**Summary of Major Conference Issues:**

**Prisoner Programs:**

Reduces funding for prisoner education by \$1.0 million from Executive-recommended figure of \$32.9 million. General fund support for substance abuse testing and treatment reduced by \$750,000.

**Prisoner Health Care:**

Funds Hepatitis-C testing and treatment at House-passed level of \$1,150,000, half the amount recommended by the Executive. Assumes pharmaceutical savings of \$3.6 million, predicated on anticipated vendor pass-through savings and savings from authorization to re-dispense certain medications; House assumed same amount of savings, but based in part on privatization of pharmaceutical services, rather than vendor savings.

**Facility Closures:**

Recognizes savings through closure of Gilman technical rule violator center (\$1.3 million), Wing Farm (\$1.0 million), and Kalamazoo Center (\$283,500 GF/GP).

**Various Administrative Adjustments to Executive Recommendation:**

Reduces funding for special maintenance by \$2.5 million from Executive Recommendation; these projects will instead be funded through capital outlay. Incorporates Senate-passed savings of \$2.0 million in prisoner transportation costs, and House-passed reductions of \$1.3 million to worker's compensation, and \$1.0 million to new employee training. Consent decree funding same as House: Hadix reduced by \$2.0 million, reflecting historical spending patterns, and appropriations for mental health program reduced by \$1.5 million, reflecting planned reorganization of program. Savings of 2.0 FTEs and \$190,000 gained through consolidation of boot camp with Cooper Street Correctional Facility. Combined lease and operational savings of \$429,400 at Youth Correctional Facility. Funding for Department of Information Technology reduced by \$247,900 from the Executive Recommendation.

**Major Budget Changes from FY 2003-04 YTD Appropriations:**
