### **Overview**

The Department of Environmental Quality supports environmental protection, conservation, and cleanup and redevelopment programs. Appropriated funds support regulatory efforts established to protect, restore, and reuse Michigan's air, water, and land resources. More than half of annual department revenue is collected from restricted (permit and license) revenue.

### **Summary of FY 2004-05 Major Budget Issues**

#### ***Contaminated Site Cleanup***

No new funding would be provided for polluted land or water resources. Funding in FY 2003-04 for this purpose was \$35.0 million (restricted funds).

#### ***Water Pollution Control – Drinking Water Revolving Fund Match***

The General Fund match (\$16.3 million) for the federal grant to the Water Pollution Control Revolving Fund would be eliminated. Debt service on the single sale and redemption payment (from accumulated interest and earnings) will count as the State's match for the FY 2004-05 Federal grant.

#### ***Department-wide***

The Senate restructured the bill following objects of expense instead of program related spending, and instituted travel reductions in all programs.

The House did not concur in the Senate changes. Department-wide General Fund reductions of 15% would be required. An 8% position reduction would be required as well. The Hazardous Waste regulatory program was deleted. Federal regulatory responsibility would be pursued.

<b>Major Budget Changes from FY 2003-04 YTD Appropriations:</b>		<b>FY 2003-04 YTD (as of 2/12/04)</b>	<b>House Change</b>
<b>1. Contaminated Site Cleanup</b>		<b>Gross</b>	<b>\$34,968,046</b>
Deletes the boilerplate reappropriation item in the FY 2003-04 supplemental (\$13.3 million). The baseline appropriation for cleanup projects is not included (\$21.7 million). Insufficient revenue exists to cover both environmental cleanup and redevelopment staff needs and the traditional number of cleanup projects.		Restricted	34,968,046
Environmental Response Fund and Environmental Protection Fund appropriations have been reduced and program support is shifted to the Cleanup and Redevelopment Fund revenue saved when funding for cleanup projects was eliminated.			<b>(\$34,948,046)</b>

Eliminates General Fund match (\$16.3 million) for the federal grant to the Water Pollution Control Revolving Fund.
