House Bill 6003 (Substitute H-2 as reported)  
Sponsor: Representative Tom Casperson  
House Committee: Transportation  
Senate Committee: Transportation

### **CONTENT**

The bill would amend Public Act 51 of 1951, the Michigan Transportation Fund (MTF) law, to create within the State Trunk Line Fund a "local federal match program" for the purpose of receiving bond proceeds to provide grants to municipalities and other local agencies to match Federal aid projects during fiscal year (FY) 2005-06 or FY 2006-07. Funds deposited into the match program in the aggregate could not exceed \$80.0 million.

The bill specifies a legislative intent that program funds be used for one or more of the following:

- Projects that are the subject of a Federal appropriation in Public Law 109-59 (the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, or SAFETEA-LU) or Public Law 105-78 (the Transportation Equity Act for the 21<sup>st</sup> Century, or TEA-21) and have been designated as high-priority road and bridge projects that have received earmarks in the Federal budget, as long as those projects were under construction or let for bid by the end of FY 2006-07.
- Projects scheduled to be under construction during FY 2006-07 and that could be advanced to FY 2005-06.
- Any project scheduled for any fiscal year after FY 2006-07 that could be advanced and under construction or let for bid during FY 2005-06 or FY 2006-07.

The bill is tie-barred to Senate Bills 1132 and 1192. Senate Bill 1132 (H-1) also would create the match program within the State Trunk Line Fund, and cap the amount of funds deposited in the program at \$80.0 million. Senate Bill 1192 (H-2) would amend the MTF law to prescribe eligibility criteria for a grant, require the Michigan Department of Transportation (MDOT) to submit to the Legislature reports on projects funded through the program, require MDOT to determine additional eligibility criteria, and limit the amount of an individual grant to 25% of the amount of Federal funds available for the project.

MCL 257.661e

### **FISCAL IMPACT**

Together with the tie-barred Senate bills, House Bill 6003 (H-2) would authorize the sale of \$80.0 million in transportation bonds and establish criteria for the selection of local units of government to receive grants from that revenue to use as the local match for Federal funding for road projects. The sale of \$80.0 million in bonds would cost the State approximately \$7.2 million annually and up to \$110.0 million over the next 15 years from the State Trunk Line Fund in debt service costs. Debt service costs are the first priority from the State Trunk Line Fund. Increasing debt service costs of the Fund would mean that

less funding would be available for the opening, widening, improvement, construction, and reconstruction of State trunk line highways and bridges, for rail grade crossings, and for operating expenses of the Fund.

For local units of government, the bills would result in \$400.0 million in additional funds for road and street projects. Of the funding, \$80.0 million would come from the State Trunk Line Fund and \$320.0 million would come from the Federal government.
