House Bill 5297 (as reported without amendment)
Sponsor: Representative Aldo Vagnozzi
House Committee: Local Government and Urban Policy
Senate Committee: Natural Resources and Environmental Affairs

CONTENT

The bill would amend the Shared Credit Rating Act to allow a governmental unit and the Michigan Municipal Bond Authority to enter into grant agreements under a Strategic Water Quality Initiatives Grant Program (proposed by House Bill 4572).

The bill is tie-barred to House Bills 4572 and 4573 and Senate Bills 789, 790, and 799. House Bill 4573 (S-3) would amend Part 197 (Great Lakes Water Quality Bond Implementation) of the Natural Resources and Environmental Protection Act (NREPA) to revise the allocation of money received from the sale of Great Lakes water quality bonds. House Bill 4572 (S-5) would amend Part 52 (Strategic Water Quality Initiatives) to require the Michigan Municipal Bond Authority, in consultation with the Department of Environmental Quality (DEQ), to establish a program to provide grants from the Strategic Water Quality Initiatives Fund (SWQIF) to governmental units to cover the cost of developing a project plan in applying for a loan from the State Water Pollution Control Revolving Fund. Senate Bill 789 (H-1) would amend Part 52 to allow the Authority, in consultation with the DEQ, to spend money from the SWQIF, upon appropriation, for grants under House Bill 4572 (S-5). Senate Bill 790 (H-1) would amend Part 52 to define "grant" as a grant from the program that House Bill 4572 (S-5) would establish. Senate Bill 799 (H-1) would amend Part 53 (Clean Water Assistance) of NREPA to include actions undertaken in the planning of sewage treatment works, stormwater treatment, or nonpoint source projects in the definition of "construction activities".

Proposed MCL 141.1016d

Legislative Analyst: Julie Koval

FISCAL IMPACT

The bill is tie-barred to a package of bills that would expand the allowable uses of the Strategic Water Quality Initiatives Fund to include grants for certain purposes. The entire package would cost the State \$40.0 million from the Strategic Water Quality Initiatives Fund since the State would not recover the amounts awarded as grants. A local unit of government would be eligible for a grant of up to \$1.0 million for project planning services. An aggregate of \$40.0 million would be available to local units of government for the grants.
