

SUBSTITUTE FOR
HOUSE BILL NO. 4048

A bill to amend 1961 PA 236, entitled
"Revised judicature act of 1961,"
by amending sections 2946 and 5827 (MCL 600.2946 and 600.5827),
section 2946 as amended by 1995 PA 249, and by adding section
5828.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Sec. 2946. (1) It ~~shall be~~ IS admissible as evidence in a
2 product liability action that the production of the product was
3 in accordance with the generally recognized and prevailing non-
4 governmental standards in existence at the time the specific unit
5 of the product was sold or delivered by the defendant to the ini-
6 tial purchaser or user.

7 (2) In a product liability action brought against a
8 manufacturer or seller for harm allegedly caused by a production
9 defect, the manufacturer or seller is not liable unless the

1 plaintiff establishes that the product was not reasonably safe at
2 the time the specific unit of the product left the control of the
3 manufacturer or seller and that, according to generally accepted
4 production practices at the time the specific unit of the product
5 left the control of the manufacturer or seller, a practical and
6 technically feasible alternative production practice was avail-
7 able that would have prevented the harm without significantly
8 impairing the usefulness or desirability of the product to users
9 and without creating equal or greater risk of harm to others. An
10 alternative production practice is practical and feasible only if
11 the technical, medical, or scientific knowledge relating to pro-
12 duction of the product, at the time the specific unit of the pro-
13 duct left the control of the manufacturer or seller, was devel-
14 oped, available, and capable of use in the production of the pro-
15 duct and was economically feasible for use by the manufacturer.
16 Technical, medical, or scientific knowledge is not economically
17 feasible for use by the manufacturer if use of that knowledge in
18 production of the product would significantly compromise the
19 product's usefulness or desirability.

20 (3) With regard to the production of a product that is the
21 subject of a product liability action, evidence of a philosophy,
22 theory, knowledge, technique, or procedure that is learned,
23 placed in use, or discontinued after the event resulting in the
24 death of the person or injury to the person or property, which if
25 learned, placed in use, or discontinued before the event would
26 have made the event less likely to occur, is admissible only for

1 the purpose of proving the feasibility of precautions, if
2 controverted, or for impeachment.

3 (4) In a product liability action brought against a manufac-
4 turer or seller for harm allegedly caused by a product, there is
5 a rebuttable presumption that the manufacturer or seller is not
6 liable if, at the time the specific unit of the product was sold
7 or delivered to the initial purchaser or user, the aspect of the
8 product that allegedly caused the harm was in compliance with
9 standards relevant to the event causing the death or injury set
10 forth in a federal or state statute or was approved by, or was in
11 compliance with regulations or standards relevant to the event
12 causing the death or injury promulgated by, a federal or state
13 agency responsible for reviewing the safety of the product.

14 Noncompliance with a standard relevant to the event causing the
15 death or injury set forth in a federal or state statute or lack
16 of approval by, or noncompliance with regulations or standards
17 relevant to the event causing the death or injury promulgated by,
18 a federal or state agency does not raise a presumption of negli-
19 gence on the part of a manufacturer or seller. Evidence of com-
20 pliance or noncompliance with a regulation or standard not rele-
21 vant to the event causing the death or injury is not admissible.

22 ~~(5) In a product liability action against a manufacturer or~~
23 ~~seller, a product that is a drug is not defective or unreasonably~~
24 ~~dangerous, and the manufacturer or seller is not liable, if the~~
25 ~~drug was approved for safety and efficacy by the United States~~
26 ~~food and drug administration, and the drug and its labeling were~~
27 ~~in compliance with the United States food and drug~~

1 ~~administration's approval at the time the drug left the control~~
2 ~~of the manufacturer or seller. However, this subsection does not~~
3 ~~apply to a drug that is sold in the United States after the~~
4 ~~effective date of an order of the United States food and drug~~
5 ~~administration to remove the drug from the market or to withdraw~~
6 ~~its approval. This subsection does not apply if the defendant at~~
7 ~~any time before the event that allegedly caused the injury does~~
8 ~~any of the following:~~

9 ~~(a) Intentionally withholds from or misrepresents to the~~
10 ~~United States food and drug administration information concerning~~
11 ~~the drug that is required to be submitted under the federal food,~~
12 ~~drug, and cosmetic act, chapter 675, 52 Stat. 1040, 21 U.S.C. 301~~
13 ~~to 321, 331 to 343-2, 344 to 346a, 347, 348 to 353, 355 to 360,~~
14 ~~360b to 376, and 378 to 395, and the drug would not have been~~
15 ~~approved, or the United States food and drug administration would~~
16 ~~have withdrawn approval for the drug if the information were~~
17 ~~accurately submitted.~~

18 ~~(b) Makes an illegal payment to an official or employee of~~
19 ~~the United States food and drug administration for the purpose of~~
20 ~~securing or maintaining approval of the drug.~~

21 Sec. 5827. Except as otherwise expressly provided, the
22 period of limitations runs from the time the claim accrues. The
23 claim accrues at the time provided in sections ~~5829 to 5838~~
24 5828 TO 5838A, and in cases not covered by these sections the
25 claim accrues at the time the wrong upon which the claim is based
26 was done regardless of the time when damage results.
