Subsection (1) of Section 628 of the Motor Vehicle Code (MCL 257.628) now provides a process for changing speed limits on state trunklines and county roads. HB 4022 would break out this section into 3 subsections. Amended subsection (1) would provide a process for changing speed limits on state trunklines. New subsection (2) would provide a process for changing the speed limits on county roads. And new subsection (3) would provide a process for changing speed limits on roads within 1000 feet of a school.

New subsection (2) would make a substantive change in the process of changing speed limits on county roads by including the township board, along with the county road commission, and the director of the Michigan State Police, among the officials that "acting jointly may establish a reasonable and safe maximum or minimum speed limit..."

The bill has no apparent fiscal impacts.
