---

Senate Bill 385 (as reported with amendment)  
Sponsor: Senator Loren Bennett  
Committee: Local, Urban and State Affairs

### **CONTENT**

The bill would create a new act to prohibit a State agency or a local governmental unit from delivering or causing to be delivered an envelope or package that included on its outside personal information about the recipient, or contained on the inside personal information that was visible from the outside of the envelope or package.

“Personal information” would mean a Social Security number and a driver license number. “Local governmental unit” would mean a school district, intermediate school district, city, village, township, county, authority, or other political subdivision of the State. “State agency” would mean a department, board, commission, office, agency, authority, or other unit of State government in the executive, legislative, or judicial branch.

Legislative Analyst: L. Arasim

### **FISCAL IMPACT**

The bill would have no impact on the State and local units of government. Boilerplate language in the General Government appropriation bill, Section 958 of Public Act 310 of 1998, provides that local units of government that receive revenue sharing funds and distribute property tax statements or income tax forms shall not visibly include on the external address Social Security numbers. The Department of State reports that the new digital driver's license is contained in a tri-fold envelope and the license will not show.

Date Completed: 5-10-99
