

Act No. 375  
Public Acts of 2000  
Approved by the Governor  
January 1, 2001  
Filed with the Secretary of State  
January 2, 2001  
EFFECTIVE DATE: January 2, 2001

**STATE OF MICHIGAN  
90TH LEGISLATURE  
REGULAR SESSION OF 2000**

**Introduced by Senators Shugars and Hammerstrom**

# **ENROLLED SENATE BILL No. 404**

AN ACT to amend 1978 PA 368, entitled "An act to protect and promote the public health; to codify, revise, consolidate, classify, and add to the laws relating to public health; to provide for the prevention and control of diseases and disabilities; to provide for the classification, administration, regulation, financing, and maintenance of personal, environmental, and other health services and activities; to create or continue, and prescribe the powers and duties of, departments, boards, commissions, councils, committees, task forces, and other agencies; to prescribe the powers and duties of governmental entities and officials; to regulate occupations, facilities, and agencies affecting the public health; to regulate health maintenance organizations and certain third party administrators and insurers; to provide for the imposition of a regulatory fee; to promote the efficient and economical delivery of health care services, to provide for the appropriate utilization of health care facilities and services, and to provide for the closure of hospitals or consolidation of hospitals or services; to provide for the collection and use of data and information; to provide for the transfer of property; to provide certain immunity from liability; to regulate and prohibit the sale and offering for sale of drug paraphernalia under certain circumstances; to provide for the implementation of federal law; to provide for penalties and remedies; to provide for sanctions for violations of this act and local ordinances; to repeal certain acts and parts of acts; to repeal certain parts of this act; and to repeal certain parts of this act on specific dates," by amending sections 20902, 20904, 20906, 20908, 20910, 20912, 20915, 20916, 20918, 20919, 20920, 20921, 20923, 20929, 20934, 20950, 20954, 20956, 20958, 20965, 20975, and 20977 (MCL 333.20902, 333.20904, 333.20906, 333.20908, 333.20910, 333.20912, 333.20915, 333.20916, 333.20918, 333.20919, 333.20920, 333.20921, 333.20923, 333.20929, 333.20934, 333.20950, 333.20954, 333.20956, 333.20958, 333.20965, 333.20975, and 333.20977), sections 20902, 20904, 20906, 20908, 20910, 20912, 20915, 20916, 20918, 20923, 20929, 20934, 20950, 20956, 20958, 20975, and 20977 as added by 1990 PA 179, section 20919 as amended by 1996 PA 192, sections 20920 and 20921 as amended by 1997 PA 78, section 20954 as amended by 2000 PA 314, and section 20965 as amended by 1999 PA 199.

*The People of the State of Michigan enact:*

Sec. 20902. (1) "Advanced life support" means patient care that may include any care a paramedic is qualified to provide by paramedic education that meets the educational requirements established by the department under section 20912 or is authorized to provide by the protocols established by the local medical control authority under section 20919 for a paramedic.

(2) "Aircraft transport operation" means a person licensed under this part to provide patient transport, for profit or otherwise, between health facilities using an aircraft transport vehicle.

(3) "Aircraft transport vehicle" means an aircraft that is primarily used or designated as available to provide patient transportation between health facilities and that is capable of providing patient care according to orders issued by the patient's physician.

(4) “Ambulance” means a motor vehicle or rotary aircraft that is primarily used or designated as available to provide transportation and basic life support, limited advanced life support, or advanced life support.

(5) “Ambulance operation” means a person licensed under this part to provide emergency medical services and patient transport, for profit or otherwise.

(6) “Basic life support” means patient care that may include any care an emergency medical technician is qualified to provide by emergency medical technician education that meets the educational requirements established by the department under section 20912 or is authorized to provide by the protocols established by the local medical control authority under section 20919 for an emergency medical technician.

(7) “Clinical preceptor” means an individual who is designated by or under contract with an education program sponsor for purposes of overseeing the students of an education program sponsor during the participation of the students in clinical training.

(8) “Disaster” means an occurrence of imminent threat of widespread or severe damage, injury, or loss of life or property resulting from a natural or man-made cause, including but not limited to, fire, flood, snow, ice, windstorm, wave action, oil spill, water contamination requiring emergency action to avert danger or damage, utility failure, hazardous peacetime radiological incident, major transportation accident, hazardous materials accident, epidemic, air contamination, drought, infestation, or explosion. Disaster does not include a riot or other civil disorder unless it directly results from and is an aggravating element of the disaster.

Sec. 20904. (1) “Education program sponsor” means a person, other than an individual, that meets the standards of the department to conduct training at the following levels:

- (a) Medical first responder.
- (b) Emergency medical technician.
- (c) Emergency medical technician specialist.
- (d) Paramedic.
- (e) Emergency medical services instructor-coordinator.

(2) “Emergency” means a condition or situation in which an individual declares a need for immediate medical attention for any individual, or where that need is declared by emergency medical services personnel or a public safety official.

(3) “Emergency medical services instructor-coordinator” means an individual licensed under this part to conduct and instruct emergency medical services education programs.

(4) “Emergency medical services” means the emergency medical services personnel, ambulances, nontransport prehospital life support vehicles, aircraft transport vehicles, medical first response vehicles, and equipment required for transport or treatment of an individual requiring medical first response life support, basic life support, limited advanced life support, or advanced life support.

(5) “Emergency medical services personnel” means a medical first responder, emergency medical technician, emergency medical technician specialist, paramedic, or emergency medical services instructor-coordinator.

(6) “Emergency medical services system” means a comprehensive and integrated arrangement of the personnel, facilities, equipment, services, communications, medical control, and organizations necessary to provide emergency medical services and trauma care within a particular geographic region.

(7) “Emergency medical technician” means an individual who is licensed by the department to provide basic life support.

(8) “Emergency medical technician specialist” means an individual who is licensed by the department to provide limited advanced life support.

(9) “Emergency patient” means an individual with a physical or mental condition that manifests itself by acute symptoms of sufficient severity, including, but not limited to, pain such that a prudent layperson, possessing average knowledge of health and medicine, could reasonably expect to result in 1 or all of the following:

- (a) Placing the health of the individual or, in the case of a pregnant woman, the health of the patient or the unborn child, or both, in serious jeopardy.
- (b) Serious impairment of bodily function.
- (c) Serious dysfunction of a body organ or part.

(10) “Examination” means a written and practical evaluation approved or developed by the national registry of emergency medical technicians or other organization with equivalent national recognition and expertise in emergency medical services personnel testing and approved by the department.

Sec. 20906. (1) “Life support agency” means an ambulance operation, nontransport prehospital life support operation, aircraft transport operation, or medical first response service.

(2) “Limited advanced life support” means patient care that may include any care an emergency medical technician specialist is qualified to provide by emergency medical technician specialist education that meets the educational requirements established by the department under section 20912 or is authorized to provide by the protocols established by the local medical control authority under section 20919 for an emergency medical technician specialist.

(3) “Local governmental unit” means a county, city, village, charter township, or township.

(4) “Medical control” means supervising and coordinating emergency medical services through a medical control authority, as prescribed, adopted, and enforced through department-approved protocols, within an emergency medical services system.

(5) “Medical control authority” means an organization designated by the department under section 20910(1)(g) to provide medical control.

(6) “Medical director” means a physician who is appointed to that position by a medical control authority under section 20918.

(7) “Medical first responder” means an individual who has met the educational requirements of a department approved medical first responder course and who is licensed to provide medical first response life support as part of a medical first response service or as a driver of an ambulance that provides basic life support services only.

(8) “Medical first response life support” means patient care that may include any care a medical first responder is qualified to provide by medical first responder education that meets the educational requirements established by the department under section 20912 or is authorized to provide by the protocols established by the local medical control authority under section 20919 for a medical first responder.

(9) “Medical first response service” means a person licensed by the department to respond under medical control to an emergency scene with a medical first responder and equipment required by the department before the arrival of an ambulance, and includes a fire suppression agency only if it is dispatched for medical first response life support. Medical first response service does not include a law enforcement agency, as defined in section 8 of 1968 PA 319, MCL 28.258, unless the law enforcement agency holds itself out as a medical first response service and the unit responding was dispatched to provide medical first response life support.

(10) “Medical first response vehicle” means a motor vehicle staffed by at least 1 medical first responder and meeting equipment requirements of the department.

Sec. 20908. (1) “Nonemergency patient” means an individual who is transported by stretcher, isolette, cot, or litter but whose physical or mental condition is such that the individual may reasonably be suspected of not being in imminent danger of loss of life or of significant health impairment.

(2) “Nontransport prehospital life support operation” means a person licensed under this part to provide, for profit or otherwise, basic life support, limited advanced life support, or advanced life support at the scene of an emergency.

(3) “Nontransport prehospital life support vehicle” means a motor vehicle that is used to provide basic life support, limited advanced life support, or advanced life support, and is not intended to transport patients.

(4) “Ongoing education program sponsor” means an education program sponsor that provides continuing education for emergency medical services personnel.

(5) “Paramedic” means an individual licensed under this part to provide advanced life support.

(6) “Patient” means an emergency patient or a nonemergency patient.

(7) “Person” means a person as defined in section 1106 or a governmental entity other than an agency of the United States.

(8) “Professional standards review organization” means a committee established by a life support agency or a medical control authority for the purpose of improving the quality of medical care.

(9) “Protocol” means a patient care standard, standing orders, policy, or procedure for providing emergency medical services that is established by a medical control authority and approved by the department under section 20919.

(10) “Statewide emergency medical services communications system” means a system that integrates each emergency medical services system with a centrally coordinated dispatch and resource coordination facility utilizing the universal emergency telephone number, 9-1-1, when that number is appropriate, or any other designated emergency telephone number, a statewide emergency medical 2-way radio communications network, and linkages with the statewide emergency preparedness communications system.

(11) “Volunteer” means an individual who provides services regulated under this part without expecting or receiving money, goods, or services in return for providing those services, except for reimbursement for expenses necessarily incurred in providing those services.

Sec. 20910. (1) The department shall do all of the following:

(a) Be responsible for the development, coordination, and administration of a statewide emergency medical services system.

- (b) Facilitate and promote programs of public information and education concerning emergency medical services.
- (c) In case of actual disasters and disaster training drills and exercises, provide emergency medical services resources pursuant to applicable provisions of the Michigan emergency preparedness plan, or as prescribed by the director of emergency services pursuant to the emergency management act, 1976 PA 390, MCL 30.401 to 30.420.
- (d) Consistent with the rules of the federal communications commission, plan, develop, coordinate, and administer a statewide emergency medical services communications system.
- (e) Develop and maintain standards of emergency medical services and personnel as follows:
  - (i) License emergency medical services personnel in accordance with this part.
  - (ii) License ambulance operations, nontransport prehospital life support operations, and medical first response services in accordance with this part.
  - (iii) At least annually, inspect or provide for the inspection of each life support agency, except medical first response services. As part of that inspection, the department shall conduct random inspections of life support vehicles. If a life support vehicle is determined by the department to be out of compliance, the department shall give the life support agency 24 hours to bring the life support vehicle into compliance. If the life support vehicle is not brought into compliance in that time period, the department shall order the life support vehicle taken out of service until the life support agency demonstrates to the department, in writing, that the life support vehicle has been brought into compliance.
  - (iv) Promulgate rules to establish the requirements for licensure of life support agencies, vehicles, and individuals licensed under this part to provide emergency medical services and other rules necessary to implement this part. The department shall submit all proposed rules and changes to the state emergency medical services coordination committee and provide a reasonable time for the committee's review and recommendations before submitting the rules for public hearing under the administrative procedures act of 1969.
- (f) Promulgate rules to establish and maintain standards for and regulate the use of descriptive words, phrases, symbols, or emblems that represent or denote that an ambulance operation, nontransport prehospital life support operation, or medical first response service is or may be provided. The department's authority to regulate use of the descriptive devices includes use for the purposes of advertising, promoting, or selling the services rendered by an ambulance operation, nontransport prehospital life support operation, or medical first response service, or by emergency medical services personnel.
- (g) Designate a medical control authority as the medical control for emergency medical services for a particular geographic region as provided for under this part.
- (h) Develop and implement field studies involving the use of skills, techniques, procedures, or equipment that are not included as part of the standard education for medical first responders, emergency medical technicians, emergency medical technician specialists, or paramedics, if all of the following conditions are met:
  - (i) The state emergency medical services coordination committee reviews the field study prior to implementation.
  - (ii) The field study is conducted in an area for which a medical control authority has been approved pursuant to subdivision (g).
  - (iii) The medical first responders, emergency medical technicians, emergency medical technician specialists, and paramedics participating in the field study receive training for the new skill, technique, procedure, or equipment.
- (i) Collect data as necessary to assess the need for and quality of emergency medical services throughout the state pursuant to 1967 PA 270, MCL 331.531 to 331.533.
- (j) Develop, with the advice of the emergency medical services coordination committee, an emergency medical services plan that includes rural issues.
- (k) Develop recommendations for territorial boundaries of medical control authorities that are designed to assure that there exists reasonable emergency medical services capacity within the boundaries for the estimated demand for emergency medical services.
- (l) Promulgate other rules to implement this part.
- (m) Perform other duties as set forth in this part.
- (2) The department may do all of the following:
  - (a) In consultation with the emergency medical services coordination committee, promulgate rules to require an ambulance operation, nontransport prehospital life support operation, or medical first response service to periodically submit designated records and data for evaluation by the department.
  - (b) Establish a grant program or contract with a public or private agency, emergency medical services professional association, or emergency medical services coalition to provide training, public information, and assistance to medical control authorities and emergency medical services systems or to conduct other activities as specified in this part.

Sec. 20912. (1) The department shall perform all of the following with regard to educational programs and services:

(a) Review and approve education program sponsors, ongoing education program sponsors, and curricula for emergency medical services personnel. Approved education programs and refresher programs shall be coordinated by a licensed emergency medical services instructor-coordinator commensurate with level of licensure. Approved programs conducted by ongoing education program sponsors shall be coordinated by a licensed emergency medical services instructor-coordinator.

(b) Maintain a listing of approved education program sponsors and licensed emergency medical services instructor-coordinators.

(c) Develop and implement standards for all education program sponsors and ongoing education program sponsors based upon criteria recommended by the emergency medical services coordination committee and developed by the department.

(2) An education program sponsor that conducts education programs for paramedics and that receives accreditation from the joint review committee on educational programs for the EMT-paramedic or other organization approved by the department as having equivalent expertise and competency in the accreditation of paramedic education programs is considered approved by the department under subsection (1)(a) if the education program sponsor meets both of the following requirements:

(a) Submits an application to the department that includes verification of accreditation described in this subsection.

(b) Maintains accreditation as described in this subsection.

Sec. 20915. (1) The state emergency medical services coordination committee is created in the department. Subject to subsections (3) and (5), the director shall appoint the voting members of the committee as follows:

(a) Four representatives from the Michigan health and hospital association or its successor organization, at least 1 of whom is from a hospital located in a county with a population of not more than 100,000.

(b) Four representatives from the Michigan chapter of the American college of emergency physicians or its successor organization, at least 1 of whom practices medicine in a county with a population of not more than 100,000.

(c) Three representatives from the Michigan association of ambulance services or its successor organization, at least 1 of whom operates an ambulance service in a county with a population of not more than 100,000.

(d) Three representatives from the Michigan fire chiefs association or its successor organization, at least 1 of whom is from a fire department located in a county with a population of not more than 100,000.

(e) Two representatives from the society of Michigan emergency medical services technician instructor-coordinators or its successor organization, at least 1 of whom works in a county with a population of not more than 100,000.

(f) Two representatives from the Michigan association of emergency medical technicians or its successor organization, at least 1 of whom practices in a county with a population of not more than 100,000.

(g) One representative from the Michigan association of air medical services or its successor organization.

(h) One representative from the Michigan association of emergency medical services systems or its successor organization.

(i) Three representatives from a statewide organization representing labor that deals with emergency medical services, at least 1 of whom represents emergency medical services personnel in a county with a population of not more than 100,000 and at least 1 of whom is a member of the Michigan professional fire fighters union or its successor organization.

(j) One consumer.

(k) One individual who is an elected official of a city, village, or township located in a county with a population of not more than 100,000.

(2) In addition to the voting members appointed under subsection (1), the following shall serve as ex officio members of the committee without the right to vote:

(a) One representative of the office of health and medical affairs of the department of management and budget, appointed by the director.

(b) One representative of the department of consumer and industry services, appointed by the director.

(c) One member of the house of representatives, appointed by the speaker of the house of representatives.

(d) One member of the senate, appointed by the senate majority leader.

(3) The representatives of the organizations described in subsection (1) shall be appointed from among nominations made by each of those organizations.

(4) The voting members shall serve for a term of 3 years. A member who is unable to complete a term shall be replaced for the balance of the unexpired term.

(5) At least 1 voting member shall be from a county with a population of not more than 35,000 and at least 1 voting member shall be from a city with a population of not less than 900,000.

(6) The committee shall annually select a voting member to serve as chairperson.

(7) Meetings of the committee are subject to the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. Thirteen voting members constitute a quorum for the transaction of business.

(8) The per diem compensation for the voting members and a schedule for reimbursement of expenses shall be as established by the legislature.

Sec. 20916. The state emergency medical services coordination committee created in section 20915 shall do all of the following:

(a) Meet not less than twice annually at the call of the chairperson or the director.

(b) Provide for the coordination and exchange of information on emergency medical services programs and services.

(c) Act as liaison between organizations and individuals involved in the emergency medical services system.

(d) Make recommendations to the department in the development of a comprehensive statewide emergency medical services program.

(e) Advise the legislature and the department on matters concerning emergency medical services throughout the state.

(f) Issue opinions on appeals of medical control authority decisions under section 20919 and make recommendations based on those opinions to the department for the resolution of those appeals.

(g) Participate in educational activities, special studies, and the evaluation of emergency medical services as requested by the director.

(h) Advise the department concerning vehicle standards for ambulances.

(i) Advise the department concerning minimum patient care equipment lists.

(j) Advise the department on the standards required under section 20910(1)(f).

(k) Appoint, with the advice and consent of the department, a statewide quality assurance task force to review and make recommendations to the department concerning approval of medical control authority applications and revisions concerning protocols under section 20919 and field studies under section 20910(1)(h), and conduct other quality assurance activities as requested by the director. A majority of the members of the task force shall be individuals who are not currently serving on the committee. The task force shall report its decisions, findings, and recommendations to the committee and the department.

(l) Advise the department concerning requirements for curriculum changes for emergency medical services educational programs.

(m) Advise the department on minimum standards that each life support agency must meet for licensure under this part.

Sec. 20918. (1) Each hospital licensed under part 215 and each freestanding surgical outpatient facility licensed under part 208 that operates a service for treating emergency patients 24 hours a day, 7 days a week and meets standards established by medical control authority protocols shall be given the opportunity to participate in the ongoing planning and development activities of the local medical control authority designated by the department and shall adhere to protocols for providing services to a patient before care of the patient is transferred to hospital personnel, to the extent that those protocols apply to a hospital or freestanding surgical outpatient facility. The department shall designate a medical control authority for each Michigan county or part of a county, except that the department may designate a medical control authority to cover 2 or more counties if the department and affected medical control authorities determine that the available resources would be better utilized with a multiple county medical control authority. In designating a medical control authority, the department shall assure that there is a reasonable relationship between the existing emergency medical services capacity in the geographical area to be served by the medical control authority and the estimated demand for emergency medical services in that area.

(2) A medical control authority shall be administered by the participating hospitals. A medical control authority shall accept participation in its administration by a freestanding surgical outpatient facility licensed under part 208 if the freestanding surgical outpatient facility operates a service for treating emergency patients 24 hours a day, 7 days a week determined by the medical control authority to meet the applicable standards established by medical control authority protocols. Subject to subsection (4), the participating hospitals shall appoint an advisory body for the medical control authority that shall include, at a minimum, a representative of each type of life support agency and each type of emergency medical services personnel functioning within the medical control authority's boundaries.

(3) With the advice of the advisory body of the medical control authority appointed under subsection (2), a medical control authority shall appoint a medical director of the medical control authority. The medical director shall be a physician who is board certified in emergency medicine by a national organization approved by the department, or who practices emergency medicine and is certified in both advanced cardiac life support and advanced trauma life support by a national organization approved by the department, and who meets other standards set forth in department rules.

The medical director is responsible for medical control for the emergency medical services system served by the medical control authority.

(4) No more than 10% of the membership of the advisory body of a medical control authority shall be employees of the medical director or of an entity substantially owned or controlled by the medical director.

(5) A designated medical control authority shall operate in accordance with the terms of its designation.

(6) Each life support agency and individual licensed under this part is accountable to the medical control authority in the provision of emergency medical services, as defined in protocols developed by the medical control authority and approved by the department under this part.

Sec. 20919. (1) A local medical control authority shall establish written protocols for the practice of life support agencies and licensed emergency medical services personnel within its region. The protocols shall be developed and adopted in accordance with procedures established by the department and shall include all of the following:

(a) The acts, tasks, or functions that may be performed by each type of emergency medical services personnel licensed under this part.

(b) Medical protocols to ensure the appropriate dispatching of a life support agency based upon medical need and the capability of the emergency medical services system.

(c) Protocols for complying with the Michigan do-not-resuscitate procedure act, 1996 PA 193, MCL 333.1051 to 333.1067.

(d) Protocols defining the process, actions, and sanctions a medical control authority may use in holding a life support agency or personnel accountable.

(e) Protocols to ensure that if the medical control authority determines that an immediate threat to the public health, safety, or welfare exists, appropriate action to remove medical control can immediately be taken until the medical control authority has had the opportunity to review the matter at a medical control authority hearing. The protocols shall require that the hearing is held within 3 business days after the medical control authority's determination.

(f) Protocols to ensure that if medical control has been removed from a participant in an emergency medical services system, the participant does not provide prehospital care until medical control is reinstated, and that the medical control authority that removed the medical control notifies the department within 1 business day of the removal.

(g) Protocols that ensure a quality improvement program is in place within a medical control authority and provides data protection as provided in 1967 PA 270, MCL 331.531 to 331.533.

(h) Protocols to ensure that an appropriate appeals process is in place.

(2) A protocol established under this section shall not conflict with the Michigan do-not-resuscitate procedure act, 1996 PA 193, MCL 333.1051 to 333.1067.

(3) The procedures established by the department for development and adoption of written protocols under this section shall comply with at least all of the following requirements:

(a) At least 60 days before adoption of a protocol, the medical control authority shall circulate a written draft of the proposed protocol to all significantly affected persons within the emergency medical services system served by the medical control authority and submit the written draft to the department for approval.

(b) The department shall review a proposed protocol for consistency with other protocols concerning similar subject matter that have already been established in this state and shall consider any written comments received from interested persons in its review.

(c) Not later than 60 days after receiving a written draft of a proposed protocol from a medical control authority, the department shall provide a written recommendation to the medical control authority with any comments or suggested changes on the proposed protocol. If the department does not respond within 60 days after receiving the written draft, the proposed protocol shall be considered to be approved by the department.

(d) After department approval of a proposed protocol, the medical control authority may formally adopt and implement the protocol.

(e) A medical control authority may establish an emergency protocol necessary to preserve the health or safety of individuals within its jurisdiction in response to a present medical emergency or disaster without following the procedures established by the department under this section for an ordinary protocol. An emergency protocol established under this subdivision is effective only for a limited time period and does not take permanent effect unless it is approved according to this subsection.

(4) A medical control authority shall provide an opportunity for an affected participant in an emergency medical services system to appeal a decision of the medical control authority. Following appeal, the medical control authority may affirm, suspend, or revoke its original decision. After appeals to the medical control authority have been exhausted, the affected participant in an emergency medical services system may appeal the medical control authority's decision to the statewide emergency medical services coordination committee. The statewide emergency medical services coordination committee shall issue an opinion on whether the actions or decisions of the medical control authority are

in accordance with the department-approved protocols of the medical control authority and state law. If the statewide emergency medical services coordination committee determines in its opinion that the actions or decisions of the medical control authority are not in accordance with the medical control authority's department-approved protocols or with state law, the emergency medical services coordination committee shall recommend that the department take any enforcement action authorized under this code.

(5) If adopted in protocols approved by the department, a medical control authority may require life support agencies within its region to meet reasonable additional standards for equipment and personnel, other than medical first responders, that may be more stringent than are otherwise required under this part. If a medical control authority establishes additional standards for equipment and personnel, the medical control authority and the department shall consider the medical and economic impact on the local community, the need for communities to do long-term planning, and the availability of personnel. If either the medical control authority or the department determines that negative medical or economic impacts outweigh the benefits of those additional standards as they affect public health, safety, and welfare, protocols containing those additional standards shall not be adopted.

(6) If a decision of the medical control authority under subsection (5) is appealed by an affected person, the medical control authority shall make available, in writing, the medical and economic information it considered in making its decision. On appeal, the statewide emergency medical services coordination committee shall review this information under subsection (4) and shall issue its findings in writing.

Sec. 20920. (1) A person shall not establish, operate, or cause to be operated an ambulance operation unless the ambulance operation is licensed under this section.

(2) Upon proper application and payment of a \$100.00 fee, the department shall issue a license as an ambulance operation to a person who meets the requirements of this part and the rules promulgated under this part.

(3) An applicant shall specify in the application each ambulance to be operated.

(4) An ambulance operation license shall specify the ambulances licensed to be operated.

(5) An ambulance operation license shall state the level of life support the ambulance operation is licensed to provide. An ambulance operation shall operate in accordance with this part, rules promulgated under this part, and approved medical control authority protocols and shall not provide life support at a level that exceeds its license or violates approved medical control authority protocols.

(6) An ambulance operation license may be renewed annually upon application to the department and payment of a \$100.00 renewal fee. Before issuing a renewal license, the department shall determine that the ambulance operation is in compliance with this part, the rules promulgated under this part, and medical control authority protocols.

(7) Beginning on July 22, 1997, an ambulance operation that meets all of the following requirements may apply for an ambulance operation upgrade license under subsection (8):

(a) On or before July 22, 1997, holds an ambulance operation license that designates the ambulance operation either as a transporting basic life support service or as a transporting limited advanced life support service.

(b) Is a transporting basic life support service, that is able to staff and equip 1 or more ambulances for the transport of emergency patients at a life support level higher than basic life support, or is a transporting limited advanced life support service, that is able to staff and equip 1 or more ambulances for the transport of emergency patients at the life support level of advanced life support.

(c) Is owned or operated by or under contract to a local unit of government and providing first-line emergency medical response to that local unit of government on or before July 22, 1997.

(d) Will provide the services described in subdivision (b) only to the local unit of government described in subdivision (c), and only in response to a 911 call or other call for emergency transport.

(8) An ambulance operation meeting the requirements of subsection (7) that applies for an ambulance operation upgrade license shall include all of the following information in the application provided by the department:

(a) Verification of all of the requirements of subsection (7) including, but not limited to, a description of the staffing and equipment to be used in providing the higher level of life support services.

(b) If the applicant is a transporting basic life support service, a plan of action to upgrade from providing basic life support to providing limited advanced life support or advanced life support to take place over a period of not more than 2 years. If the applicant is a transporting limited advanced life support service, a plan of action to upgrade from providing limited advanced life support to providing advanced life support to take place over a period of not more than 2 years.

(c) The medical control authority protocols for the ambulance operation upgrade license, along with a recommendation from the medical control authority under which the ambulance operation operates that the ambulance operation upgrade license be issued by the department.

(d) Other information required by the department.

(9) The statewide emergency medical services coordination committee shall review the information described in subsection (8)(c) and make a recommendation to the department as to whether or not an ambulance operation upgrade license should be granted to the applicant.

(10) Upon receipt of a completed application as required under subsection (8), a positive recommendation under subsection (9), and payment of a \$100.00 fee, the department shall issue to the applicant an ambulance operation upgrade license. Subject to subsection (12), the license is valid for 2 years from the date of issuance and is renewable for 1 additional 2-year period. An application for renewal of an ambulance operation upgrade license shall contain documentation of the progress made on the plan of action described in subsection (8)(b). In addition, the medical control authority under which the ambulance operation operates shall annually file with the statewide emergency medical services coordination committee a written report on the progress made by the ambulance operation on the plan of action described in subsection (8)(b), including, but not limited to, information on training, equipment, and personnel.

(11) If an ambulance operation is designated by its regular license as providing basic life support services, then an ambulance operation upgrade license issued under this section allows the ambulance operation to provide limited advanced life support services or advanced life support services when the ambulance operation is able to staff and equip 1 or more ambulances to provide services at the higher levels. If an ambulance operation is designated by its regular license as providing limited advanced life support services, then an ambulance operation upgrade license issued under this section allows the ambulance operation to provide advanced life support services when the ambulance operation is able to staff and equip 1 or more ambulances to provide services at the higher level. An ambulance operation shall not provide services under an ambulance operation upgrade license unless the medical control authority under which the ambulance operation operates has adopted protocols for the ambulance operation upgrade license regarding quality monitoring procedures, use and protection of equipment, and patient care.

(12) The department may revoke or fail to renew an ambulance operation upgrade license for a violation of this part or a rule promulgated under this part or for failure to comply with the plan of action filed under subsection (8)(b). An ambulance operation that obtains an ambulance operation upgrade license must annually renew its regular license under subsections (2) to (6). An ambulance operation's regular license is not affected by the following:

(a) The fact that the ambulance operation has obtained or renewed an ambulance operation upgrade license.

(b) The fact that an ambulance operation's ambulance operation upgrade license is revoked or is not renewed under this subsection.

(c) The fact that the ambulance operation's ambulance operation upgrade license expires at the end of the second 2-year period prescribed by subsection (10).

(13) By July 22, 2000, the department shall file a written report to the legislature. The department shall include all of the following information in the report:

(a) The number of ambulance operations that were qualified under subsection (7) to apply for an ambulance operation upgrade license under subsection (8) during the 3-year period.

(b) The number of ambulance operations that in fact applied for an ambulance operation upgrade license during the 3-year period.

(c) The number of ambulance operations that successfully upgraded from being a transporting basic life support service to a transporting limited advanced service or a transporting advanced life support service or that successfully upgraded from being a transporting limited advanced life support service to a transporting advanced life support service under an ambulance operation upgrade license.

(d) The number of ambulance operations that failed to successfully upgrade, as described in subdivision (c), under an ambulance operation upgrade license, but that improved their services during the 3-year period.

(e) The number of ambulance operations that failed to successfully upgrade, as described in subdivision (c), under an ambulance operation upgrade license, and that showed no improvement or a decline in their services.

(f) The effect of the amendatory act that added this subsection on the delivery of emergency medical services in this state.

Sec. 20921. (1) An ambulance operation shall do all of the following:

(a) Provide at least 1 ambulance available for response to requests for emergency assistance on a 24-hour-a-day, 7-day-a-week basis in accordance with local medical control authority protocols.

(b) Respond or ensure that a response is provided to each request for emergency assistance originating from within the bounds of its service area.

(c) Operate under the direction of a medical control authority or the medical control authorities with jurisdiction over the ambulance operation.

(d) Notify the department immediately of a change that would alter the information contained on its application for an ambulance operation license or renewal.

(e) Subject to section 20920(7) to (12), provide life support consistent with its license and approved local medical control authority protocols to each emergency patient without prior inquiry into ability to pay or source of payment.

(2) An ambulance operation shall not do 1 or more of the following:

(a) Knowingly provide a person with false or misleading information concerning the time at which an emergency response will be initiated or the location from which the response is being initiated.

(b) Induce or seek to induce any person engaging an ambulance to patronize a long-term care facility, mortuary, or hospital.

(c) Advertise, or permit advertising of, within or on the premises of the ambulance operation or within or on an ambulance, the name or the services of an attorney, accident investigator, nurse, physician, long-term care facility, mortuary, or hospital. If 1 of those persons or facilities owns or operates an ambulance operation, the person or facility may use its business name in the name of the ambulance operation and may display the name of the ambulance operation within or on the premises of the ambulance operation or within or on an ambulance.

(d) Advertise or disseminate information for the purpose of obtaining contracts under a name other than the name of the person holding an ambulance operation license or the trade or assumed name of the ambulance operation.

(e) If the ambulance operation is operating under an ambulance operation upgrade license issued under section 20920(7) to (12), advertise or otherwise hold itself out as a full-time transporting limited advanced life support service or a full-time transporting advanced life support service unless the ambulance operation actually provides those services on a 24-hour-per-day, 7-day-a-week basis.

(3) An ambulance operation shall not operate, attend, or permit an ambulance to be operated while transporting a patient unless the ambulance is, at a minimum, staffed as follows:

(a) If designated as providing basic life support, with at least 1 emergency medical technician and 1 medical first responder.

(b) If designated as providing limited advanced life support, with at least 1 emergency medical technician specialist and 1 emergency medical technician.

(c) If designated as providing advanced life support, with at least 1 paramedic and 1 emergency medical technician.

(4) Except as provided in subsection (5), an ambulance operation shall ensure that an emergency medical technician, an emergency medical technician specialist, or a paramedic is in the patient compartment of an ambulance while transporting an emergency patient.

(5) Subsection (4) does not apply to the transportation of a patient by an ambulance if the patient is accompanied in the patient compartment of the ambulance by an appropriate licensed health professional designated by a physician and after a physician-patient relationship has been established as prescribed in this part or the rules promulgated by the department under this part.

Sec. 20923. (1) Except as provided in section 20924(2), a person shall not operate an ambulance unless the ambulance is licensed under this section and is operated as part of a licensed ambulance operation.

(2) Upon proper application and payment of a \$25.00 fee, the department shall issue an ambulance license, or annual renewal of an ambulance license, to the ambulance operation. Receipt of the application by the department serves as attestation to the department by the ambulance operation that the ambulance being licensed or renewed is in compliance with the minimum standards required by the department. The inspection of an ambulance by the department is not required as a basis for licensure renewal, unless otherwise determined by the department.

(3) An ambulance operation shall submit an application and fee to the department for each ambulance in service. Each application shall include a certificate of insurance for the ambulance in the amount and coverage required by the department.

(4) Upon purchase by an ambulance operation, an ambulance shall meet all vehicle standards established by the department under section 20910(e)(iv).

(5) Once licensed for service, an ambulance is not required to meet subsequently modified state vehicle standards during its use by the ambulance operation that obtained the license.

(6) Patient care equipment and safety equipment carried on an ambulance shall meet the minimum requirements prescribed by the department and the approved local medical control authority protocols.

(7) An ambulance shall be equipped with a communications system utilizing frequencies and procedures consistent with the statewide emergency medical services communications system developed by the department.

(8) An ambulance license is not transferable to another ambulance operation.

Sec. 20929. (1) A person shall not operate a nontransport prehospital life support vehicle unless the vehicle is licensed by the department under this section and is operated as part of a licensed nontransport prehospital life support operation.

(2) Upon proper application and payment of a \$25.00 fee, the department shall issue a nontransport prehospital life support vehicle license or annual renewal to the applicant nontransport prehospital life support operation. Receipt of the application by the department serves as attestation to the department by the nontransport prehospital life support operation that the vehicle being licensed or renewed is in compliance with the minimum standards required by the department. The inspection of a nontransport prehospital life support vehicle by the department is not required as a basis for issuing a licensure renewal, unless otherwise determined by the department.

(3) A nontransport prehospital life support operation shall submit an application and required fee to the department for each vehicle in service. Each application shall include a certificate of insurance for the vehicle in the amount and coverage required by the department.

(4) A nontransport prehospital life support vehicle shall be equipped with a communications system utilizing frequencies and procedures consistent with the statewide emergency medical services communications system developed by the department.

(5) A nontransport prehospital life support vehicle shall be equipped according to the department's minimum equipment list and approved medical control authority protocols based upon the level of life support the vehicle and personnel are licensed to provide.

Sec. 20934. (1) A person shall not operate an aircraft transport vehicle unless the vehicle is licensed by the department under this section and is operated as part of a licensed aircraft transport operation.

(2) Upon proper application and payment of a \$100.00 fee, the department shall issue an aircraft transport vehicle license or annual renewal to the applicant aircraft transport operation. Receipt of the application by the department serves as attestation to the department by the aircraft transport operation that the vehicle is in compliance with the minimum standards required by the department. The inspection of an aircraft transport vehicle by the department is not required as a basis for licensure renewal, unless otherwise determined by the department.

(3) An aircraft transport operation shall submit an application and required fee to the department for each vehicle in service. Each application shall include a certificate of insurance for the vehicle in the amount and coverage required by the department.

(4) An aircraft transport vehicle shall be equipped with a communications system utilizing frequencies and procedures consistent with the statewide emergency medical services communications system developed by the department.

(5) An aircraft transport vehicle shall be equipped according to the department's minimum equipment list based upon the level of life support the vehicle and personnel are licensed to provide.

Sec. 20950. (1) An individual shall not practice or advertise to practice as a medical first responder, emergency medical technician, emergency medical technician specialist, paramedic, or emergency medical services instructor-coordinator unless licensed to do so by the department.

(2) The department shall issue a license under this section only to an individual who meets all of the following requirements:

(a) Is 18 years of age or older.

(b) Has successfully completed the appropriate education program approved under section 20912.

(c) Subject to subsection (3), has attained a passing score on the appropriate department prescribed examination, as follows:

(i) Within 3 years after the effective date of the amendatory act that added this subparagraph, a medical first responder shall pass the written examination proctored by the department or the department's designee and a practical examination approved by the department. The practical examination shall be administered by the instructors of the medical first responder course. The department or the department's designee may also proctor the practical examination.

(ii) An emergency medical technician, emergency medical technician specialist, and a paramedic shall pass the written examination proctored by the department or the department's designee and a practical examination proctored by the department or the department's designee.

(iii) The fee for the written examinations required under subparagraphs (i) and (ii) shall be paid directly to the national registry of emergency medical technicians or other organization approved by the department.

(d) Meets other requirements of this part.

(3) Except as otherwise provided in subsection (2)(c)(i), not more than 6 months after the effective date of the amendatory act that added this subsection, the department shall require for purposes of compliance with subsection (2)(c) successful passage by each first-time applicant of an examination as that term is defined in section 20904(10).

(4) The department shall issue a license as an emergency medical services instructor-coordinator only to an individual who meets the requirements of subsection (2) for an emergency medical services instructor-coordinator and

at the time of application is currently licensed as an emergency medical technician, emergency medical technician specialist, or paramedic and has at least 3 years' field experience as an emergency medical technician. The department shall provide for the development and administration of an examination for emergency medical services instructor-coordinators.

(5) Except as provided by section 20952, a license under this section is effective for 3 years from the date of issuance unless revoked or suspended by the department.

(6) Except as otherwise provided in subsection (7), an applicant for licensure under this section shall pay the following triennial licensure fees:

- (a) Medical first responder - no fee.
- (b) Emergency medical technician - \$40.00.
- (c) Emergency medical technician specialist - \$60.00.
- (d) Paramedic - \$80.00.
- (e) Emergency medical services instructor-coordinator - \$100.00.

(7) If a life support agency certifies to the department that an applicant for licensure under this section will act as a volunteer and if the life support agency does not charge for its services, the department shall not require the applicant to pay the fee required under subsection (6). If the applicant ceases to meet the definition of a volunteer under this part at any time during the effective period of his or her license and is employed as a licensee under this part, the applicant shall at that time pay the fee required under subsection (6).

Sec. 20954. (1) Upon proper application to the department and payment of the renewal fee under subsection (2), the department may renew an emergency medical services personnel license if the applicant meets the requirements of this part and provides, upon request of the department, verification of having met ongoing education requirements established by the department. If an applicant for renewal fails to provide the department with a change of address, the applicant shall pay a \$20.00 fee in addition to the renewal and late fees required under subsections (2) and (3).

(2) Except as otherwise provided in subsection (5), an applicant for renewal of a license under section 20950 shall pay a renewal fee as follows:

- (a) Medical first responder - no fee.
- (b) Emergency medical technician - \$25.00.
- (c) Emergency medical technician specialist - \$25.00.
- (d) Paramedic - \$25.00.
- (e) Emergency medical services instructor-coordinator - \$25.00.

(3) Except as otherwise provided in subsection (5), if an application for renewal under subsection (1) is postmarked after the date the license expires, the applicant shall pay a late fee in addition to the renewal fee under subsection (2) as follows:

- (a) Medical first responder - \$50.00.
- (b) Emergency medical technician - \$50.00.
- (c) Emergency medical technician specialist - \$50.00.
- (d) Paramedic - \$50.00.
- (e) Emergency medical services instructor-coordinator - \$50.00.

(4) A license or registration shall be renewed by the licensee on or before the expiration date as prescribed by rule. The department shall mail a notice to the licensee at the last known address on file with the department advising of the time, procedure, and fee for renewal. Failure of the licensee to receive notice under this subsection does not relieve the licensee of the responsibility for renewing his or her license. A license not renewed by the expiration date may be renewed within 60 days of the expiration date upon application, payment of renewal and late renewal fees, and fulfillment of any continued continuing education requirements set forth in rules promulgated under this article. The licensee may continue to practice and use the title during the 60-day period. If a license is not so renewed within 60 days of the expiration date, the license is void. The licensee shall not practice or use the title. An individual may be relicensed within 3 years of the expiration date upon application, payment of the application processing, renewal, and late renewal fees, and fulfillment of any continuing education requirements in effect at the time of the expiration date, or that would have been required had the individual renewed his or her license pursuant to subsection (1). An individual may be relicensed more than 3 years after the expiration date upon application as a new applicant, meeting all licensure requirements in effect at the time of application, taking or retaking and passing any examinations required for initial licensure, and payment of fees required of new applicants.

(5) If a life support agency certifies to the department that an applicant for renewal under this section is a volunteer and if the life support agency does not charge for its services, the department shall not require the applicant to pay the fee required under subsection (2) or a late fee under subsection (3). If the applicant for renewal ceases to meet the

definition of a volunteer under this part at any time during the effective period of his or her license renewal and is employed as a licensee under this part, the applicant for renewal shall at that time pay the fee required under subsection (2).

(6) An individual seeking renewal under this section is not required to maintain national registry status as a condition of license renewal.

Sec. 20956. (1) A medical first responder, an emergency medical technician, an emergency medical technician specialist, or a paramedic shall not provide life support at a level that is inconsistent with his or her education, licensure, and approved medical control authority protocols.

(2) A medical first responder, emergency medical technician, emergency medical technician specialist, or paramedic may perform techniques required in implementing a field study authorized under section 20910(1)(h) if he or she receives training for the skill, technique, procedure, or equipment involved in the field study.

Sec. 20958. (1) The department may deny, revoke, or suspend an emergency medical services personnel license upon finding that an applicant or licensee meets 1 or more of the following:

- (a) Is guilty of fraud or deceit in procuring or attempting to procure licensure.
- (b) Has illegally obtained, possessed, used, or distributed drugs.
- (c) Has practiced after his or her license has expired or has been suspended.
- (d) Has knowingly violated, or aided or abetted others in the violation of, this part or rules promulgated under this part.
- (e) Is not performing in a manner consistent with his or her education, licensure, or approved medical control authority protocols.
- (f) Is physically or mentally incapable of performing his or her prescribed duties.
- (g) Has been convicted of a criminal offense under sections 520a to 520l of the Michigan penal code, 1931 PA 328, MCL 750.520a to 750.520l. A certified copy of the court record is conclusive evidence of the conviction.
- (h) Has been convicted of a misdemeanor or felony reasonably related to and adversely affecting the ability to practice in a safe and competent manner. A certified copy of the court record is conclusive evidence of the conviction.

(2) The department shall provide notice of intent to deny, revoke, or suspend an emergency services personnel license and opportunity for a hearing according to section 20166.

Sec. 20965. (1) Unless an act or omission is the result of gross negligence or willful misconduct, the acts or omissions of a medical first responder, emergency medical technician, emergency medical technician specialist, paramedic, medical director of a medical control authority or his or her designee, or, subject to subsection (5), an individual acting as a clinical preceptor of a department-approved education program sponsor while providing services to a patient outside a hospital, in a hospital before transferring patient care to hospital personnel, or in a clinical setting that are consistent with the individual's licensure or additional training required by the medical control authority including, but not limited to, services described in subsection (2), or consistent with an approved procedure for that particular education program do not impose liability in the treatment of a patient on those individuals or any of the following persons:

- (a) The authorizing physician or physician's designee.
- (b) The medical director and individuals serving on the governing board, advisory body, or committee of the medical control authority and an employee of the medical control authority.
- (c) The person providing communications services or lawfully operating or utilizing supportive electronic communications devices.
- (d) The life support agency or an officer, member of the staff, or other employee of the life support agency.
- (e) The hospital or an officer, member of the staff, nurse, or other employee of the hospital.
- (f) The authoritative governmental unit or units.
- (g) Emergency personnel from outside the state.
- (h) The education program medical director.
- (i) The education program instructor-coordinator.
- (j) The education program sponsor and education program sponsor advisory committee.
- (k) The student of a department-approved education program who is participating in an education program-approved clinical setting.
- (l) An instructor or other staff employed by or under contract to a department-approved education program for the purpose of providing training or instruction for the department-approved education program.

(m) The life support agency or an officer, member of the staff, or other employee of the life support agency providing the clinical setting described in subdivision (k).

(n) The hospital or an officer, member of the medical staff, or other employee of the hospital providing the clinical setting described in subdivision (k).

(2) Subsection (1) applies to services consisting of the use of an automated external defibrillator on an individual who is in or is exhibiting symptoms of cardiac distress.

(3) Unless an act or omission is the result of gross negligence or willful misconduct, the acts or omissions of any of the persons named below, while participating in the development of protocols under this part, implementation of protocols under this part, or holding a participant in the emergency medical services system accountable for department-approved protocols under this part, does not impose liability in the performance of those functions:

(a) The medical director and individuals serving on the governing board, advisory body, or committees of the medical control authority or employees of the medical control authority.

(b) A participating hospital or freestanding surgical outpatient facility in the medical control authority or an officer, member of the medical staff, or other employee of the hospital or freestanding surgical outpatient facility.

(c) A participating agency in the medical control authority or an officer, member of the medical staff, or other employee of the participating agency.

(d) A nonprofit corporation that performs the functions of a medical control authority.

(4) Subsections (1) and (3) do not limit immunity from liability otherwise provided by law for any of the persons listed in subsections (1) and (3).

(5) The limitation on liability granted to a clinical preceptor under subsection (1) applies only to an act or omission of the clinical preceptor relating directly to a student's clinical training activity or responsibility while the clinical preceptor is physically present with the student during the clinical training activity, and does not apply to an act or omission of the clinical preceptor during that time that indirectly relates or does not relate to the student's clinical training activity or responsibility.

Sec. 20975. The department may promulgate rules to implement this part.

Sec. 20977. (1) Except as otherwise provided in subsection (2), rules promulgated to implement former parts 32, 203, or 207 of this act and in effect on July 22, 1990 do not continue, and are considered as rescinded.

(2) Subsection (1) does not apply to rules that have been identified as being applicable within 6 months after the effective date of the amendatory act that added this subsection, as recommended by the department and approved by the statewide emergency medical services coordination committee.

This act is ordered to take immediate effect.

Carol Morey Viventi

Secretary of the Senate.

Ray E. Randall

Clerk of the House of Representatives.
