**House Bill 6300 (Substitute H-1)**  
**Sponsor: Rep. Dave Hildenbrand**  
**Committee: Health Policy**

**Complete to 9-11-06**

### **A SUMMARY OF HOUSE BILL 6300 (SUBSTITUTE H-1)**

The bill would amend the Public Health Code (MCL 333.20950) to make several revisions to the qualifications for licensure as an emergency medical services instructor-coordinator as follows:

- Include a medical first responder in the list of EMS personnel eligible for licensure as an EMS instructor-coordinator.
- Require the three years' field experience required for licensure as an EMS instructor-coordinator to be with a licensed life support agency and performed when the applicant was licensed as a medical first responder, emergency medical technician, emergency medical technician specialist, or paramedic.
- Require the instructor-coordinator license to specify the level of instruction-coordination the individual is licensed to provide.
- Prohibit an EMS instructor-coordinator from instructing or coordinating emergency medical training courses at a level that exceeded his or her designated level of licensure and for which he or she did not have at least three years' field experience at that level of licensure.

### **FISCAL IMPACT:**

Revising the licensure requirements for an emergency medical services (EMS) instructor-coordinator as proposed in House Bill 6300 (H-1) will have no fiscal impact as any increase in licensure fees realized as a result of the revisions will more than likely be offset by increased administrative costs for the Department of Community Health. There are currently 927 individuals licensed as EMS instructor-coordinators.
