House Committee Education

Analysis

Summary

HB 5376 amends the Revised School Code to require local school boards to advertise for construction bids by posting a bid advertisement on a Department of Management and Budget website or other designated website set up specifically for school bid contracts. The bid advertisement must remain on the website for at least two weeks.

The legislation also increases the cost limit of when a school district must advertise its bid for construction, renovations, or repairs on the website from \$12,500 to \$17,932.

Fiscal Impact

HB 5376 would result in minimal increase to the State. A portion of a staff person would be required to set up and maintain the school construction bid website.
