RUFFED GROUSE DESIGNATED AS STATE GAME BIRD

Bill/Sponsor **HOUSE BILL 4286 (as introduced), Rep. Doug Spade**

House Committee **Conservation and Outdoor Recreation**

Analysis

Summary

House Bill 4286 would create a new act that would designate the ruffed grouse (*bonasa umbellus*) as Michigan's official game bird.

Fiscal Impact

The fiscal impact on State and local units of government by this bill is indeterminate. It could be assumed that by designating a state game bird that people's awareness of the bird and the opportunities to hunt them or observe them in their habitat may increase. Increased interest in hunting or birding may have a positive fiscal impact on State or local revenues.
