(2) For the purposes of this section, "capital outlay appropriation" means an appropriation that provides for the construction, renovation, or repair of a capital facility or acquisition or development of land and that is normally reviewed by JCOS.

Sec. 506. A state agency, college, or university shall take steps necessary to make available federal and other money indicated in this act, to make available federal or other money that may become available for the purposes for which appropriations are made in this act, and to use any part or all of the appropriations to meet matching requirements that are considered to be in the best interest of this state. However, the purpose, scope, and total estimated cost of a project shall not be altered to meet the matching requirements.

Sec. 507. (1) Before money is released for the construction or lease of a capital outlay project costing over \$1,000,000.00, at the request of JCOS the department shall submit to JCOS, with preliminary planning documents, a detailed comparative cost analysis. The cost analysis shall include a comparison of the financial and other benefits of construction, financing, operation, and maintenance of the proposed facility between all of the following:

- (a) The state.
- (b) The private sector.
- (c) A combination of the state and the private sector.
- (d) A lease agreement.

(2) If the department's recommendation for financing is inconsistent with the findings of the comparative cost analysis, the department shall present written documentation to JCOS outlining the rationale for the recommendation.

(3) For purposes of this section, "capital outlay project" means a construction project or lease requiring JCOS approval including, but not limited to, a general office facility, special use facility, warehouse, institutional facility, or utility system designed for use by a state agency or university. Capital outlay project does not include a special maintenance and remodeling project, grant-in-aid project, prison facility, legislative facility, judicial facility, community college facility, or self-liquidating project constructed by a university.

Sec. 508. Pursuant to section 242(2) of the management and budget act, 1984 PA 431, MCL 18.1242, the department shall submit 5-year capital outlay plans and capital outlay priority requests developed by state agencies (and as approved by the department of management and budget), universities, and community colleges to the chairperson and ranking vice-chairperson of JCOS and the fiscal agencies upon the release of the executive budget recommendation.

USE AND FINANCE STATEMENTS

Sec. 601. (1) Except as otherwise provided in subsection (3) or (4), a university shall not enter into a contract for new construction of a self-funded project estimated to cost more than \$3,000,000.00 unless the project is authorized by JCOS through approval of a use and finance statement defined by a policy adopted by JCOS. The request for authorization shall be initially submitted for review to JCOS, the senate and house fiscal agencies, and the department. The use and finance statement for a non-state-funded project shall contain the estimated total construction cost and all associated estimated operating costs, including a statement of anticipated project revenues. As used in this subsection, "new construction" includes land or property acquisition, remodeling and additions, maintenance projects, roads, landscaping, equipment, telecommunications, utilities, and parking lots and structures. Certificate of need forms may be submitted in lieu of a use and finance form where applicable.

(2) Except as otherwise provided in subsection (4), a community college shall not enter into a contract for new construction of a self-funded project estimated to cost more than \$2,000,000.00 unless the project is authorized by JCOS through approval of a use and finance statement defined by a policy adopted by JCOS. The request for legislative authorization shall be initially submitted for review to JCOS, the senate and house fiscal agencies, and the department. The use and finance statement for a non-state-funded project shall contain the estimated total construction cost and all associated estimated operating costs, including a statement of anticipated project revenues. As used in this subsection, "new construction" includes land or property acquisition, remodeling and additions, maintenance projects, roads, landscaping, equipment, telecommunications, utilities, and parking lots and structures. Certificate of need forms may be submitted in lieu of a use and finance form where applicable.

(3) The University of Michigan Hospital and Health Center is not required to obtain JCOS authorization through approval of a use and finance statement defined by a policy adopted by JCOS.

(4) If health or safety concerns warrant, a project may be completed without prior approval of a use and finance statement defined by a policy adopted by JCOS. However, a university or community college shall submit a use and finance statement as soon as possible after the project is completed and the health or safety concerns have abated.

(5) A project that is constructed in violation of this section shall not receive state appropriations for purposes of operating the project or for support for future infrastructure enhancements that are necessitated, in whole or in part, by construction of the project. In addition, a project constructed in violation of this section shall result in the loss of any state capital outlay funding for the institution for 2 years and a prohibition of doing self-funded projects of any kind, except for emergencies where health or safety concerns warrant, for 1 year.

(6) A state agency, including the department of military affairs, shall not enter into a contract, including those for a direct federally-funded capital outlay construction or major maintenance or remodeling project if the total project is estimated to cost more than \$1,000,000.00 and is to be constructed on state-owned lands unless the project is approved by the department and JCOS through approval of a use and finance statement defined by a policy adopted by JCOS, unless the project is otherwise appropriated in a capital outlay appropriations bill. For projects not appropriated in a

capital outlay appropriations bill that are over \$1,000,000.00, the state agency shall submit a use and finance statement defined by a policy adopted by JCOS. As used in this subsection, "direct federally-funded" refers to a project for which federal payments are made directly to the construction vendor and not to the state of Michigan.

(7) A public body corporate created under section 28 of article VII of the state constitution of 1963 and the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512, by a contractual interlocal agreement between local participating economic development corporations formed under the economic development corporations act, 1974 PA 338, MCL 125.1601 to 125.1636, and the Michigan strategic fund shall not enter into a contract for new construction estimated to cost more than \$1,000,000.00 unless the project is authorized by JCOS through the approval of a use and finance statement defined by a policy adopted by JCOS. For purposes of this subsection, the use and finance statement for a project shall contain the estimated total construction cost and all associated estimated operating costs. As used in this subsection, "new construction" means land or property acquisition, remodeling or additions, lease or lease purchase, and maintenance projects for the corporate office of the public body corporate described in this subsection.

LUMP SUMS AND SPECIAL MAINTENANCE

Sec. 701. (1) The director shall allocate lump-sum appropriations made in this act for remodeling and additions, special maintenance, major special maintenance, energy conservation, demolition, ICF/MR, air-conditioning, and fire protection projects. The director shall allocate other lump sums in order of program priority and need of the various state agencies or as otherwise based on actual building inspection reports by regulatory agencies.

(2) The state budget director may authorize that funds appropriated for lump-sum special maintenance shall be available for no more than 2 fiscal years following the fiscal year in which the original appropriation was made. Any remaining balance from allocations made in this section shall lapse to the fund from which it was appropriated pursuant to the lapsing of funds as provided in the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

(3) Before the end of each fiscal year, the department shall submit a report to JCOS and the fiscal agencies indicating the total cost and status of all lump-sum projects funded under this act and any previous act that have been designated as proposed, designed, bid, under construction, or completed within the current fiscal year.

Sec. 702. (1) A state agency shall provide notification to JCOS prior to commencing a demolition project not authorized by law. The demolition project may be disapproved by JCOS within 30 days after the date of notification, and if disapproved within that time, the demolition project shall not be authorized. The notification to JCOS shall identify the building or facility to be demolished and its location, the estimated cost of the demolition project, estimated project schedule, and the source of financing.

(2) The 30-day disapproval period does not apply to any notifications submitted during a period when the legislature will not be in session for 15 days or more. In these situations, the 30-day disapproval period begins on the first scheduled session day.

Sec. 703. Pursuant to department policy, state agencies may expend not more than \$600,000.00 from their operating budget for special maintenance, remodeling, additions, or other capital outlay purposes, unless specifically authorized by the legislature, for those purposes.

Sec. 705. Any unexpended and unreserved state general fund/general purpose remaining in accounts appropriated in sections 103 and 104 of 2002 PA 518 for major special maintenance and remodeling for the departments of community health, corrections, human services, management and budget, military affairs, and state police is hereby reappropriated for the fiscal year ending September 30, 2007 for maintenance and remodeling projects for the department of corrections.

COLLEGES AND UNIVERSITIES

Sec. 801. (1) This section applies only to projects for community colleges.

(2) State support is directed towards the remodeling and additions, special maintenance, or construction of certain community college buildings. The community college shall obtain or provide for site acquisition and initial main utility installation to operate the facility. Funding shall be comprised of local and state shares, and the state share shall include 50% of any federal money awarded for projects appropriated in this act. Not more than 50% of a capital outlay project, not including a lump-sum special maintenance project or remodeling and addition project, for a community college shall be appropriated from state and federal funds, unless otherwise appropriated by the legislature.

(3) An expenditure under this act is authorized when the release of the appropriation is approved by the board upon the recommendation of the director. The director may recommend to the board the release of any appropriation in part 1

only after the director is assured that the legal entity operating the community college to which the appropriation is made has complied with this act and has matched the amounts appropriated as required by this act. A release of funds in part 1 shall not exceed 50% of the total cost of planning and construction of any project, not including lump-sum remodeling and additions and special maintenance, unless otherwise appropriated by the legislature. Further planning and construction of a project authorized by this act or applicable sections of the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, shall be in accordance with the purpose and scope as defined and delineated in the approved program statements and planning documents. This act is applicable to all projects for which planning appropriations were made in previous acts.

(4) The community college shall take the steps necessary to secure available federal construction and equipment money for projects funded for construction in this act if an application was not previously made. If there is a reasonable expectation that a prior year unfunded application may receive federal money in a subsequent year, the college shall take whatever action necessary to keep the application active. If federal money is received, the state share shall be adjusted accordingly as provided by this act.

Sec. 802. If matching revenues are received in an amount less than the appropriations contained in this act, the state funds of the appropriation shall be reduced in proportion to the amount of matching revenue received.

Sec. 803. (1) The director may require that community colleges and universities that have an authorized project listed in part 1 submit documentation regarding the project match and governing board approval of the authorized project not more than 60 days after the beginning of the fiscal year.

(2) If the documentation required by the director under subsection (1) is not submitted, or does not adequately authenticate the availability of the project match or board approval of the authorized project, the authorization may terminate. The authorization terminates 30 days after the director notifies JCOS of the intent to terminate the project unless JCOS convenes to extend the authorization.

DEPARTMENT OF MANAGEMENT AND BUDGET

Before the end of each fiscal year, the department of natural resources shall report each year to JCOS the status of each project that received an appropriation in any capital outlay act, if the project is either not completed or has a balance remaining in its account. continue the Detroit River international crossing study project nor further participate in any manner whatsoever with the border transportation partnership.
