House Bill 5259 (as passed by the House)
Sponsor: Representative Gary Woronchak
House Committee: Health Policy
Senate Committee: Health Policy

Date Completed: 11-27-01

CONTENT

The bill would amend Part 201 of Article 17 of the Public Health Code, which prescribes general regulations for health care facilities and agencies, to require the rights and responsibilities policy adopted by a facility or agency to include that a patient or resident would be entitled to adequate and appropriate pain and symptom management as a basic and essential element of medical treatment.

Part 201 requires a licensed health facility or agency that provides services directly to patients or residents to adopt a policy describing the rights and responsibilities of patients or residents. The policy must be posted in a public place and must include provisions regarding the right to appropriate care, regardless of race, religion, disability, etc.; the right to information about their medical condition and treatment; confidential treatment of personal and medical records; freedom from mental or physical abuse; and the right to refuse treatment, among others. In the case of a nursing home patient, these rights can be exercised by the patient's representative.

MCL 333.20201

Legislative Analyst: G. Towne

FISCAL IMPACT

The bill would have no fiscal impact on State or local government.
