equipment for storage, retrieval, processing, and transmission of voice, data, or video communications; contract with public schools or other educational institutions, government agencies, public broadcasting stations or systems, or information technology service providers in conducting the programs; and acquire and install the equipment, software, and training necessary for the programs in the manner and at the places the intermediate school board considers appropriate.

(3) Upon request of the board of a constituent school district or public school academy located within the intermediate school district, an intermediate school board may provide, either solely or as part of a consortium of intermediate school districts, comprehensive school improvement support services to the district or public school academy. These services may include, but are not limited to, all of the following:

(a) The development of a core curriculum.

(b) The evaluation of a core curriculum.

(c) The preparation of 1 or more school improvement plans.

(d) The dissemination of information concerning 1 or more school improvement plans.

(e) The preparation of an annual educational report.

(f) Professional development.

(g) Educational research.

(h) The compilation of instructional objectives, instructional resources, pupil demographics, and pupil academic achievement.

(i) Assistance in obtaining school accreditation.

(j) The provision of general technical assistance.

(4) To the extent allowed by law, if the most cost-effective business services are not available to constituent districts, an intermediate school board shall offer to provide for constituent districts and public school academies located within

the intermediate school district business services that can be accomplished more cost-effectively by an intermediate school district. An intermediate school district may charge a fee for these services, and may contract with a third party for provision of some or all of these services. These services may include, but are not limited to, any of the following:

- (a) Data processing.
- (b) Payroll.
- (c) Class scheduling.
- (d) Distance learning coordination and delivery.
- (e) Transportation services.

Sec. 687. (1) An intermediate school board in which an area vocational-technical education program is established, by a majority vote of the intermediate school electors voting on the question at an annual or at a special election called for that purpose, may borrow money and issue bonds of the intermediate school district subject to the municipal finance act, Act No. 202 of the Public Acts of 1943, being sections 131.1 to 139.3 of the Michigan Compiled Laws, to defray all or part of the cost of purchasing, erecting, completing, remodeling, improving, furnishing, refurbishing, equipping, or reequipping area vocational-technical buildings and other facilities, or parts thereof or additions thereto; acquiring, preparing, developing, or improving sites, or parts thereof or additions thereto, for area vocational-technical buildings and other facilities; refunding all or part of existing bonded indebtedness; or accomplishing a combination of the foregoing purposes. An intermediate school district shall not issue bonds under this part for an amount greater than 1.5% of the total assessed valuation of the intermediate school district, nor shall the bonded indebtedness of an intermediate school district extend beyond a period of 30 years for money borrowed.

(2) Refunding bonds or the refunding part of a bond issue shall not be deemed to be within the 1.5% limitation but shall be deemed to be authorized in addition thereto. A bond qualified under section 16 of article IX of the state constitution of 1963 and implementing legislation shall not be included for purposes of calculating the foregoing 1.5% limitation.

(3) An intermediate school board may submit a proposal to issue bonds of the intermediate school district, authorized under this section, to the intermediate school electors at the same election at which the intermediate school electors vote on the establishment of an area vocational-technical education program. If these questions are presented to the school electors at the same election, the board shall include the bond proposal in the 60-day notice given the boards of constituent districts. The establishment of an area vocational-technical education program shall become effective if approved by a majority of the intermediate school electors voting on the question. The authority to issue bonds is effective only if a majority of the intermediate school electors approve both the establishment of the area vocational-technical education program and the issuance of bonds.

(4) The ballot used in submitting the question of borrowing money and issuing bonds under this section shall be in substantially the following form:

"Shall _____ (here state the legal name of the intermediate school district designating the name of a district of not less than 18,000 pupils or first class school district that has elected not to come under this act as far as an area vocational-technical education program is concerned) state of Michigan, borrow the sum of not to exceed \$_____ and issue its bonds therefor, for the purpose of _____?"

Yes ()

No ()".

Sec. 690. (1) A school district of not less than 18,000 pupils, a first class school district, or a school district offering or making available to its pupils a comprehensive vocational education program approved by the state board, may elect not to come under an area vocational-technical education program by resolution adopted by its board not later than 30 days after receipt of notice that the question of establishing the area vocational-technical education program will be submitted to the school electors of the district.

(2) A school district electing not to come under the area vocational-technical education program may thereafter elect to come under the program if at a special or annual election a majority of the school electors voting approve the operation of the area vocational-technical education program and the annual tax rate for that purpose in effect in the other constituent districts of the intermediate school district.

(3) Except as provided in this subsection, in an intermediate school district where the school electors have voted upon and failed to approve the ballot question set forth in section 681, a combination of 2 or more contiguous constituent districts, by resolution of their boards, may elect to establish an area vocational-technical education program, if approved by resolution of the intermediate district board and designated by the state board. The requirement of contiguity of constituent districts does not apply if 1 or more of the districts that constitute the basis of contiguity declare their intent, by board resolution, not to be part of the proposed area vocational-technical education program. At any time within 6 months after the enactment of the resolution establishing the program in a local school district, school electors equal in number to not less than 5% of the votes cast in the most recent school election may petition their local school district board to submit the resolution to the electorate, in a form and manner to be prescribed by the state

board, and the district's participation in the program shall be terminated if not approved by a majority of the school electors voting on the question.

(4) Area vocational-technical education programs established pursuant to this section shall receive any appropriate state funding or any federal funding allocated by the state board on exactly the same basis as area vocational-technical education programs and centers established by intermediate school districts. Constituent districts establishing an approved area vocational-technical education program pursuant to this section may designate, by board resolution, specific amounts of either authorized operating millage or operating millage being requested from the school electors to be utilized solely for the area vocational-technical education program, in a manner to be prescribed by the state board, and the specified amount of millage shall be regarded as area vocational-technical education millage rather than local school district operating millage in all computations made by the state board to determine state aid. The revenue obtained from the millage designated, together with appropriate state and federal funds, may be expended for the same purposes specified for intermediate district programs in sections 684 and 685, including contracts with the intermediate school district, another local school district, or a community college for area vocational-technical education programs, facilities, and services. When constituent districts establish area vocational-technical education programs pursuant to this section, buildings, sites, and equipment may be jointly acquired, owned, or leased.

(5) A contiguous school district desiring to become part of an area vocational-technical education program established pursuant to this section may do so with the approval of each participating school district, the intermediate school district, and the state board. Constituent districts operating an approved area vocational-technical education program pursuant to this section may subsequently elect not to participate, or may thereafter elect to participate, in an intermediate school district vocational-technical education program in exactly the same manner prescribed in this section for school districts of not less than 18,000 pupils, a first class school district, or a school district offering or making available to its pupils a comprehensive vocational education program approved by the state board.

Sec. 851. Two or more school districts may consolidate to form a single school district.

Sec. 953a. In making a decision on a proposed transfer of territory under this part, the intermediate school board, or the intermediate school boards meeting jointly, shall consider the welfare of the affected pupil, including, but not limited to, the length of the pupil's commute to and from school, on a school bus or otherwise.

Sec. 971. (1) One or more resident owners of land considered for transfer from 1 school district to another, or the board of a school district whose territory is affected, may appeal the action of the intermediate school board or joint intermediate school boards in transferring the land, the failure to transfer the land, or action relative to the accounting determination to the state board within 10 days after the action or determination by the intermediate school board or the joint intermediate school boards. If the intermediate school board or the joint intermediate school boards fail to take action within the time limit under section 951, the appeal may be made to the state board within 10 days following the termination of the period. The pendency of an appeal shall suspend the action or determination of the intermediate school board or joint intermediate school boards.

(2) The state board may confirm, modify, or set aside the order of the intermediate school board or the joint intermediate school boards. In considering an appeal, the state board shall consider the welfare of the affected pupil, including, but not limited to, the length of the pupil's commute to and from school, on a school bus or otherwise. The action of the state board on the appeal is final.

Sec. 1009. The person receiving the greatest number of votes for the office of member of the board of a district shall be declared elected. After qualifying, the person shall hold office until a successor is elected and qualified.

Sec. 1010. (1) The board of county canvassers established under section 24a of the Michigan election law, Act No. 116 of the Public Acts of 1954, being section 168.24a of the Michigan Compiled Laws, shall canvass school elections except as provided in section 1011.

(2) The secretary of the board shall make certificates of the determination of an election made either by the board of county canvassers or by the board of school canvassers. The determination shall confirm the persons declared elected. The secretary shall file 1 certificate in the office of the intermediate school superintendent. The secretary shall retain 1 certificate.

(3) The person receiving the greatest number of votes as shown by the statements shall be declared to be elected. If there is no choice by reason of 2 or more candidates receiving an equal number of votes for the office, the candidates, under the supervision of the appropriate canvassing board, shall choose by lot the person who is declared elected to the office.

Sec. 1021. (1) In a school election, a candidate in the case of an election for office, or a school elector, in the case of a question or proposition, who believes that there has been fraud or error committed by the board of county canvassers or the board of school canvassers in its canvass or return of the votes cast at the election upon a question or proposition voted upon, or upon the election of a person, may petition the board of county canvassers or the board of school

canvassers not later than 6 days after certification of the results of the election for a recount of the votes cast on the question, proposition, or election.

(2) Upon filing of a petition for a recount, the board of county canvassers shall give notice of the recount under the Michigan election law, Act No. 116 of the Public Acts of 1954, being sections 168.1 to 168.992 of the Michigan Compiled Laws. The recount shall be governed by and conducted under applicable provisions of Act No. 116 of the Public Acts of 1954, regarding recounts for county offices.

Sec. 1031. (1) Each general powers school district shall continue to hold its regular election on the same date the election was held before the effective date of this section or shall hold its regular election on 1 of the following dates determined by the board by a resolution adopted at least 6 months before the proposed new election date:

- (a) Annually or biennially on the first Monday in April.
 - (b) Annually or biennially on the second Monday in June.
 - (c) Annually or biennially at the same time as the November general election.
- (2) The school electors shall elect members of the board at the school district's regular election.

Sec. 1032. (1) The board may submit to the school electors of the school district a measure, proposition, or question that is within the scope of the powers of the electors and that the board considers just and proper for the proper management or conduct of the school system or the advancement of education in the schools of the school district. Upon the adoption of a measure or question by the board, the board shall submit the measure or question to the school electors of the school district at the next ensuing regular school election, at a special election, or if the boundaries of a city or township and the school district are coterminous, at a city or township election.

(2) A special election may be called by the board at times and places in the district the board designates. The board shall call an election on petition of not less than 10% of the school electors of the school district qualified to vote upon the question by giving the prescribed notice. The petition, except as to subject, shall be substantially in the form prescribed in section 1066. A special election may be called on a measure, proposition, or question that may be voted on and decided by the school electors. The questions to be submitted at an election shall be stated briefly in the election notice.

(3) If a portion of or an entire city or township is encompassed within the boundaries of a general powers school district and city or township primary or general elections are held on the same day as an election of the school district, the school election may be conducted by the same inspectors and canvassed, reported, considered, and treated as a part of the city or township primary or general election in all particulars not otherwise specified. The proper officials of the city or township shall prepare and have printed an official ballot on which shall be placed the names in rotation of persons who are candidates for nomination or who have been nominated for membership on the board and the measures, propositions, or questions to be submitted to the school electors of the district at the election.

(4) The expense of special elections called by the board shall be paid to a city or township conducting the election by the board upon presentation of a statement for the expenses. The expenses shall not include charge for use of equipment or services of regular personnel of the city or township, except as may be otherwise agreed between the city or township and the board.

(5) If a measure, proposition, or question is to be submitted to the school electors of the district at an election conducted for a general powers school district by a city or township, the board shall file with the city or township clerk of each city or township whose boundaries are encompassed within the school district a written notice of the adoption by the majority vote of the board of the measure, proposition, or question to be submitted at the election, together with a written draft of the form and purpose of the measure, proposition, or question. The notice shall be under the seal of the board and shall be filed at least 49 days before the election. Upon receipt of the notice, the proper city or township officials shall publish notice of the election in accordance with applicable law.

(6) If the boundaries of a general powers school district are within the boundaries of a single city or township, the city or township clerk, within the time specified for serving notices upon officials elected at a municipal election, shall serve notice of election upon each member of the board elected at the election. In all other general powers districts notice of election shall be served upon each member elected at the election in the manner provided in section 1102.

Sec. 1066. (1) To obtain the printing of the name of a candidate for member of the board on the ballot, the candidate shall file nominating petitions and an affidavit as provided in section 558 of the Michigan election law, Act No. 116 of the Public Acts of 1954, being section 168.558 of the Michigan Compiled Laws, with the secretary of the board or in the office of the board of education not later than 4 p.m. on the ninth Monday before the date of election. A school board holding elections in conjunction with a city election may vary the date of filing nominating petitions to conform with the filing date of the city, as provided in section 644k of Act No. 116 of the Public Acts of 1954, being section 168.644k of the Michigan Compiled Laws.

(2) Each petition shall be signed by a number of school electors of the district equal to not less than 1% of the total number of votes received by the candidate for member of the board of education who received the greatest number of votes at the last election at which members of the board of education were elected, but the number shall not be less

than 20. If a nominating petition contains more than the necessary number of names, the excess over 1% shall not be considered or counted.

(3) A school elector shall not sign petitions for more candidates than are to be elected.

(4) The petition shall be substantially in the form prescribed in section 5446 of Act No. 116 of the Public Acts of 1954, being section 168.544c of the Michigan Compiled Laws, except that the petition shall be nonpartisan and shall include the following opening paragraph:

We, the undersigned, registered and qualified voters of _____
(legal name of school district)
and residents of the _____, the county of _____, state
(city or township)
of Michigan, nominate _____
(name of candidate)
_____, a registered
(street address) (post-office address)
and qualified elector of the district as a member of the board of education of the school district for a term of ____ years,
expiring _____, to be voted for at the election to be held on the _____ day of _____,
(month) (year)

(5) A petition sheet shall not be circulated in more than 1 township or city.

(6) Upon the filing of nominating petitions, the secretary of the board shall canvass the petitions to ascertain if the petitions have been signed by the requisite number of school electors, and for the purpose of determining their validity may check doubtful signatures against the registration records by the clerk of the political subdivision in which each petition was circulated to determine the authenticity of the signatures. If it is determined that the nominating petitions of a candidate do not comply with the requirements, including the fact that the candidate does not possess the qualifications as required by law for membership on the board, or if for another cause the candidate is not entitled to have his or her name printed upon official election ballots, the secretary of the board shall notify the candidate immediately. If nominating petitions are filed on behalf of the secretary of the board, the treasurer of the board shall perform the duties of the secretary.

(7) After a nominating petition is filed by or on behalf of a proposed candidate for membership on the board, the candidate shall not be permitted to withdraw unless a written notice of withdrawal, signed by the candidate, is served on the secretary of the board or an authorized agent of the secretary of the board not later than 4 p.m. of the third day after the last day for filing the petition. The secretary of the board shall notify the county clerk of the names and addresses of the candidates not later than 3 days after the last date for candidate withdrawal. However, if the third day is a Saturday, Sunday, or legal holiday, the notice may be made on the next secular day.

Sec. 1101. (1) A school elector in a school district is eligible to election or appointment to office in that school district.

(2) The term of office of each member of a board of education shall commence on July 1, or on January 1 if the election is in November, and shall continue until a successor is elected and qualified or until a vacancy occurs under section 1103.

Sec. 1104. (1) If less than a majority of the offices of a school district becomes vacant, the remaining members of the board shall fill the vacancy immediately.

(2) If a vacancy is not filled within 20 days after it occurs, the intermediate school board shall fill the vacancy by appointment.

(3) If a majority of the offices are vacant at the same time, the remaining member or members of the board shall immediately call a special election of the school district to fill the vacancies. If the election is not called by the remaining member or members of the board within 20 days after the happening of the vacancies, or if all offices of the members of the board are vacant, the intermediate superintendent shall call a special election of the school district to fill the existing vacancies for unexpired portions of the respective terms. The special election shall be held on a date approved by the county election scheduling committee under section 639 of the Michigan election law, Act No. 116 of the Public Acts of 1954, being section 168.639 of the Michigan Compiled Laws.

(4) A person elected or appointed to fill a vacancy on the board shall file an acceptance of office and qualify under section 1102, and shall hold office until the next regular school election when the vacancy shall be filled for the remainder of the unexpired term.

Sec. 1131. Each school district is subject to and governed by this article except as to those matters which are specifically or by necessary implication provided for a first class school district under part 6, and by articles 3 and 4. An intermediate school district is governed by the provisions of this article that relate specifically to intermediate school districts and by articles 3 and 4.

Sec. 1137. (1) In recognition of the rights of parents and legal guardians, the board of a school district, public school academy, university school, or intermediate school district shall ensure that a parent or legal guardian responsible for the care and custody of a pupil enrolled in the school district, public school academy, university school, or intermediate school district may do all of the following:

(a) Review the curriculum, textbooks, and teaching materials of the school in which the pupil is enrolled at a reasonable time and place and in a reasonable manner.

(b) Be present, to a reasonable degree, and at reasonable times and subject to reasonable restrictions, controls, and limits, to observe instructional activity in a class or course in which the pupil is enrolled and present. As used in this subdivision, "instructional activity" does not include testing.

(2) The board of a school district, public school academy, university school, or intermediate school district may adopt reasonable policies or guidelines under this section. Those policies or guidelines shall not unreasonably prevent the exercise of the rights set forth in subsection (1) and shall not create an unreasonable obstacle to teaching or learning, or to administering or maintaining proper discipline, in a school or school program. If a board adopts policies or guidelines under this subsection, the board shall make the policies or guidelines available to the public.

Sec. 1153. (1) The board of a school district may establish and operate a bilingual instruction program for children of limited English-speaking ability.

(2) A child of limited English-speaking ability residing in a district that does not have an appropriate bilingual instruction program or that is not required to have a bilingual instruction program may enroll in a bilingual instruction program in another school district.

(3) An intermediate school district may operate or contract for the operation of a bilingual program or service, and may carry children enrolled in the program in membership in the same manner as a local school district and be entitled to its proportionate share of state funds available for the program. Membership shall be calculated under rules promulgated by the state board. The intermediate school board shall consider:

(a) Whether the cost of operating an intermediate bilingual instruction-support program is justified by the number of children at each grade level who would benefit from its establishment.

(b) Whether alternative methods of providing a bilingual instruction-support program, such as visiting teachers or part-time instruction, can be provided.

(4) The state shall continue to fund programs of bilingual instruction described in this section at least at the level that instruction is funded in the 1995-1996 state fiscal year.

Sec. 1155. (1) Prior to the placement of a child of limited English-speaking ability in a bilingual instruction program, the board of the local school district in which the child resides shall notify, by registered mail, the child's parents or legal guardian that the child is being enrolled in a bilingual instruction program. The notice shall contain a simple, nontechnical description of the purposes, method, and content of the program and shall inform the parents or guardian that they have the right to visit bilingual instruction classes in which their child is enrolled.

(2) The notice shall be written in English and in the native language of the child of limited English-speaking ability.

(3) The notice shall inform the parents or guardian that they have the absolute right to refuse the placement or to withdraw their child from the program by giving written notice to the board of the local school district in which the child resides.

(1) January 1, New Year's day; the last Monday of May, Memorial or Decoration day; July 4; the first Monday in September, Labor day; the fourth Thursday of November, Thanksgiving day, and December 25, Christmas day, shall be public holidays in the public schools of this state. If 1 of these days falls on Sunday, the Monday following shall be a public holiday in the public schools. A school session shall not be held on the public holidays described in this subsection in a public school in this state. The salary of a school officer or a teacher shall not be affected by reason of the dismissal of school on the days described in this subsection.

(2) On the third Monday in January in conjunction with the federal holiday, Martin Luther King, Jr. day; February 12, Lincoln's birthday; the third Monday of February, Washington's birthday; September 17, the date of the adoption of the federal constitution; the second Monday in October, Columbus day; and November 11, Veteran's day, a school officer or teacher shall have each school under the officer's or teacher's control observe the day by a proper and appropriate commemorative exercise. A commemorative exercise may include or involve the assignment of schoolwork to teach the significance of the days described in this subsection, which shall not be considered as legal holidays for schools.

Sec. 1177. (1) A child enrolling in a public or nonpublic school in this state for the first time shall submit 1 of the following:

(a) A statement signed by a physician that the child has been tested for and immunized or protected against diseases specified by the director of public health.

(b) A statement signed by a parent or guardian to the effect that the child has not been immunized because of religious convictions or other objection to immunization.

(c) A request signed by a parent or guardian that the local health department give the needed protective injections.

(2) In addition, the parent or guardian of each enrolling child shall submit a statement signed by a district, county, or city health department director stating that the child has been administered the department of public health preschool vision screening test, or signed by a licensed medical or osteopathic physician, or a licensed optometrist stating that the child's eyes have been examined during the preschool years after age 3 and before initial entrance. A vision test is not required if there is a statement signed by a parent or guardian to the effect that the child cannot be submitted to the test because of religious convictions.

(3) The director of public health shall appoint an advisory board consisting of equal numbers of ophthalmologists and optometrists. The board shall advise and assist the director of public health with vision programs.

(4) Before November 1 of each year, the administrator of each school shall provide the director of public health with the immunization status as well as a vision report of each entering child. This information shall be transmitted through the approved local full-time health department wherever the same exists and shall be on forms provided by the director of public health or otherwise reported in a manner approved by the director of public health.

(5) The department of public health shall promulgate rules, including the diseases specified under subsection (1)(a), for the implementation of this section.

Sec. 1178. A school administrator, teacher, or other school employee designated by the school administrator, who in good faith administers medication to a pupil in the presence of another adult or in an emergency that threatens the life or health of the pupil, pursuant to written permission of the pupil's parents or guardian, and in compliance with the instructions of a physician is not liable in a criminal action or for civil damages as a result of the administration except for an act or omission amounting to gross negligence or willful and wanton misconduct.

Sec. 1227. (1) The board of a school district shall prepare annual estimates of the amount of taxes necessary for the school district's needs for the ensuing fiscal year. The estimates shall specify the amount required for the "general fund", the amount required for the "capital projects fund", and the amount required for the "debt retirement fund", in accordance with the municipal finance act, Act No. 202 of the Public Acts of 1943, being sections 131.1 to 139.3 of the Michigan Compiled Laws, and outstanding bonding resolutions.

(2) The school board may include in the "capital projects fund" an amount not exceeding in 1 year .01% of the school district's taxable value to establish and maintain a school district insurance reserve fund from which school buildings or other school property damaged or destroyed by fire, lightning, or otherwise may be repaired, rebuilt, or replaced by other buildings or property to be used in its place. Taxes shall not be levied for this purpose while the insurance reserve fund exceeds or equals .1% of the school district's taxable value. The board shall carry the insurance reserves forward as an encumbered reserve and may add to the reserve in the manner prescribed in this section. Insurance reserve funds may be invested in the manner provided in section 1223. Income from the investment shall be considered a part of the "general fund". If an emergency is declared by a 2/3 vote of the members elected to and serving on the board, the insurance reserve funds may be borrowed for the emergency, but the funds shall be returned to the insurance reserve fund from the collection of taxes in the next ensuing fiscal year.

(3) The school board shall adopt a budget in the same manner and form as required for its estimates and, subject to limitations under law, determine the amount of tax levy necessary for the budget. The board shall certify the amount to the city and township before the date required by law.

(4) The proper officials of the city and township shall apportion the school taxes in the school district in the same manner as the other taxes of the city or township are apportioned. Except as otherwise provided under part 26, the amount apportioned shall be assessed, levied, collected, and returned for each portion of the school district in the same manner as taxes of the city or township in which the portion of the school district is located.

Sec. 1228. The board of a school district or intermediate school district may enter into an agreement with a public school academy to provide services to the public school academy or to pupils of the public school academy, or for the public school academy to provide services to the school district or intermediate school district or to pupils of the school district or intermediate school district. The services may be provided on a cooperative basis. A school district or intermediate school district may charge the public school academy, or a public school academy may charge the school district or intermediate school district, for services described in this section.

Sec. 1229. (1) The board of a school district, other than a school district that was organized as a primary school district during the 1995-1996 school year, or intermediate school district shall employ a superintendent of schools, who shall meet the requirements of section 1246. The superintendent shall not be a member of the board. Employment of a superintendent shall be by written contract. The term of the superintendent's contract shall be fixed by the board, not to exceed 5 years. If written notice of nonrenewal of the contract of a superintendent is not given at least 90 days before the termination of the contract, the contract is renewed for an additional 1-year period.

(2) The board of a school district or intermediate school district may employ assistant superintendents, principals, assistant principals, guidance directors, and other administrators who do not assume tenure in that position under Act No. 4 of the Public Acts of the Extra Session of 1937, being sections 38.71 to 38.191 of the Michigan Compiled Laws.

The employment shall be by written contract. The term of the employment contract shall be fixed by the board, not to exceed 3 years. The board shall prescribe the duties of a person described in this subsection. If written notice of nonrenewal of the contract of a person described in this subsection is not given at least 60 days before the termination date of the contract, the contract is renewed for an additional 1-year period.

(3) A notification of nonrenewal of contract of a person described in subsection (2) may be given only for a reason that is not arbitrary or capricious. The board shall not issue a notice of nonrenewal under this section unless the affected person has been provided with not less than 30 days' advance notice that the board is considering the nonrenewal together with a written statement of the reasons the board is considering the nonrenewal. After the issuance of the written statement, but before the nonrenewal statement is issued, the affected person shall be given the opportunity to meet with not less than a majority of the board to discuss the reasons stated in the written statement. The meeting shall be open to the public or a closed session, as the affected person elects under section 8 of the open meetings act, Act No. 267 of the Public Acts of 1976, being section 15.268 of the Michigan Compiled Laws. If the board fails to provide for a meeting with the board, or if a court finds that the reason for nonrenewal is arbitrary or capricious, the affected person's contract is renewed for an additional 1-year period. This subsection does not apply to the nonrenewal of the contract of a superintendent of schools described in subsection (1).

Sec. 1229a. (1) If a person employed by this state as superintendent of public instruction is removed from that position, the state board, or another state agency, shall not enter into a settlement agreement concerning that removal unless the agreement is in settlement of a lawsuit filed against this state.

(2) The state board shall not grant administrative leave for more than a total of 6 months to a person employed, or previously employed, as state superintendent of public instruction.

(3) The state board shall not offer a contract for a person to be employed by this state as superintendent of public instruction, or extend the contract of a superintendent of public instruction, within 6 months before a general election at which state board members are elected or within 2 months after a general election at which state board members are elected. The state board shall not offer a contract for employment of a superintendent of public instruction in excess of 3 years and shall not extend a contract in increments of more than 1 year. This subsection does not prohibit the state board from employing an interim superintendent of public instruction at any time there is a vacancy.

Sec. 1233. (1) Except as provided in this section and section 1233b, the board of a school district or intermediate school district shall not permit a teacher who does not hold a valid teaching certificate to teach in a grade or department of the school, or a teacher without an endorsement by the state board to serve in a counseling role as the role is defined by the state board.

(2) The intermediate superintendent shall notify immediately the state board of the names of noncertificated teachers teaching in violation of subsection (1) and the names of nonendorsed teachers serving in counseling roles in violation of subsection (1), the employing district, and the amount of time the noncertificated and nonendorsed teachers were employed.

(3) The board of a school district or intermediate school district may renew through June 30, 1995 an annual vocational authorization of a noncertificated vocational teacher who is employed by the district or intermediate school district on June 1, 1987, even if a certificated teacher is available for hire, if both of the following conditions are met:

(a) The noncertificated teacher is annually and continually enrolled and completing credit in an approved vocational teacher preparation program leading to vocational certification.

(b) The noncertificated teacher has a planned vocational teacher preparation program leading to vocational certification on file with the employing school district or intermediate school district, his or her teacher preparation institution, and the department.

(4) A vocational teacher preparation institution shall utilize the employment experience of an annually authorized teacher for the purpose of waiving student teaching as a requirement for vocational certification if the annually authorized teacher is supervised by the teacher preparation institution.

(5) All vocational education teachers certified after June 1, 1995 shall pass a competency test.

(6) The board of a school district or intermediate school district may employ a person without a teaching certificate as a substitute teacher if the person has at least 90 semester hours of college credit from a college or university.

Sec. 1233b. (1) Except as provided in subsection (3), the board of a local or intermediate school district may engage a full-time or part-time noncertificated, nonendorsed teacher to teach a course in computer science, a foreign language, mathematics, biology, chemistry, engineering, physics, robotics, or in another subject area determined by the state board to be appropriate to be included under this section and so designated by the state board, or any combination of these subject areas, in grades 9 through 12.

(2) Subject to subsection (3), a noncertificated, nonendorsed teacher is qualified to teach pursuant to this section if he or she meets all of the following minimum requirements:

(a) Possesses an earned bachelor's degree from an accredited postsecondary institution.

(b) Has a major or a graduate degree in the field of specialization in which he or she will teach.

(c) If the teacher desires to teach for more than 1 year, has passed both a basic skills examination and a subject area examination, if a subject area examination exists, in the field of specialization in which he or she will teach.

(d) Except in the case of persons engaged to teach a foreign language, has, in the 5-year period immediately preceding the date of hire, not less than 2 years of occupational experience in the field of specialization in which he or she will teach.

(3) The requirements listed in subsection (2) for a teacher engaged to teach pursuant to this section shall be in addition to any other requirements established by the board of a local or intermediate school district, as applicable.

(4) Except as provided in subsection (5), the board of a local or intermediate school district shall not engage a full-time or part-time noncertificated, nonendorsed teacher to teach a course described in subsection (1) if the district is able to engage a certificated, endorsed teacher.

(5) If the board of a local or intermediate school district is able to engage a certificated, endorsed teacher to teach a course described in subsection (1), the local or intermediate school board may employ or continue to employ a noncertificated, nonendorsed teacher to teach the course if both of the following conditions are met:

(a) The noncertificated, nonendorsed teacher is annually and continually enrolled and completing credit in an approved teacher preparation program leading to a provisional teaching certificate.

(b) The noncertificated, nonendorsed teacher has a planned program leading to teacher certification on file with the employing school district or intermediate school district, his or her teacher preparation institution, and the department of education.

(6) If the noncertificated, nonendorsed teacher completes 3 years of successful classroom teaching, as determined by regular observation and review by school district and teacher preparation institution personnel, the department of education and a teacher preparation institution shall utilize the teaching experience of a noncertificated, nonendorsed teacher for the purpose of waiving student teaching as a condition for receiving a continued employment authorization in the school district and a provisional teaching certificate.

Sec. 1236. (1) If a teacher is employed as a substitute teacher with an assignment to 1 specific teaching position, then after 60 days of service in that assignment the teacher shall be granted for the duration of that assignment leave time and other privileges granted to regular teachers by the school district, including a salary not less than the minimum salary on the current salary schedule for that district.

(2) A teacher employed as a substitute teacher for 150 days or more during a legal school year of not less than 180 days, or employed as a substitute teacher for 180 days or more by an intermediate school district that operates any program for 220 days or more as required by administrative rule, shall be given during the balance of the school year or during the next succeeding legal school year only the first opportunity to accept or reject a contract for which the substitute teacher is certified, after all other teachers of the school district are reemployed in conformance with the terms of a master contract of an authorized bargaining unit and the employer.

(3) As used in this section, "day" means the working day of the regular, full-time teacher for whom the substitute teacher substitutes. A quarter-day, half-day, or other fractional day of substitute service shall be counted only as that fraction. However, a fraction of a day that is acknowledged by the school district and paid as a full day shall be counted as a full day for purposes of this section.

Sec. 1246. (1) A school district, public school academy, or intermediate school district shall not employ a person as a superintendent, principal, assistant principal, or other person whose primary responsibility is administering instructional programs or as a chief business official unless the person has completed the continuing education requirements prescribed by state board rule under subsection (2).

(2) The state board shall promulgate rules establishing continuing education requirements as a condition for continued employment for persons employed in positions described in subsection (1). The rules shall prescribe a minimum amount of continuing education to be completed within a 5-year period.

Sec. 1250. A school district or intermediate school district may implement and maintain a method of compensation for its employees that is based on job performance and job accomplishments.

Sec. 1254. (1) Except as provided in subsection (3) and section 1217a, the board of a school district or intermediate school district may pay the actual and necessary expenses incurred by its members and employees in the discharge of official duties or in the performance of functions authorized by the board. The expenditure shall be a public record and shall be made available to a person upon request.

(2) The board of a school district or intermediate school district shall not approve payment of an expense incurred by a board member under subsection (1) unless 1 or both of the following conditions are met:

(a) The board, by a majority vote of its members at an open meeting, approved reimbursement of the specific expense before the expense was incurred.

(b) The expense is consistent with a policy adopted by the board, by a majority vote of its members at a regular board meeting, establishing specific categories of reimbursable expenses and the board, by a majority vote of its members at an open meeting, approves the reimbursement before it is actually paid.

(3) The board of any school district shall not provide, allow, or obtain credit cards for, issue credit cards to, or provide to a school board member a debit card or similar instrument that pledges payment of funds from a school district account except in compliance with law.

Sec. 1260. (1) Unless approved by the state board, a school board or intermediate school board shall not impose any deed restriction prohibiting, or otherwise prohibit, property sold or transferred by the school board or intermediate school board from being used for any lawful public education purpose. Any deed restriction or other prohibition in effect as of the effective date of this subsection is void.

(2) If a school board or intermediate school board offers property of the school board or intermediate school board for lease or rent, the school board or intermediate school board shall not refuse to lease or rent the property to a person solely because the person intends to use the property for an educational purpose, if the intent of the person is to use the property for a lawful educational purpose.

Sec. 1267. (1) Before commencing construction of a new school building, or addition to or repair or renovation of an existing school building, except repair in emergency situations, the board of a school district or board of directors of a public school academy, shall obtain competitive bids on all the material and labor required for the complete construction of a proposed new building or addition to or repair or renovation of an existing school building.

(2) The board or board of directors shall advertise for the bids required under subsection (1) once each week for 2 successive weeks in a newspaper of general circulation in the area where the building or addition is to be constructed or where the repair or renovation of an existing building is to take place. (b) State that the board or board of directors will not consider or accept a bid received by the board or board of directors after the date and time specified for bid submission.

(c) Identify the time, date, and place of a public meeting at which the board or board of directors or its designee will open and read aloud each bid received by the board or board of directors by the date and time specified in subdivision (a).

(3) The board or board of directors shall require each bidder for a contract under this section to file with the board or board of directors security in an amount not less than 1/20 of the amount of the bid conditioned to secure the school district from loss or damage by reason of the withdrawal of the bid or by the failure of the bidder to enter a contract for performance, if the bid is accepted by the board or board of directors.

(4) The board or board of directors shall not open, consider, or accept a bid that the board or board of directors receives after the date and time specified for bid submission in the advertisement for bids described in subsection (2).

(5) At a public meeting identified in the advertisement for bids described in subsection (2), the board or board of directors or its designee shall open and read aloud each bid that the board or board of directors received at or before the time and date for bid submission specified in the advertisement for bids. The board or board of directors may reject any or all bids, and if all bids are rejected, shall readvertise in the manner required by this section.

(6) This section does not apply to buildings, renovations, or repairs costing less than \$12,500.00 or to repair work normally performed by school district employees. The maximum amount specified in this subsection shall be adjusted each year by multiplying the amount for the immediately preceding year by the percentage by which the average consumer price index for all items for the 12 months ending August 31 of the year in which the adjustment is made differs from that index's average for the 12 months ending on August 31 of the immediately preceding year and adding that product to the maximum amount that applied in the immediately preceding year, rounding to the nearest whole dollar.

Sec. 1269. The board of a school district other than a first class school district shall insure school district property unless otherwise directed by the school electors. The governing board of a public school academy shall insure public school academy property. The insurance may be obtained from mutual, stock, or other responsible companies licensed to do business in this state.

Sec. 1272a. (1) The board of a K to 12 school district shall, and the board of another school district may, establish and operate a program under which lunch is made available to all full-time pupils enrolled and in regular daily attendance at each public school of the school district.

(2) The board of a K to 12 school district shall establish and operate a program under which breakfast is made available to all full-time pupils enrolled and in regular daily attendance at each public school of the school district unless no more than 20% of the pupils enrolled in the school building in the immediately preceding school year met the income eligibility criteria for free or reduced-price lunch under the federally funded school lunch program, as determined using

October claims reported to the department by December 31 of the immediately preceding school year, and, after a public hearing on the issue, which shall be held annually with notice to parents and pupils, the board decides not to operate such a program in that school building and publishes a public justification report explaining its decision. The board of another school district may establish and operate a school breakfast program.

(3) To the extent permitted by federal law, the department shall encourage innovative cost effective models of breakfast distribution designed to maximize pupil participation.

Sec. 1277. (1) Considering criteria established by the state board, in addition to the requirements specified in section 1280 for accreditation under that section, if the board of a school district wants all of the schools of the school district to be accredited under section 1280, the board shall adopt and implement and, not later than September 1 each year, shall make available to the department a copy of a 3- to 5-year school improvement plan and continuing school improvement process for each school within the school district. The school improvement plans shall include, but are not limited to, a mission statement, goals based on student academic objectives for all students, curriculum alignment corresponding with those goals, evaluation processes, staff development, development and utilization of community resources and volunteers, the role of adult and community education, libraries and community colleges in the learning community, and building level decision making. School board members, school building administrators, teachers and other school employees, pupils, parents of pupils attending that school, and other residents of the school district shall be invited and allowed to voluntarily participate in the planning, development, implementation, and evaluation of the district's school improvement plans. Upon request of the board of a school district, the department and the intermediate school district shall assist the school district in the development and implementation of district school improvement plans. Educational organizations may also provide assistance for these purposes. School improvement plans described in this section shall be updated annually by each school and by the board of the school district.

- (d) Identification of changes that must be made in order to provide graduates with the necessary education and skills and specific recommendations for implementing those changes.
- (e) Development of alternative measures of assessment that will provide authentic assessment of pupils' achievements, skills, and competencies.
- (f) Methods for effective use of technology as a way of improving learning and delivery of services and for integration of evolving technology in the curriculum.
- (g) Ways to make available in as many fields as practicable opportunities for structured on-the-job learning, such as apprenticeships and internships, combined with classroom instruction.

(3) Each intermediate school board shall adopt and implement and, not later than September 1 each year, shall make available to the department a copy of a 3- to 5-year intermediate school district school improvement plan and continuing school improvement process for the intermediate school district. Constituent and intermediate school board members, school building administrators, teachers and other school employees, pupils, parents of pupils, and other residents of the intermediate school district shall be invited and allowed to voluntarily participate in the planning, development, implementation, and evaluation of the intermediate school district's school improvement plan. - (d) Methods to assist school districts in integrating applied academics and career and employability skills into all curricular areas.
- (e) Ways to make available in as many fields as practicable opportunities for structured on-the-job learning, such as apprenticeships and internships, combined with classroom instruction.
- (f) Coordination of services and service delivery with other existing state and local human services agencies.

(g) Long-range cost containment measures, including additional services that might be provided at reduced costs by the intermediate school district or through cooperative programs, and cost reduction programs such as interdistrict cooperation in special education and other programs and services.

(h) To the extent that it would improve school effectiveness, specific recommendations on consolidation or enhanced interdistrict cooperation, or both, along with possible sources of revenue.

(i) Identification of the role of the intermediate school district in providing services or assistance to local school districts.

(4) The state board shall annually review a random sampling of school improvement plans. Based on its review, the state board shall annually submit a report on school improvement activities planned and accomplished by each of the school districts and intermediate school districts that were part of the sampling to the senate and house committees that have the responsibility for education legislation.

Sec. 1278. (1) In addition to the requirements for accreditation under section 1280 specified in that section, if the board of a school district wants all of the schools of the school district to be accredited under section 1280, the board shall provide to all pupils attending public school in the district a core academic curriculum in compliance with subsection (3) in each of the curricular areas specified in the state board recommended model core academic curriculum content standards developed under subsection (2). The state board model core academic curriculum content standards shall encompass academic and cognitive instruction only. For purposes of this section, the state board model core academic curriculum content standards shall not include attitudes, beliefs, or value systems that are not essential in the legal, economic, and social structure of our society and to the personal and social responsibility of citizens of our society.

(2) Recommended model core academic curriculum content standards shall be developed and periodically updated by the state board, shall be in the form of knowledge and skill content standards that are recommended as state standards for adoption by public schools in local curriculum formulation and adoption, and shall be distributed to each school district in the state. The recommended model core academic curriculum content standards shall set forth desired learning objectives in math, science, reading, history, geography, economics, American government, and writing for all children at each stage of schooling and be based upon the "Michigan K-12 program standards of quality" to ensure that high academic standards, academic skills, and academic subject matters are built into the instructional goals of all school districts for all children. The state board also shall ensure that the Michigan educational assessment program and the high school proficiency exam are based on the state recommended model core curriculum content standards, are testing only for proficiency in basic academic skills and academic subject matter, and are not used to measure pupils' values or attitudes.

(3) The board of each school district, considering academic curricular objectives defined and recommended pursuant to subsection (2), shall do both of the following:

(a) Establish a core academic curriculum for its pupils at the elementary, middle, and secondary school levels. The core academic curriculum shall define academic objectives to be achieved by all pupils and shall be based upon the school district's educational mission, long-range pupil goals, and pupil performance objectives. The core academic curriculum may vary from the model core academic curriculum content standards recommended by the state board pursuant to subsection (2).

(b) After consulting with teachers and school building administrators, determine the aligned instructional program for delivering the core academic curriculum and identify the courses and programs in which the core academic curriculum will be taught.

(4) The board may supplement the core academic curriculum by providing instruction through additional classes and programs.

(5) For all pupils, the subjects or courses, and the delivery of those including special assistance, that constitute the curriculum the pupils engage in shall assure the pupils have a realistic opportunity to learn all subjects and courses required by the district's core academic curriculum in order to give all pupils a reasonable opportunity to attain a state-endorsed diploma. A subject or course required by the core academic curriculum pursuant to subsection (3) shall be provided to all pupils in the school district by a school district, a consortium of school districts, or a consortium of 1 or more school districts and 1 or more intermediate school districts.

(6) To the extent practicable, the state board may adopt or develop academic objective-oriented high standards for knowledge and life skills, and a recommended core academic curriculum, for special education pupils for whom it may not be realistic or desirable to expect achievement of novice level or initial mastery of the state board recommended model core academic content standards objectives or of a high school diploma.

(7) The state board shall make available to all nonpublic schools in this state, as a resource for their consideration, the model core academic curriculum content standards developed for public schools pursuant to subsection (2) for the purpose of assisting the governing body of a nonpublic school in developing its core academic curriculum.

(8) Excluding special education pupils, pupils having a learning disability, and pupils with extenuating circumstances as determined by school officials, a pupil who does not score satisfactorily on the 4th or 7th grade Michigan educational assessment program reading test shall be provided special assistance reasonably expected to enable the pupil to bring his or her reading skills to grade level within 12 months.

(9) Any course that would have been considered a nonessential elective course under Snyder v Charlotte School Dist. 421 Mich 517 (1984), on April 13, 1990 shall continue to be offered to resident pupils of nonpublic schools on a shared time basis.

Sec. 1279. (1) The board of a school district or public school academy shall award a state-endorsed high school diploma to an eligible high school graduate as provided in this section. For a pupil scheduled to graduate from high school in 1994, 1995, or 1996 to be eligible for a state endorsement in 1 or more of the subject areas of communication arts, mathematics, or science, the pupil must achieve at least 1 of the following:

(a) A passing score on locally-adopted and state-approved basic proficiency tests measuring proficiency in 1 or more of the subject areas specified in this subsection.

(b) If the pupil is eligible to take the general education development (G.E.D.) test, a passing score in 1 or more of the subject areas specified in this subsection and tested in the G.E.D. test.

(c) For a state endorsement in communications arts, at least a score of moderate on the reading portion of the Michigan educational assessment program (MEAP) grade 10 test; for a state endorsement in mathematics, at least a score of moderate on the mathematics portion of the MEAP grade 10 test; and, for a state endorsement in science, at least 50% of the objectives on the science portion of the MEAP grade 11 test. For pupils scheduled to graduate in 1997, the department may use a version of the science assessment instrument developed under subsection (8) instead of the science portion of the MEAP grade 11 test, and, in its discretion, may administer that science assessment instrument in the fall of 1995 or the spring of 1996, or both. If the department uses that science assessment instrument, as provided under this subdivision, the department, based on expert advice, shall determine the level of proficiency that must be demonstrated for a pupil scheduled to graduate in 1997 to earn a state endorsement in science.

(2) For pupils scheduled to graduate from high school in 1997, if a pupil achieves the academic objectives required by the state board, as measured by an assessment instrument developed under subsection (8), for a state-endorsed high school diploma, or meets the requirements described in subsection (1)(c) for a state-endorsed diploma, in 1 or more of the subject areas of communications skills, mathematics, and science, the pupil's school district or public school academy shall award a state endorsement on the pupil's diploma in each of the subject areas in which the pupil demonstrated the required proficiency. Beginning with pupils scheduled to graduate in 1998, if a pupil achieves the objectives required by the state board, as measured by an assessment instrument developed under subsection (8), for a state-endorsed high school diploma in 1 or more of the subject areas of communications skills, mathematics, science, and, beginning with pupils scheduled to graduate in 2000, social studies, the pupil's school district or public school academy shall award a state endorsement on the pupil's diploma in each of the subject areas in which the pupil demonstrated the required proficiency. A school district or public school academy shall not award a state endorsement to a pupil unless the pupil meets the applicable requirements for the endorsement, as described in this subsection. A school district or public school academy may award a high school diploma to a pupil who successfully completes local school district or public school academy requirements established in accordance with state law for high school graduation, regardless of whether the pupil is eligible for any state endorsement.

(3) A school district that offers a pupil the opportunity to pass a basic proficiency test described in subsection (1)(a) as 1 means to obtain a state-endorsed diploma in 1994, 1995, or 1996 may submit the school district's own basic proficiency test to the department for approval to be used by the district to assess proficiency.

(4) A pupil who does not achieve at least 1 of the requirements listed in subsection (1) or the requirements of subsection (2), as applicable, may be reevaluated each school year until the pupil achieves an applicable requirement for a state-endorsed diploma. In addition, the board of the school district or public school academy in which the pupil is enrolled shall provide that there be at least 1 meeting attended by at least the pupil and a member of the school district's or public school academy's staff or a local or intermediate school district consultant who is proficient in the measurement and evaluation of pupils. The school district or public school academy may provide the meeting as a group meeting for pupils in similar circumstances. If the pupil is a minor, the school district or public school academy shall invite and encourage the pupil's parent, legal guardian, or person in loco parentis to attend the meeting and shall mail a notice of the meeting to the pupil's parent, legal guardian, or person in loco parentis. The purpose of this meeting and any subsequent meeting under this subsection shall be to determine an educational program for the pupil designed to have the pupil reach proficiency in each subject or skill area in which he or she was assessed by the testing as not proficient. In addition, a school district or public school academy may provide for subsequent meetings with the pupil conducted by a high school counselor or teacher designated by the pupil's high school principal, and shall invite and encourage the pupil's parent, legal guardian, or person in loco parentis to attend the subsequent meetings. The school district or public school academy shall provide special programs for the pupil or develop a program using the educational programs regularly provided by the district unless the board of the school district or public school academy decides otherwise and publishes and explains its decision in a public justification report. A pupil may be reevaluated at any time the school district or public school academy administers an applicable assessment instrument.

(5) For a state-endorsed diploma, a pupil must achieve at least 1 of the requirements listed in subsection (1) or the requirements of subsection (2), as applicable, in addition to any other requirements established by law or by the board of the school district or public school academy for a high school diploma. If the board of a school district or public school

academy determines that a pupil qualifies for a state-endorsed diploma, the board shall indicate on the pupil's high school diploma and transcript that the pupil achieved the proficiency necessary for receipt of a state-endorsed diploma.

(6) An individual may repeat any of the tests or assessment instruments specified in subsection (1) or subsection (2), as applicable, at any time the school district or public school academy regularly offers the test or assessment or, for the MEAP tests described in subsection (1)(c), during the established testing period, and, upon achieving at least 1 of the requirements listed in subsection (1) or the requirements of subsection (2), as applicable, and completing all other applicable requirements for a high school diploma, shall be awarded a state-endorsed diploma.

(7) A school district or public school academy shall provide accommodations to a pupil with disabilities for the proficiency testing or assessment required under this section, as provided under section 504 of title V of the rehabilitation act of 1973, Public Law 93-112, 29 U.S.C. 794; subtitle A of title II of the Americans with disabilities act of 1990, Public Law 101-336, 42 U.S.C. 12131 to 12134; and the implementing regulations for those statutes. A special education pupil scheduled to graduate in 1994, 1995, or 1996 who has passed an alternative form of assessment permitted under section 104a of the state school aid act of 1979, being section 388.1604a of the Michigan Compiled Laws, as that section was in effect for the 1992-93 state fiscal year, shall receive the applicable endorsement under this section.

(8) For the purposes of this section, the state board shall develop or select and approve assessment instruments to determine pupil proficiency in communications skills, mathematics, social studies, and science. The assessment instruments shall be based on the state board model core academic content standards objectives.

(9) The state board shall develop or select and approve assessment instruments for the purpose of awarding state endorsements of advanced mastery in specified subject areas.

(10) The state board shall establish a novice level score for each state-endorsed diploma assessment developed or selected and approved under subsection (8). If a graduate achieves a novice level score in a subject area on an assessment, the transcript shall include a notation to that effect but shall not be considered to be a state-endorsed diploma for that subject area.

(11) All assessment instruments developed or selected and approved by the state under any statute or rule for a purpose related to K to 12 education shall be objective-oriented and consistent with the state board model core academic curriculum.

(12) Upon payment of a reasonable fee any person may take the state-endorsed diploma test and, upon achieving the initial mastery level in a subject area, have his or her high school diploma state-endorsed for that subject area.

Sec. 1279c. The state board, the board of each school district, and each public school academy shall ensure that the Michigan educational assessment program (MEAP) tests are not used to measure pupils' values or attitudes.

Sec. 1280. (1) The board of a school district that does not want to be subject to the measures described in this section shall ensure that each public school within the school district is accredited.

(2) As used in subsection (1), and subject to subsection (6), "accredited" means certified by the state board as having met or exceeded state board-approved standards established for 6 areas of school operation: administration and school organization, curricula, staff, school plant and facilities, school and community relations, and school improvement plans and student performance. The building-level evaluation used in the accreditation process shall include, but is not limited to, school data collection, self-study, visitation and validation, determination of performance data to be used, and the development of a school improvement plan.

(3) The department shall develop and distribute to all public schools proposed accreditation standards. Upon distribution of the proposed standards, the department shall hold statewide public hearings for the purpose of receiving testimony concerning the standards. After a review of the testimony, the department shall revise and submit the proposed standards to the state board. After a review and revision, if appropriate, of the proposed standards, the state board shall submit the proposed standards to the senate and house committees that have the responsibility for education legislation. Upon approval by these committees, the department shall distribute to all public schools the standards to be applied to each school for accreditation purposes.

(4) The department shall develop and distribute to all public schools standards for determining that a school is eligible for summary accreditation under subsection (6). The standards shall be developed, reviewed, approved, and distributed using the same process as prescribed in subsection (3) for accreditation standards, and shall be finally distributed and implemented not later than December 31, 1994.

(5) The standards for accreditation or summary accreditation under this section shall include pupil performance on Michigan education assessment program (MEAP) tests as a criterion, but shall not be based solely on pupil performance on MEAP tests. The standards shall also include multiple year change in pupil performance on those tests as a criterion. If it is necessary for the state board to revise accreditation or summary accreditation standards established under subsection (3) or (4) to comply with this subsection, the revised standards shall be developed, reviewed, approved, and distributed using the same process as prescribed in subsection (3).

(6) If the department determines that a public school has met the standards established under subsection (4) or (5) for summary accreditation, the school is considered to be accredited without the necessity for a full building-level evaluation under subsection (2).

(7) If the department determines that a school has not met the standards established under subsection (4) or (5) for summary accreditation but that the school is making progress toward meeting those standards, or if, based on a full building-level evaluation under subsection (2), the department determines that a school has not met the standards for accreditation but is making progress toward meeting those standards, the school is in interim status and is subject to a full building-level evaluation as provided in this section.

(8) If a school has not met the standards established under subsection (4) or (5) for summary accreditation and is not eligible for interim status under subsection (7), the school is unaccredited and subject to the measures provided in this section.

(9) The department shall annually review and evaluate for accreditation purposes the performance of each school that is unaccredited and as many of the schools that are in interim status as permitted by the department's resources.

(10) The department shall, and the intermediate school district to which a school district is constituent, a consortium of intermediate school districts, or any combination thereof may, provide technical assistance, as appropriate, to a school that is unaccredited or that is in interim status upon request of the board of the school district in which the school is located. If requests to the department for technical assistance exceed the capacity, priority shall be given to unaccredited schools.

(11) A school that has been unaccredited for 3 consecutive years is subject to 1 or more of the following measures, as determined by the superintendent of public instruction:

(a) The superintendent of public instruction or his or her designee shall appoint at the expense of the affected school district an administrator of the school until the school becomes accredited.

(b) A parent, legal guardian, or person in loco parentis of a child who attends the school may send his or her child to any accredited public school with an appropriate grade level within the school district.

(c) The school, with the approval of the superintendent of public instruction, shall align itself with an existing research-based school improvement model or establish an affiliation for providing assistance to the school with a college or university located in this state.

(d) The school shall be closed.

(12) The department shall evaluate the school accreditation program and the status of schools under this section and shall submit an annual report based upon the evaluation to the senate and house committees that have the responsibility for education legislation. The report shall address the reasons each unaccredited school is not accredited and shall recommend legislative action that will result in the accreditation of all public schools in this state.

Sec. 1281. (1) The state board shall:

(a) Require each board, each public school academy board of directors, each intermediate school board, and the officers of each of those boards to observe the laws relating to schools.

(b) Require each board to maintain school or to provide educational opportunities for resident children for the statutory period.

(c) Prescribe appropriate uniform pupil and finance accounting records for use in school districts, public school academies, and intermediate school districts and promulgate rules for their adoption.

(d) Require each board, each public school academy board of directors, and each intermediate school board to carry out the state board's recommendations relative to the safety of school buildings, equipment, and appurtenances, including any condition that may endanger the health or life of pupils.

(2) The state board may examine and audit the official records and accounts of school districts, public school academies, and intermediate school districts, and may compel proper accounting by legal action instituted by direction of the attorney general.

(3) Upon application by a school district, public school academy, university school, or intermediate school district, the state board may grant to the school district, public school academy, university school, or intermediate school district a limited time waiver from a state board or department rule interpreting or implementing a provision of this act. The state board may grant a waiver only if the school district, public school academy, university school, or intermediate school district demonstrates that it can address the intent of the rule in a more effective, efficient, or economical manner or that the waiver is necessary to stimulate improved pupil performance. A waiver shall not be granted for more than 3 years, but may be renewed. The state board may place conditions on a waiver or its renewal. The state board may revoke a waiver if it determines that the waiver no longer meets the criteria of this subsection, compromises equal opportunities for learning, or is detrimental to the educational interests of pupils. The state board may not grant a waiver from the duty to comply with a provision of this act, and may not grant a waiver from the duty to comply with another state statute unless and to the extent that a waiver is specifically allowed by that other state statute.

Sec. 1284. (1) The board of a school district or of a public school academy shall determine the length of the school term. However, except as otherwise provided in subsections (2) and (3), if the board does not want the school district's or public school academy's state school aid payments to be withheld as described in section 101 of the state school aid act of 1979, being section 388.1701 of the Michigan Compiled Laws, the board shall ensure that the minimum number of days of pupil instruction in a school year is 180 through the 1996-1997 school year and is 181 in the 1997-1998 school

year, 182 in the 1998-1999 school year, 183 in the 1999-2000 school year, 184 in the 2000-2001 school year, 185 in the 2001-2002 school year, 186 in the 2002-2003 school year, 187 in the 2003-2004 school year, 188 in the 2004-2005 school year, 189 in the 2005-2006 school year, and 190 in the 2006-2007 school year and each succeeding school year, and shall ensure that the minimum number of hours of pupil instruction in a school year is 900 for the 1994-95 school year, 990 for the 1995-96 and 1996-97 school years, 1,041 for the 1997-1998 school year, 1,047 for the 1998-1999 school year, 1,098 for the 1999-2000 school year, 1,104 for the 2000-2001 school year, 1,110 for the 2001-2002 school year, 1,116 for the 2002-2003 school year, 1,122 for the 2003-2004 school year, 1,128 for the 2004-2005 school year, 1,134 for the 2005-2006 school year, and 1,140 for the 2006-2007 school year and each succeeding school year.

(2) If the percentage growth in the basic foundation allowance under section 20 of the state school aid act of 1979, being section 388.1620 of the Michigan Compiled Laws, for a state fiscal year, as compared to the basic foundation allowance for the immediately preceding state fiscal year, is less than the percentage increase in the average consumer price index for all items, as determined by the United States bureau of labor statistics, for the 12-month period ending on the June 30 immediately preceding the beginning of the state fiscal year, then there shall be no increase in the required minimum number of days or hours of pupil instruction under subsection (1) for the school year ending in the state fiscal year. For the next school year after a school year for which there is no increase in the required minimum number of days and hours of pupil instruction under subsection (1) because of the operation of this subsection, and if the first sentence of this subsection does not apply, the increase in the required minimum number of days and hours of pupil instruction shall only be 1 day and the corresponding number of hours. This subsection shall apply and shall operate to limit increases under subsection (1) until the required minimum number of days and hours of pupil instruction under this section is 190 days and 1,140 hours.

(3) The board of a school district or public school academy, by resolution, may choose to provide less than the number of days of pupil instruction required under subsection (1), but shall provide at least 180 days of pupil instruction and at least the number of hours of pupil instruction required under subsection (1).

(4) Not later than August 1, the board of each school district and of each public school academy shall certify to the state board the number of days and hours of pupil instruction in the previous school year.

(5) Days lost because of strikes or teachers' conferences shall not be counted as days of pupil instruction.

(6) The state board shall promulgate rules for the implementation of this section.

Sec. 1289. Female pupils shall be permitted to compete for a position in all interscholastic athletic activities. If a school has a girls' team in an interscholastic athletic activity, a female shall be permitted to compete for a position on any other team for that activity. This subsection shall not be construed to prevent or interfere with the selection of competing teams solely on the basis of athletic ability.

Sec. 1299. (1) A public school that has a limited open forum shall not deny equal access or a fair opportunity to, or discriminate against, any pupil or pupils who wish to conduct a meeting within that limited open forum on the basis of the religious, political, philosophical, or other content of the speech at the meeting. A public school has a limited open forum whenever the public school grants an offering to or opportunity for 1 or more noncurriculum-related student groups to meet on school premises during noninstructional time. Public schools shall be considered to offer a fair opportunity to pupils who wish to conduct a meeting within the limited open forum if the public school uniformly provides for all of the following:

(a) The meeting is voluntary and student-initiated.

(b) There is no sponsorship of the meeting by the public school, the government, or either's agents or employees.

(c) Employees or agents of the public school or government are present at religious meetings only in a nonparticipatory capacity.

(d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school.

(e) Persons not affiliated with the public school may not direct, conduct, control, or regularly attend activities of student groups.

(2) Subsection (1) does not authorize this state or any political subdivision of this state to do any of the following:

(a) Influence the form or content of any prayer or other religious activity.

(b) Require any person to participate in prayer or other religious activity.

(c) Expend public funds beyond the incidental cost of providing the space for student-initiated meetings.

(d) Compel any school agent or employee to attend a school meeting if the content of the speech at the meeting is contrary to the beliefs of the agent or employee.

(e) Sanction meetings that are otherwise unlawful.

(f) Limit the rights of groups of pupils which are not of a specified numerical size.

(g) Abridge the constitutional rights of any person.

(3) Subsection (1) does not limit the authority of a public school to maintain order and discipline on school premises, to protect the well-being of pupils and faculty, and to assure that attendance of pupils at meetings is voluntary.

(4) As used in this section:

(a) "Meeting" includes those activities of student groups that are permitted under a public school's limited open forum and are not directly related to the school curriculum.

(b) "Noninstructional time" means time set aside by the school before actual classroom instruction begins or after actual classroom instruction ends.

(c) "Public school" includes a public school's employees and persons or entities under contract with the public school.

(d) "Sponsorship" includes the act of promoting, leading, or participating in a meeting. The assignment of a teacher, administrator, or other school employee to a meeting for custodial purposes does not constitute sponsorship of the meeting.

Sec. 1303. The board of a school district shall not permit any pupil to carry a pocket pager, electronic communication device, or other personal communication device in school except for health or other unusual reasons approved by the board, and may develop penalties that it considers appropriate for a pupil who violates this prohibition.

Sec. 1312. (1) As used in this section, "corporal punishment" means the deliberate infliction of physical pain by hitting, paddling, spanking, slapping, or any other physical force used as a means of discipline.

(2) Corporal punishment does not include physical pain caused by reasonable physical activities associated with athletic training.

(3) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy shall not inflict or cause to be inflicted corporal punishment upon any pupil under any circumstances.

(4) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy may use reasonable physical force upon a pupil as necessary to maintain order and control in a school or school-related setting for the purpose of providing an environment conducive to safety and learning. In maintaining that order and control, the person may use physical force upon a pupil as may be necessary:

(a) To restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school district or public school academy functions within a school or at a school-related activity, if that pupil has refused to comply with a request to refrain from further disruptive acts.

(b) For self-defense or the defense of another.

(c) To prevent a pupil from inflicting harm on himself or herself.

(d) To quell a disturbance that threatens physical injury to any person.

(e) To obtain possession of a weapon or other dangerous object upon or within the control of a pupil.

(f) To protect property.

(5) A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy who exercises necessary reasonable physical force upon a pupil, or upon another person of school age in a school-related setting, as described in subsection (4) is not liable in a civil action for damages arising from the use of that physical force as provided in Act No. 170 of the Public Acts of 1964, being sections 691.1401 to 691.1415 of the Michigan Compiled Laws.

(6) A person who violates subsection (3) or (4) may be appropriately disciplined by his or her school board or public school academy.

(7) In determining whether an employee, volunteer, or contractor has acted in accordance with subsection (4), deference shall be given to reasonable good-faith judgments made by that person.

(8) A local or intermediate school district or a public school academy shall develop and implement a code of student conduct and shall enforce its provisions with regard to pupil misconduct in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school sponsored activity or event whether or not it is held on school premises.

(9) The department shall develop a model list of alternatives to the use of corporal punishment. This model list shall be developed in consultation with organizations that represent the interests of teachers, school employees, school boards, school administrators, pupils, parents, and child advocates, plus any other organization that the state board of education may wish to consult. The department shall send this model list to each school district, public school academy, and intermediate school district in the state and to each nonpublic school in the state that requests it. A local or intermediate school board or public school academy shall approve and cause to be distributed to each employee, volunteer, and contractor a list of alternatives to the use of corporal punishment. Upon request, the department of education shall provide assistance to schools in the development of programs and materials to implement this section.

(10) Any resolution, bylaw, rule, policy, ordinance, or other authority permitting corporal punishment is void.

Sec. 1507a. If a parent or legal guardian of a pupil files with the public school in which the pupil is enrolled a continuing written notice that the pupil is to be excused from a class described in section 1507, the pupil shall not be enrolled in a class described in section 1507 unless the parent or legal guardian submits a written authorization for that enrollment.

Sec. 1525. (1) Funds appropriated by the legislature to support professional development and education shall be allocated substantially as follows:

- (a) Twenty percent to the department.
 - (b) Fifteen percent to intermediate school districts on an equal amount per pupil basis based on the memberships of constituent districts.
 - (c) Sixty-five percent to school districts on an equal amount per pupil basis.
- (2) The funds described in subsection (1) may be used for the following:
- (a) Professional development programs for administrators and teachers. These programs shall emphasize the improvement of teaching and pupils' learning of academic core curriculum objectives, as measured by Michigan educational assessment program and other criterion - reference assessments; collaborative decision making; site-based management; the process of school improvement; instructional leadership; and the use of data and assessment instruments to improve teaching and learning for all pupils.
 - (b) A biennial education policy leadership institute. The state board shall organize and convene a biennial education policy leadership institute for the governor, the lieutenant governor, the state board, the state superintendent, the legislature, and the presidents of the state board approved teacher education institutions, and the staff of each as may be considered appropriate, to examine the most current public education policy issues and initiatives and the appropriate role of policy leaders.
 - (c) A statewide academy for school leadership established by the state board.
 - (d) Community leadership development. The state board, in conjunction with intermediate school districts, shall conduct a leadership development training program in each school district for members of the community.

The state board, in collaboration with the business community and educators, shall coordinate and assist in the promotion of a statewide public education and information program concerning the need to achieve world class educational standards in the public schools of this state.
 - (f) Sabbatical leaves. School districts shall provide sabbatical leaves for up to 1 academic year for selected master teachers who aid in professional development.
 - (g) Any other purpose authorized in the appropriation for professional development in the state school aid act of 1979.

(3) In order to receive professional development funding described in subsection (1), each school district and intermediate school district shall prepare and submit to the state board for approval an annual professional development plan.

(4) The state board may disapprove for state funding proposed professional development that the state board finds to be 1 or more of the following:

- (a) Not in furtherance of core academic curriculum needs.
- (b) Not constituting serious, informed innovation.
- (c) Of generally inferior overall quality or depth regardless of who sponsors or conducts the education or training.
- (d) Not complying with the requirements of section 1526.

Sec. 1526. For the first 3 years of his or her employment in classroom teaching, a teacher shall be assigned by the school in which he or she teaches to 1 or more master teachers, or college professors or retired master teachers, who shall act as a mentor or mentors to the teacher. During the 3-year period, the teacher shall also receive intensive professional development induction into teaching, based on a professional development plan that is consistent with the requirements of section 3a of article II of Act No. 4 of the Public Acts of the Extra Session of 1937, being section 38.83a of the Michigan Compiled Laws, including classroom management and instructional delivery. During the 3-year period, the intensive professional development induction into teaching shall consist of at least 15 days of professional development, the experiencing of effective practices in university-linked professional development schools, and regional seminars conducted by master teachers and other mentors.

Sec. 1527. The board of each school district, intermediate school district, or public school academy shall provide at least 1 day of teacher professional development in the 1997-1998 school year, at least 2 days of teacher professional development in the 1998-1999 school year, at least 3 days of teacher professional development in the 1999-2000 school year, at least 4 days of teacher professional development in the 2000-2001 school year, and at least 5 days of teacher professional development in the 2001-2002 school year and each school year after the 2001-2002 school year. Professional development days provided under this section shall not be counted toward the professional development required under section 1526.

Sec. 1531. (1) Except as provided in this act, the state board shall determine the requirements for and issue all licenses and certificates for teachers, including preprimary teachers, and the requirements for an endorsement of teachers as qualified counselors and an endorsement of teachers for teaching a foreign language in an elementary grade in the public schools of the state.

(2) Except as otherwise provided in this act, the state board shall only issue a teaching certificate to a person who has passed appropriate examinations as follows:

(a) For a secondary level teaching certificate, has passed both the basic skills examination and the appropriate available subject area examination for each subject area in which he or she applies to be certified.

(a) For a secondary level teaching certificate, pass both the basic skills examination and the appropriate available subject area examination for each subject area in which he or she applies to be certified. The state board may accept passage of an equivalent examination approved by the state board to meet 1 or both of these requirements.

(b) For an elementary level teaching certificate, pass the basic skills examination and, if it is available, the elementary certification examination, and pass the appropriate available subject area examination for each subject area, if any, in which he or she applies to be certified. The state board may accept passage of an equivalent examination approved by the state board to meet 1 or more of these requirements.

(4) Subject to subsection (6), if a person holding a teaching certificate from another state applies to the state board for a Michigan teaching certificate and meets the requirements of this subsection, the state board shall issue to the person a Michigan professional education teaching certificate and applicable endorsements comparable to those the person holds in the other state, without requiring the person to pass a basic skills examination or the applicable subject area examination otherwise required under subsection (2) or (3). To be eligible to receive a Michigan professional education teaching certificate under this subsection, a person shall provide evidence satisfactory to the department that he or she meets all of the following requirements:

(a) Has taught successfully for at least 3 years in a position for which the person's teaching certification from the other state was valid.

(6) The state board shall deny a Michigan teaching certificate to a person described in subsection (4) for fraud, material misrepresentation, or concealment in the person's application for a certificate or for a conviction for which a person's teaching certificate may be revoked under section 1535a.

(7) The department, based upon criteria recommended pursuant to subsection (9), shall provide to state board approved teacher education institutions state board approved guidelines and criteria for use in the development or selection of a basic skills examination and approved guidelines and criteria for use in the development or selection of subject area examinations.

(8) For the purposes of this section, the state board, based upon criteria recommended pursuant to subsection (9), shall develop, select, or develop and select 1 or more basic skills examinations and subject area examinations. In addition, the state board, based upon criteria recommended pursuant to subsection (9), shall approve an elementary certification examination and a reading subject area examination.

(9) The state board shall appoint an 11-member teacher examination advisory committee comprised of representatives of approved teacher education institutions and Michigan education organizations and associations. Not more than 1/2 of the members comprising this committee shall be certified teachers. This committee shall recommend criteria to be used by the state board in the development, selection, or development and selection of 1 or more basic skills examinations, and criteria to be used by the state board in the development, selection, or development and selection of subject area examinations. In addition, the committee shall recommend guidelines for the use and administration of those examinations. The basic skills examinations referred to in this subsection may be developed by the state board or selected by the state board from commercially or university developed examinations. (12) The basic skills examination, the elementary certification examination, and the subject area examinations required by this section may be taken at different times during an approved teacher preparation program, but the basic skills examination must be passed before a person is enrolled for student teaching and the elementary certification examination and the subject area examinations, as applicable, must be passed before a person is recommended for certification.

(13) The department, or if approved by the state board, a private testing service, may assess fees for taking the basic skills examination, elementary certification examination, and the subject area examinations. The fees, which shall be set by the state board, shall not exceed \$50.00 for a basic skills examination or \$75.00 for an elementary certification examination or a subject area examination. However, if a subject area examination for vocational education includes a performance examination, an additional fee may be assessed for taking the performance examination, not to exceed the actual cost of administering the performance examination. Fees received by the department shall be expended solely for administrative expenses that it incurs in implementing this section.

(14) If a person holding a teaching certificate from another state applies for a Michigan teaching certificate and meets all requirements for the Michigan teaching certificate except passage of the appropriate examinations under subsection (3), the state board shall issue a nonrenewable temporary teaching certificate, good for 1 year, to the person. The state board shall not issue a Michigan teaching certificate to the person after expiration of the temporary teaching certificate unless the person passes appropriate examinations as described in subsection (3).

If the person does not avail himself or herself of this right to a hearing within 30 working days after receipt of this written notification, the teaching certificate of that person shall be suspended. (c) Exempt a person who holds state board approval from the operation of section 1535a or 1539a, or both, if the person holds a certificate subject to 1 or both of those sections.

(d) Limit the ability of a state licensing body to take action against a person's license or registration for the same conviction.

(10) The state board may promulgate, as necessary, rules to implement this section pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws.

(11) As used in this section:

(a) "Conviction" means a judgment entered by a court upon a plea of guilty, guilty but mentally ill, or nolo contendere or upon a jury verdict or court finding that a defendant is guilty or guilty but mentally ill.

(b) "State board approval" means a license, certificate, endorsement, permit, approval, or other evidence of qualifications to hold a particular position in a school district or intermediate school district or in a nonpublic school, other than a teacher's certificate subject to section 1535a or a school administrator's certificate subject to section 1539a, that is issued to a person by the state board under this act or a rule promulgated under this act.

(c) "State correctional facility" means a correctional facility under the jurisdiction of the department of corrections.

Sec. 1561. (1) Except as otherwise provided in this section, every parent, guardian, or other person in this state having control and charge of a child from the age of 6 to the child's sixteenth birthday shall send that child to a public school during the entire school year. The child's attendance shall be continuous and consecutive for the school year fixed by the school district in which the child is enrolled. In a school district that maintains school during the entire calendar year and in which the school year is divided into quarters, a child is not required to attend the public school more than 3 quarters in 1 calendar year, but a child shall not be absent for 2 or more consecutive quarters.

(2) A child becoming 6 years of age before December 1 shall be enrolled on the first school day of the school year in which the child's sixth birthday occurs. A child becoming 6 years of age on or after December 1 shall be enrolled on the first school day of the school year following the school year in which the child's sixth birthday occurs.

(3) A child is not required to attend a public school in any of the following cases:

(a) The child is attending regularly and is being taught in a state approved nonpublic school, which teaches subjects comparable to those taught in the public schools to children of corresponding age and grade, as determined by the course of study for the public schools of the district within which the nonpublic school is located.

(b) The child is less than 9 years of age and does not reside within 2-1/2 miles by the nearest traveled road of a public school. If transportation is furnished for pupils in the school district of the child's residence, this subdivision does not apply.

(c) The child is age 12 or 13 and is in attendance at confirmation classes conducted for a period of 5 months or less.

(d) The child is regularly enrolled in a public school while in attendance at religious instruction classes for not more than 2 class hours per week, off public school property during public school hours, upon written request of the parent, guardian, or person in loco parentis under rules promulgated by the state board.

(e) The child has graduated from high school or has fulfilled all requirements for high school graduation.

(f) The child is being educated by his or her parent or legal guardian at the child's home in an organized educational program that is appropriate given the age, intelligence, ability, and any psychological limitations of the child, in the subject areas of reading, spelling, mathematics, science, history, civics, literature, writing, and English grammar.

Sec. 1602. The board of a first class school district or other school district having a population of more than 10,000, after having secured the approval of the state board, may establish collegiate and noncollegiate courses of study. These collegiate courses, except in school districts of the first class, shall not embrace more than 2 years of collegiate work. The courses, collectively and exclusive of the regular K to 12 grades, shall be known and designated as the community college of the district school system.

Sec. 1621a. A school district or intermediate school district has the power of eminent domain for acquiring title in fee or interest in sites for new schools, agricultural sites, athletic fields, parks, playgrounds, or other school facilities, or

for the improvement or expansion of existing school facilities, and shall exercise that power according to the uniform condemnation procedures act, Act No. 87 of the Public Acts of 1980, being sections 213.51 to 213.77 of the Michigan Compiled Laws.

Sec. 1703. (1) Special education personnel shall meet the qualifications and requirements of rules promulgated by the state board.

(2) Curriculum, eligibility of specific persons for special education programs and services and for each particular program or service, review procedures regarding the placement of persons in the programs or services, size of classes, size of programs, quantity and quality of equipment, supplies and housing, adequacy of methods of instruction, and length and content of school day shall be in accordance with rules promulgated by the state board relative to special education programs and services.

(3) Not later than September 30, 1996, the state board shall conduct a review of all rules promulgated by the state board or department pertaining to special education. The review shall consider at least all of the following:

(a) The need to eliminate unnecessary separation and duplication between regular education and special education facilities, staff, programs, services, and pupils.

(b) Potential benefits from coordination between all relevant federal, state, regional, and local organization services, including public and private organization services, for pupils with special needs, and encouragement of the provision of comprehensive necessary services delivered by the most appropriate organization or person in the most cost-effective and programmatically effective manner.

(c) The advisability of simplification of rules or regulations and processes relating to identification of need and provision of services to special needs pupils, avoidance of barriers and cost and other penalties or discouragements to effective programming, and avoidance of requirements as to staff or program criteria that are not research based; allowing and encouraging reasonably flexible, workable, and, if appropriate, cooperatively operated comprehensive services, including reasonable endorsement or other qualification categories for personnel, to be delivered to pupils with related or similar special needs, as may be consistent with research.

(d) A goal of providing educational and training services in a manner that maximizes for the benefit of the pupil the combination of the provisions of this act and federal law relating to inclusion, while avoiding, to the degree reasonably possible, requiring by rule an overall increase in a program or service beyond that required before December 23, 1978.

Sec. 1851a. If the Michigan supreme court rules that sections 45 and 46 of the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.245 and 24.246 of the Michigan Compiled Laws, are unconstitutional, and a statute requiring legislative review of administrative rules is not enacted within 90 days after the Michigan supreme court ruling, the state board or the department shall not promulgate rules under this act.
