CPR CERTIFICATES FOR TEACHERS

Bill/Sponsor	HOUSE BILL 4038, AS REPORTED FROM COMMITTEE, Rep. Sal Rocca
---------------------	---

House Committee	Education
------------------------	-----------

Analysis	Summary HB 4038 prohibits the Superintendent of Public Instruction from granting initial teaching certificates to people who do not hold valid certifications in Cardiopulmonary Resuscitation (CPR) and First Aid.
-----------------	---

	Fiscal Impact If this bill becomes law, new teachers seeking certification who are not already certified in First Aid and CPR would be required to pay an estimated \$55 for a First Aid and adult CPR certificate at American Red Cross Association. There would be no fiscal impact to the state.
