Changes from FY 1998-99 Year to Date:

1. **Contingency Funds.** The Executive recommendation reduced Federal contingency funds from \$30 million to \$10 million. The House and this proposal designated \$20 million in Federal contingency funds. Further, the Governor, House and Senate concur in increasing the level of private contingency funds to \$3 million (up from \$250,000), and retain the prior year levels of State and restricted contingency funds. (Sec. 205)
2. **Leasing Guidelines.** The Executive recommendation removed several sections of boilerplate restricting the Department from leasing property for less than fair market value, or expending more on renovation than was received in lease revenues. The House and Senate concur.
3. **Proprietary Schools Oversight.** The Executive recommendation deleted this section earmarking \$250,000 and 3.0 FTEs to oversee proprietary schools. The House and Senate retain the section. (Sec. 212)
4. **Personal Service Contracts.** The Governor proposed to delete this report detailing personal service contracts awarded without competitive bidding. The House and Senate retain the section. (Sec. 214)
5. **Office for Safe Schools.** The Governor's proposal removed this section which mandates the Department to establish the Office to prevent school violence. The House retained the section, earmarked \$200,000 from Federal funds to fund the Office, and further reduced the Office's current responsibilities. The Senate concurs with the House, but specifies that the Office is funded from Innovation and Community Services. (Sec. 217)
6. **Student Database.** The Senate added a section requiring the Department to ensure that information gathered for the single record student database complies with the Family Educational Rights Privacy Act. (Sec. 221)
7. **Personnel Records.** The Senate (during General Orders) included a new section requiring school districts to retain, indefinitely, personnel records if they contain sexual misconduct information. (Sec. 222)
8. **Reimbursement and Appeal.** The Senate strikes language requiring public school academies to reimburse the State for misrepresented enrollment, and language allowing public school academies to utilize the same appeal process as local school districts. (Guidelines for PSAs and local districts exist in the State Aid Act.)
9. **Charter Schools Office.** The House and Senate concurred with the Executive to earmark \$500,000 and 5.0 FTEs from Innovation and Community Services to fund the Charter Schools Office. (Sec. 303)
10. **Michigan Educational Assessment Program.** The Executive deleted the allocation of \$200,000 to expedite test results reporting, but provided for the testing of home-schoolers. The House and Senate retain the \$200,000 allocation and further require a report detailing the method used to report results. (Sec. 501)
11. **MEAP Contingency.** The Senate added a section requiring that GF/GP be used to fund the MEAP if tobacco settlement revenues do not materialize to fully fund the \$13 million testing program. (Sec. 504)
12. **Surplus Property.** The Governor proposed a new section allowing for the rental of excess property at the Michigan Schools for the Deaf and Blind and Camp Tuhsmeheeta. Rent proceeds must be used to renovate the campus at MSDB. The House and Senate removed references to Camp Tuhsmeheeta. (Sec. 604)
13. **Parental Involvement.** The House included two sections focused on increasing parental involvement. The first section earmarked \$900,000 Federal funds to be made available as competitive grants with a focus on increasing involvement in education; the second required the establishment of a parental involvement and community empowerment initiative (Secs. 807 and 808). The Senate strikes both Sec. 807 and Sec. 808.
