(y) "State fiscal year" means the annual period commencing October 1 of each year.

(z) "Tax increment revenues" means the amount of ad valorem property taxes and specific local taxes attributable to the application of the levy of all taxing jurisdictions upon the capture assessed value of real and personal property in the development area, subject to the following requirements:

districts upon the captured assessed value of real and personal property in the development area for any purpose authorized by this act.

(ii) Tax increment revenues include ad valorem property taxes and specific local taxes attributable to the application of the levy of the state pursuant to Act No. 331 of the Public Acts of 1993, and local or intermediate school districts upon the captured assessed value of real and personal property in the development area in an amount equal to the amount necessary, without regard to subparagraph (i), to repay eligible advances, eligible obligations, and other protected obligations.

(iii) Tax increment revenues do not include any of the following:

(A) Ad valorem property taxes attributable either to a portion of the captured assessed value shared with taxing jurisdictions within the jurisdictional area of the authority or to a portion of value of property that may be excluded from captured assessed value or specific local taxes attributable to such ad valorem property taxes.

(B) Ad valorem property taxes excluded by the tax increment financing plan of the authority from the determination of the amount of tax increment revenues to be transmitted to the authority or specific local taxes attributable to such ad valorem property taxes.

(iv) The amount of tax increment revenues authorized to be included under subparagraph (ii), and required to be transmitted to the authority under section 14(1), from ad valorem property taxes and specific local taxes attributable to the application of the levy of Act No. 331 of the Public Acts of 1993, a local school district or an intermediate school district upon the captured assessed value of real and personal property in a development area shall be determined separately for the levy by the state, each school district, and each intermediate school district as the product of sub-subparagraphs (A) and (B):

(A) The percentage which the total ad valorem taxes and specific local taxes available for distribution by law to the state, local school district, or intermediate school district, respectively, bears to the aggregate amount of ad valorem millage taxes and specific taxes available for distribution by law to the state, each local school district, and each intermediate school district.

(B) The maximum amount of ad valorem property taxes and specific local taxes considered tax increment revenues under subparagraph (ii).

Sec. 13b. (1) If the amount of tax increment revenues lost as a result of the reduction of taxes levied by local school districts for school operating purposes required by the millage limitations under section 1211 of the school code of 1976, Act No. 451 of the Public Acts of 1976, being section 380.1211 of the Michigan Compiled Laws, reduced by the amount of tax increment revenues received from the capture of taxes levied under or attributable to the state education tax act, will cause the tax increment revenues received in a fiscal year by an authority under section 15 to be insufficient to repay an eligible advance or to pay an eligible obligation, the legislature shall appropriate and distribute to the authority the amount described in subsection (5).

(2) Not less than 30 days before the first day of a fiscal year, an authority eligible to retain tax increment revenues from taxes levied by a local or intermediate school district or this state or to receive a distribution under this section for that fiscal year shall file a claim with the department of treasury. The claim shall include the following information:

(a) The property tax millage rates levied in 1993 by local school districts within the jurisdictional area of the authority for school operating purposes.

(b) The property tax millage rates expected to be levied by local school districts within the jurisdictional area of the authority for school operating purposes for that fiscal year.

(c) The tax increment revenues estimated to be received by the authority for that fiscal year based upon actual property tax levies of all taxing jurisdictions within the jurisdictional area of the authority.

(d) The tax increment revenues the authority estimates it would have received for that fiscal year if property taxes were levied by local school districts within the jurisdictional area of the authority for school operating purposes at the millage rates described in subdivision (a) and if no property taxes were levied by this state under the state education tax act.

(e) A list and documentation of eligible obligations, eligible advances, and other protected obligations and the payments due on each of those eligible obligations, eligible advances, or other protected obligations in that fiscal year, and the total amount of all the payments due on those eligible obligations, eligible advances, and other protected obligations in that fiscal year.

(f) The amount of money, other than tax increment revenues, estimated to be received in that fiscal year by the authority that is primarily pledged to, and to be used for, the payment of an eligible obligation or the repayment of an eligible advance. That amount shall not include excess tax increment revenues of the authority that are permitted by law to be retained by the authority for purposes that further the development program. However, that amount shall include money to be obtained from sources authorized by law, which law is enacted on or after December 1, 1993, for use by the municipality or authority to finance a development project.

(g) The amount of a distribution received pursuant to this act for a fiscal year in excess of or less than the distribution that would have been required if calculated upon actual tax increment revenues received for that fiscal year.

(3) For the fiscal year that commences after September 30, 1993 and before October 1, 1994, an authority may make a claim with all information required by subsection (2) at any time after the effective date of this section.

(4) After review and verification of claims submitted pursuant to this section, amounts appropriated by the state in compliance with this act shall be distributed as 2 equal payments on March 1 and September 1 after receipt of a claim. An authority shall allocate a distribution it receives for an eligible obligation issued on behalf of a municipality to the municipality.

(5) Subject to subsections (6) and (7), the aggregate amount to be appropriated and distributed pursuant to this section to an authority shall be the sum of the amounts determined pursuant to subdivisions (a) and (b) minus the amount determined pursuant to subdivision (c), as follows:

(a) The amount by which the tax increment revenues the authority would have received for the fiscal year, if property taxes were levied by local school districts for school operating purposes at the millage rates described in subsection (2)(a) and if no property taxes were levied under the state education tax act, exceed the tax increment revenues the authority actually received for the fiscal year.

(b) A shortfall required to be reported pursuant to subsection (2)(g) that had not previously increased a distribution.

(c) An excess amount required to be reported pursuant to subsection (2)(g) that had not previously decreased a distribution.

(6) The amount distributed under subsection (5) shall not exceed the difference between the amount described in subsection (2)(e) and the sum of the amounts described in subsection (2)(c) and (f).

(7) If, based upon the tax increment financing plan in effect on August 19, 1993, the payment due on eligible obligations or eligible advances anticipates the use of excess prior year tax increment revenues permitted by law to be retained by the authority, and if the sum of the amounts described in subsection (2)(c) and (f) plus the amount to be distributed under subsections (5) and (6) is less than the amount described in subsection (2)(e), the amount to be distributed under subsections (5) and (6) shall be increased by the amount of the shortfall. However, the amount authorized to be distributed pursuant to this section shall not exceed that portion of the cumulative difference, for each preceding fiscal year, between the amount that could have been distributed pursuant to subsection (5) and the amount actually distributed pursuant to subsections (5) and (6) and this subsection.

(8) A distribution under this section replacing tax increment revenues pledged by an authority or a municipality is subject to the lien of the pledge, whether or not there has been physical delivery of the distribution.

(9) Obligations for which distributions are made pursuant to this section are not a debt or liability of this state; do not create or constitute an indebtedness, liability, or obligation of this state; and are not and do not constitute a pledge of the faith and credit of this state.

(10) Not later than July 1 of each year, the authority shall certify to the local tax collecting treasurer the amount of the distribution required under subsection (5), calculated without regard to the receipt of tax increment revenues attributable to local or intermediate school district taxes or attributable to taxes levied under the state education tax act.

(11) Calculations of distribution under this section and claims reports required to be made under subsection (2) shall be made on the basis of each development area of the authority.

Sec. 16. (1) The municipality may by resolution of its governing body authorize, issue, and sell general obligation bonds subject to the limitations set forth in this subsection to finance the development program of the tax increment financing plan or to refund bonds issued under this section and shall pledge its full faith and credit for the payment of the bonds. The municipality may pledge as additional security for the bonds any money received by the authority or the municipality pursuant to section 11. The bonds shall mature in not more than 30 years and shall be subject to the municipal finance act, Act No. 202 of the Public Acts of 1943, being sections 131.1 to 139.3 of the Michigan Compiled Laws. Before the municipality may authorize the borrowing, the authority shall submit an estimate of the anticipated tax increment revenues and other revenue available under section 11 to be available for payment of principal and interest on the bonds, to the governing body of the municipality. This estimate shall be approved by the governing body of the municipality by resolution adopted by majority vote of the members of the governing body in the resolution authorizing the bonds. If the bonds are approved by the department of treasury in those instances in which an exception to prior approval is not available under section 11 of chapter III of Act No. 202 of the Public Acts of 1943, being section 133.11 of the Michigan Compiled Laws, or if the governing body of the municipality adopts the resolution authorizing the bonds and prior approval of the department of treasury is not required pursuant to section 11 of chapter III of Act No. 202 of the Public Acts of 1943, the estimate of the anticipated tax increment revenues and other revenue available under section 11 to be available for payment of principal and interest on the bonds shall be conclusive for purposes of

this section. The bonds issued under this subsection shall be considered a single series for the purposes of Act No. 202 of the Public Acts of 1943.

(2) By resolution of its governing body, the authority may authorize, issue, and sell tax increment bonds subject to the limitations set forth in this subsection to finance the development program of the tax increment financing plan or to refund or refund in advance obligations issued under this act. The tax increment bonds issued by the authority under this subsection shall pledge solely the tax increment revenues of a development area in which the project is located or a development area from which tax increment revenues may be used for this project, or both. In addition or in the alternative, the bonds issued by the authority pursuant to this subsection may be secured by any other revenues identified in section 11 as sources of financing for activities of the authority that the authority shall specifically pledge in the resolution. However, the full faith and credit of the municipality shall not be pledged to secure bonds issued pursuant to this subsection. The bonds shall mature in not more than 30 years and shall bear interest and be payable upon the terms and conditions determined by the authority in the resolution approving the bonds and shall be sold at public or private sale by the authority. The bond issue may include a sum sufficient to pay interest on the tax increment bonds until full development of tax increment revenues from the project and also a sum to provide a reasonable reserve for payment of principal and interest on the bonds. The resolution authorizing the bonds shall create a lien on the tax increment revenues and other revenues pledged by the resolution that shall be a statutory lien and shall be a first lien subject only to liens previously created. The resolution may provide the terms upon which additional bonds may be issued of equal standing and parity of lien as to the tax increment revenues and other revenues pledged under the resolution. Except for the requirement of Act No. 202 of the Public Acts of 1943 that the authority receive the approval or an exception from approval from the department of treasury prior to the issuance of bonds under this subsection, the terms of Act No. 202 of the Public Acts of 1943 shall not apply to bonds issued pursuant to this subsection that pledge revenue received pursuant to section 11 for repayment of the bonds.

(3) Notwithstanding any other provision of this act, if the state treasurer determines that an authority or municipality can issue a qualified refunding obligation and the authority or municipality does not make a good faith effort to issue the qualified refunding obligation as determined by the state treasurer, the state treasurer may reduce the amount claimed by the authority or municipality under section 13b by an amount equal to the net present value saving that would have been realized had the authority or municipality refunded the obligation or the state treasurer may require a reduction in the capture of tax increment revenues from taxes levied by a local or intermediate school district or this state by an amount equal to the net present value savings that would have been realized had the authority or municipality refunded the obligation. This subsection does not authorize the state treasurer to require the authority or municipality to pledge security greater than the security pledged for the obligation being refunded.

Section 2. This amendatory act shall not take effect unless all of the following bills of the 88th Legislature are enacted into law:

- (a) Senate Bill No. 993.
- (b) House Bill No. 5072.

This act is ordered to take immediate effect.
