House Bill 4799 would amend the Home Rule City Act to allow a city to adopt an ordinance to separate storm water drains and footing drains from sanitary sewers on privately owned property for a public purpose. Any or all of the expense could be recovered via a special assessment on the property directly adjacent to the improved property.

As written, HB4799 would have no direct state fiscal impacts. Local costs could increase, but the bill would allow for an increase in local revenues to offset the costs.
