Gielegheem, Byrum, Bieda, Brown, Lipsey, Gillard, Elkins, Gleason, Meisner, Law, Hopgood, Murphy, Wojno, Cheeks, Paletko, Accavitti, Tobocman, Smith, Zelenko, Dennis, Vagnozzi, McConico, Sak, Farrah, Hune, Williams, Woodward, Reeves, Palsrok, Ruth Johnson, Pappageorge, Hart, Hager, Shaffer, Vander Veen, Voorhees, Kooiman, O'Neil, Hunter, Whitmer, Anderson, Rivet, Condino, Waters, Rocca, Jamnick, Plakas, Kolb, Hoogendyk, Sheen, Wenke, Nofs, Phillips, Adamini, Sheltroun, Daniels, Woronchak, Stewart, Shulman, Minore, DeRossett, Richardville, Spade, LaSata, Middaugh, Ehardt, Meyer, Julian, Newell, Pumford, Shackleton, Palmer, Gaffney, Brandenburg, Acciavatti, Taub, Stakoe, Ward, Emmons, Steil, Van Regenmorter, Nitz, Farhat, Moolenaar and Caspersen

ENROLLED HOUSE BILL No. 4518

AN ACT to amend 1978 PA 368, entitled "An act to protect and promote the public health; to codify, revise, consolidate, classify, and add to the laws relating to public health; to provide for the prevention and control of diseases and disabilities; to provide for the classification, administration, regulation, financing, and maintenance of personal, environmental, and other health services and activities; to create or continue, and prescribe the powers and duties of, departments, boards, commissions, councils, committees, task forces, and other agencies; to prescribe the powers and duties of governmental entities and officials; to regulate occupations, facilities, and agencies affecting the public health; to regulate health maintenance organizations and certain third party administrators and insurers; to provide for the imposition of a regulatory fee; to promote the efficient and economical delivery of health care services, to provide for the appropriate utilization of health care facilities and services, and to provide for the closure of hospitals or consolidation of hospitals or services; to provide for the collection and use of data and information; to provide for the transfer of property; to provide certain immunity from liability; to regulate and prohibit the sale and offering for sale of drug paraphernalia under certain circumstances; to provide for the implementation of federal law; to provide for penalties and remedies; to provide for sanctions for violations of this act and local ordinances; to provide for an appropriation and supplements; to repeal certain acts and parts of acts; to repeal certain parts of this act; and to repeal certain parts of this act on specific dates," by amending section 20919 (MCL 333.20919), as amended by 2000 PA 375.

The People of the State of Michigan enact:

Sec. 20919. (1) A local medical control authority shall establish written protocols for the practice of life support agencies and licensed emergency medical services personnel within its region. The protocols shall be developed and adopted in accordance with procedures established by the department and shall include all of the following:

(a) The acts, tasks, or functions that may be performed by each type of emergency medical services personnel licensed under this part.

(b) Medical protocols to ensure the appropriate dispatching of a life support agency based upon medical need and the capability of the emergency medical services system.

(c) Protocols for complying with the Michigan do-not-resuscitate procedure act, 1996 PA 193, MCL 333.1051 to 333.1067.

(d) Protocols defining the process, actions, and sanctions a medical control authority may use in holding a life support agency or personnel accountable.

(e) Protocols to ensure that if the medical control authority determines that an immediate threat to the public health, safety, or welfare exists, appropriate action to remove medical control can immediately be taken until the medical control authority has had the opportunity to review the matter at a medical control authority hearing. The protocols shall require that the hearing is held within 3 business days after the medical control authority's determination.

(f) Protocols to ensure that if medical control has been removed from a participant in an emergency medical services system, the participant does not provide prehospital care until medical control is reinstated, and that the medical control authority that removed the medical control notifies the department within 1 business day of the removal.

(g) Protocols that ensure a quality improvement program is in place within a medical control authority and provides data protection as provided in 1967 PA 270, MCL 331.531 to 331.533.

(h) Protocols to ensure that an appropriate appeals process is in place.

(i) Within 1 year after the effective date of the amendatory act that added this subdivision, protocols to ensure that each life support agency that provides basic life support, limited advanced life support, or advanced life support is equipped with epinephrine or epinephrine auto-injectors and that each emergency services personnel authorized to provide those services is properly trained to recognize an anaphylactic reaction, to administer the epinephrine, and to dispose of the epinephrine auto-injector or vial.

(2) A protocol established under this section shall not conflict with the Michigan do-not-resuscitate procedure act, 1996 PA 193, MCL 333.1051 to 333.1067.

(3) The procedures established by the department for development and adoption of written protocols under this section shall comply with at least all of the following requirements:

(a) At least 60 days before adoption of a protocol, the medical control authority shall circulate a written draft of the proposed protocol to all significantly affected persons within the emergency medical services system served by the medical control authority and submit the written draft to the department for approval.

(b) The department shall review a proposed protocol for consistency with other protocols concerning similar subject matter that have already been established in this state and shall consider any written comments received from interested persons in its review.

(c) Within 60 days after receiving a written draft of a proposed protocol from a medical control authority, the department shall provide a written recommendation to the medical control authority with any comments or suggested changes on the proposed protocol. If the department does not respond within 60 days after receiving the written draft, the proposed protocol shall be considered to be approved by the department.

(d) After department approval of a proposed protocol, the medical control authority may formally adopt and implement the protocol.

(e) A medical control authority may establish an emergency protocol necessary to preserve the health or safety of individuals within its jurisdiction in response to a present medical emergency or disaster without following the procedures established by the department under this section for an ordinary protocol. An emergency protocol established under this subdivision is effective only for a limited time period and does not take permanent effect unless it is approved according to this subsection.

(4) A medical control authority shall provide an opportunity for an affected participant in an emergency medical services system to appeal a decision of the medical control authority. Following appeal, the medical control authority may affirm, suspend, or revoke its original decision. After appeals to the medical control authority have been exhausted, the affected participant in an emergency medical services system may appeal the medical control authority's decision to the statewide emergency medical services coordination committee. The statewide emergency medical services coordination committee shall issue an opinion on whether the actions or decisions of the medical control authority are in accordance with the department-approved protocols of the medical control authority and state law. If the statewide emergency medical services coordination committee determines in its opinion that the actions or decisions of the medical control authority are not in accordance with the medical control authority's department-approved protocols or with state law, the emergency medical services coordination committee shall recommend that the department take any enforcement action authorized under this code.

(5) If adopted in protocols approved by the department, a medical control authority may require life support agencies within its region to meet reasonable additional standards for equipment and personnel, other than medical first responders, that may be more stringent than are otherwise required under this part. If a medical control authority establishes additional standards for equipment and personnel, the medical control authority and the department shall consider the medical and economic impact on the local community, the need for communities to do long-term planning, and the availability of personnel. If either the medical control authority or the department determines that negative medical or economic impacts outweigh the benefits of those additional standards as they affect public health, safety, and welfare, protocols containing those additional standards shall not be adopted.

(6) If adopted in protocols approved by the department, a local medical control authority may require medical first response services and licensed medical first responders within its region to meet additional standards for equipment and personnel to ensure that each medical first response service is equipped with an epinephrine auto-injector, and that each licensed medical first responder is properly trained to recognize an anaphylactic reaction and to administer and dispose of the epinephrine auto-injector, if a life support agency that provides basic life support, limited advanced life support, or advanced life support is not readily available in that location.

(7) If a decision of the medical control authority under subsection (5) or (6) is appealed by an affected person, the medical control authority shall make available, in writing, the medical and economic information it considered in making its decision. On appeal, the statewide emergency medical services coordination committee shall review this information under subsection (4) and shall issue its findings in writing.

This act is ordered to take immediate effect.
