Overview

The School Aid budget makes appropriations to the state's 554 local school districts, 191 public school academies, and 57 intermediate school districts for operations and certain categorical programs. It also appropriates funds to the Center for Education Performance, Department of Labor and Economic Growth, and other entities to implement certain grants and other programs related to K-12 education.

Summary of FY 2004-05 Major Budget Issues

Foundation Allowances

Per-pupil foundation allowances, which are used to support day-to-day school operations, were recommended to remain at the FY 2003-04 levels.

Revenue Sources

The Conference Report reduces the general fund contribution from \$327.5 million to \$165.2 million. The recommendation assumes a savings of \$50.6 million from increased personal property tax audits and homestead exemptions audits and \$14.8 million in additional lottery revenue and tobacco taxes.

Membership Blend

The membership blend, used to calculate districts' foundation allowance payments, would change under the proposal. The pupil membership blend would change from 80% of the current fall pupil count plus 20% of the previous February count to 75% of the current fall pupil count plus 25% of the previous February count.

Retirement Rate

The payroll contribution rate that districts are required to pay for employee retirement would be 14.87%. This is 1.4% less than the actual level set by the retirement board, saving districts an estimated \$138 million.

Funding for Intermediate School Districts (ISDs)

The ISD general operations funding are reduced by \$14.0 million to \$77.7 million.

Section 20J Allocations to Hold Harmless Districts

The Conference report maintains funding at the FY 2004 level.

The **House** concurs with the Senate changes and exempts districts that are in receivership from any future proration. The **Conference** concurs with the House.

Sec. 11(6). Intent Language

Sec. 11b. General Fund Transfers to School Aid Stabilization Fund

The **Executive** recommends transferring \$5 million from the General Fund to the School Aid Stabilization Fund for the Freedom to Learn Program under Sec. 98b. The **Senate** and **House** concur with the Executive. The **Conference** transfers \$3.7 million to the Freedom to Learn Program.

The **Senate** concurs on the payment change and did not include the new program requirements. The **House** concurs with the Executive on developing individual student plans and using research-based methods, but does not concur on the change in payment calculation. The **Conference** concurs Senate on not including the new program requirements and maintains funding on a 90/10 basis.

Sec. 107b. Adult Learning Pilot Programs

The **Executive** authorizes the Department of Labor and Economic Growth to implement a pilot adult learning system in two Michigan Works! regions. Does not authorize a specific amount of funding for the pilots, but specifies that funding that would otherwise be allocated to adult education providers within the two Michigan Works! regions would instead be allocated to the pilot programs. The **Senate** does not include this section. The **House** concurs with the Executive on the language but only allows for one pilot program.
