

Act No. 195
Public Acts of 2006
Approved by the Governor
June 16, 2006
Filed with the Secretary of State
June 19, 2006
EFFECTIVE DATE: June 19, 2006

**STATE OF MICHIGAN
93RD LEGISLATURE
REGULAR SESSION OF 2006**

Introduced by Senators Jacobs, Prusi, George, Clarke, Kuipers and Schauer

ENROLLED SENATE BILL No. 1136

AN ACT to amend 1978 PA 368, entitled "An act to protect and promote the public health; to codify, revise, consolidate, classify, and add to the laws relating to public health; to provide for the prevention and control of diseases and disabilities; to provide for the classification, administration, regulation, financing, and maintenance of personal, environmental, and other health services and activities; to create or continue, and prescribe the powers and duties of, departments, boards, commissions, councils, committees, task forces, and other agencies; to prescribe the powers and duties of governmental entities and officials; to regulate occupations, facilities, and agencies affecting the public health; to regulate health maintenance organizations and certain third party administrators and insurers; to provide for the imposition of a regulatory fee; to provide for the levy of taxes against certain health facilities or agencies; to promote the efficient and economical delivery of health care services, to provide for the appropriate utilization of health care facilities and services, and to provide for the closure of hospitals or consolidation of hospitals or services; to provide for the collection and use of data and information; to provide for the transfer of property; to provide certain immunity from liability; to regulate and prohibit the sale and offering for sale of drug paraphernalia under certain circumstances; to provide for the implementation of federal law; to provide for penalties and remedies; to provide for sanctions for violations of this act and local ordinances; to provide for an appropriation and supplements; to repeal certain acts and parts of acts; to repeal certain parts of this act; and to repeal certain parts of this act on specific dates," by amending sections 20155, 20156, and 22210 (MCL 333.20155, 333.20156, and 333.22210), section 20155 as amended by 2001 PA 218, section 20156 as amended by 1990 PA 179, and section 22210 as amended by 1993 PA 88; and to repeal acts and parts of acts.

The People of the State of Michigan enact:

Sec. 20155. (1) Except as otherwise provided in this section, the department shall make annual and other visits to each health facility or agency licensed under this article for the purposes of survey, evaluation, and consultation. A visit made pursuant to a complaint shall be unannounced. Except for a county medical care facility, a home for the aged, a nursing home, or a hospice residence, the department shall determine whether the visits that are not made pursuant to a complaint are announced or unannounced. Beginning June 20, 2001, the department shall assure that each newly hired nursing home surveyor, as part of his or her basic training, is assigned full-time to a licensed nursing home for at least 10 days within a 14-day period to observe actual operations outside of the survey process before the trainee begins oversight responsibilities. A member of a survey team shall not be employed by a licensed nursing home or a nursing home management company doing business in this state at the time of conducting a survey under this section. The department shall not assign an individual to be a member of a survey team for purposes of a survey, evaluation, or consultation visit at a nursing home in which he or she was an employee within the preceding 5 years.

(2) The department shall make at least a biennial visit to each licensed clinical laboratory, each nursing home, and each hospice residence for the purposes of survey, evaluation, and consultation. The department shall semiannually provide for joint training with nursing home surveyors and providers on at least 1 of the 10 most frequently issued federal citations in this state during the past calendar year. The department shall develop a protocol for the review of citation patterns compared to regional outcomes and standards and complaints regarding the nursing home survey process. The review will result in a report provided to the legislature. Except as otherwise provided in this subsection, beginning with his or her first full relicensure period after June 20, 2000, each member of a department nursing home survey team who is a health professional licensee under article 15 shall earn not less than 50% of his or her required continuing education credits, if any, in geriatric care. If a member of a nursing home survey team is a pharmacist licensed under article 15, he or she shall earn not less than 30% of his or her required continuing education credits in geriatric care.

(3) The department shall make a biennial visit to each hospital for survey and evaluation for the purpose of licensure. Subject to subsection (6), the department may waive the biennial visit required by this subsection if a hospital, as part of a timely application for license renewal, requests a waiver and submits both of the following and if all of the requirements of subsection (5) are met:

(a) Evidence that it is currently fully accredited by a body with expertise in hospital accreditation whose hospital accreditations are accepted by the United States department of health and human services for purposes of section 1865 of part C of title XVIII of the social security act, 42 USC 1395bb.

(b) A copy of the most recent accreditation report for the hospital issued by a body described in subdivision (a), and the hospital's responses to the accreditation report.

(4) Except as provided in subsection (8), accreditation information provided to the department under subsection (3) is confidential, is not a public record, and is not subject to court subpoena. The department shall use the accreditation information only as provided in this section and shall return the accreditation information to the hospital within a reasonable time after a decision on the waiver request is made.

(5) The department shall grant a waiver under subsection (3) if the accreditation report submitted under subsection (3)(b) is less than 2 years old and there is no indication of substantial noncompliance with licensure standards or of deficiencies that represent a threat to public safety or patient care in the report, in complaints involving the hospital, or in any other information available to the department. If the accreditation report is 2 or more years old, the department may do 1 of the following:

(a) Grant an extension of the hospital's current license until the next accreditation survey is completed by the body described in subsection (3)(a).

(b) Grant a waiver under subsection (3) based on the accreditation report that is 2 or more years old, on condition that the hospital promptly submit the next accreditation report to the department.

(c) Deny the waiver request and conduct the visits required under subsection (3).

(6) This section does not prohibit the department from citing a violation of this part during a survey, conducting investigations or inspections pursuant to section 20156, or conducting surveys of health facilities or agencies for the purpose of complaint investigations or federal certification. This section does not prohibit the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, from conducting annual surveys of hospitals, nursing homes, and county medical care facilities.

(7) At the request of a health facility or agency, the department may conduct a consultation engineering survey of a health facility and provide professional advice and consultation regarding health facility construction and design. A health facility or agency may request a voluntary consultation survey under this subsection at any time between licensure surveys. The fees for a consultation engineering survey are the same as the fees established for waivers under section 20161(10).

(8) If the department determines that substantial noncompliance with licensure standards exists or that deficiencies that represent a threat to public safety or patient care exist based on a review of an accreditation report submitted pursuant to subsection (3)(b), the department shall prepare a written summary of the substantial noncompliance or deficiencies and the hospital's response to the department's determination. The department's written summary and the hospital's response are public documents.

(9) The department or a local health department shall conduct investigations or inspections, other than inspections of financial records, of a county medical care facility, home for the aged, nursing home, or hospice residence without prior notice to the health facility or agency. An employee of a state agency charged with investigating or inspecting the health facility or agency or an employee of a local health department who directly or indirectly gives prior notice regarding an investigation or an inspection, other than an inspection of the financial records, to the health facility or agency or to an employee of the health facility or agency, is guilty of a misdemeanor. Consultation visits that are not for the purpose of annual or follow-up inspection or survey may be announced.

(10) The department shall maintain a record indicating whether a visit and inspection is announced or unannounced. Information gathered at each visit and inspection, whether announced or unannounced, shall be taken into account in licensure decisions.

(11) The department shall require periodic reports and a health facility or agency shall give the department access to books, records, and other documents maintained by a health facility or agency to the extent necessary to carry out the purpose of this article and the rules promulgated under this article. The department shall respect the confidentiality of a patient's clinical record and shall not divulge or disclose the contents of the records in a manner that identifies an individual except under court order. The department may copy health facility or agency records as required to document findings.

(12) The department may delegate survey, evaluation, or consultation functions to another state agency or to a local health department qualified to perform those functions. However, the department shall not delegate survey, evaluation, or consultation functions to a local health department that owns or operates a hospice or hospice residence licensed under this article. The delegation shall be by cost reimbursement contract between the department and the state agency or local health department. Survey, evaluation, or consultation functions shall not be delegated to nongovernmental agencies, except as provided in this section. The department may accept voluntary inspections performed by an accrediting body with expertise in clinical laboratory accreditation under part 205 if the accrediting body utilizes forms acceptable to the department, applies the same licensing standards as applied to other clinical laboratories, and provides the same information and data usually filed by the department's own employees when engaged in similar inspections or surveys. The voluntary inspection described in this subsection shall be agreed upon by both the licensee and the department.

(13) If, upon investigation, the department or a state agency determines that an individual licensed to practice a profession in this state has violated the applicable licensure statute or the rules promulgated under that statute, the department, state agency, or local health department shall forward the evidence it has to the appropriate licensing agency.

(14) The department shall report to the appropriations subcommittees, the senate and house of representatives standing committees having jurisdiction over issues involving senior citizens, and the fiscal agencies on March 1 of each year on the initial and follow-up surveys conducted on all nursing homes in this state. The report shall include all of the following information:

- (a) The number of surveys conducted.
- (b) The number requiring follow-up surveys.
- (c) The number referred to the Michigan public health institute for remediation.
- (d) The number of citations per nursing home.
- (e) The number of night and weekend complaints filed.
- (f) The number of night and weekend responses to complaints conducted by the department.
- (g) The average length of time for the department to respond to a complaint filed against a nursing home.
- (h) The number and percentage of citations appealed.
- (i) The number and percentage of citations overturned or modified, or both.

(15) The department shall report annually to the standing committees on appropriations and the standing committees having jurisdiction over issues involving senior citizens in the senate and the house of representatives on the percentage of nursing home citations that are appealed and the percentage of nursing home citations that are appealed and amended through the informal deficiency dispute resolution process.

(16) Subject to subsection (17), a clarification work group comprised of the department in consultation with a nursing home resident or a member of a nursing home resident's family, nursing home provider groups, the American medical directors association, the state long-term care ombudsman, and the federal centers for medicare and medicaid services shall clarify the following terms as those terms are used in title XVIII and title XIX and applied by the department to provide more consistent regulation of nursing homes in Michigan:

- (a) Immediate jeopardy.
- (b) Harm.
- (c) Potential harm.
- (d) Avoidable.
- (e) Unavoidable.

(17) All of the following clarifications developed under subsection (16) apply for purposes of subsection (16):

(a) Specifically, the term "immediate jeopardy" means a situation in which immediate corrective action is necessary because the nursing home's noncompliance with 1 or more requirements of participation has caused or is likely to cause serious injury, harm, impairment, or death to a resident receiving care in a nursing home.

(b) The likelihood of immediate jeopardy is reasonably higher if there is evidence of a flagrant failure by the nursing home to comply with a clinical process guideline adopted under subsection (18) than if the nursing home has substantially and continuously complied with those guidelines. If federal regulations and guidelines are not clear, and if the clinical process guidelines have been recognized, a process failure giving rise to an immediate jeopardy may involve an egregious widespread or repeated process failure and the absence of reasonable efforts to detect and prevent the process failure.

(c) In determining whether or not there is immediate jeopardy, the survey agency should consider at least all of the following:

(i) Whether the nursing home could reasonably have been expected to know about the deficient practice and to stop it, but did not stop the deficient practice.

(ii) Whether the nursing home could reasonably have been expected to identify the deficient practice and to correct it, but did not correct the deficient practice.

(iii) Whether the nursing home could reasonably have been expected to anticipate that serious injury, serious harm, impairment, or death might result from continuing the deficient practice, but did not so anticipate.

(iv) Whether the nursing home could reasonably have been expected to know that a widely accepted high-risk practice is or could be problematic, but did not know.

(v) Whether the nursing home could reasonably have been expected to detect the process problem in a more timely fashion, but did not so detect.

(d) The existence of 1 or more of the factors described in subdivision (c), and especially the existence of 3 or more of those factors simultaneously, may lead to a conclusion that the situation is one in which the nursing home's practice makes adverse events likely to occur if immediate intervention is not undertaken, and therefore constitutes immediate jeopardy. If none of the factors described in subdivision (c) is present, the situation may involve harm or potential harm that is not immediate jeopardy.

(e) Specifically, "actual harm" means a negative outcome to a resident that has compromised the resident's ability to maintain or reach, or both, his or her highest practicable physical, mental, and psychosocial well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services. Harm does not include a deficient practice that only may cause or has caused limited consequences to the resident.

(f) For purposes of subdivision (e), in determining whether a negative outcome is of limited consequence, if the "state operations manual" or "the guidance to surveyors" published by the federal centers for medicare and medicaid services does not provide specific guidance, the department may consider whether most people in similar circumstances would feel that the damage was of such short duration or impact as to be inconsequential or trivial. In such a case, the consequence of a negative outcome may be considered more limited if it occurs in the context of overall procedural consistency with an accepted clinical process guideline adopted pursuant to subsection (18), as compared to a substantial inconsistency with or variance from the guideline.

(g) For purposes of subdivision (e), if the publications described in subdivision (f) do not provide specific guidance, the department may consider the degree of a nursing home's adherence to a clinical process guideline adopted pursuant to subsection (18) in considering whether the degree of compromise and future risk to the resident constitutes actual harm. The risk of significant compromise to the resident may be considered greater in the context of substantial deviation from the guidelines than in the case of overall adherence.

(h) To improve consistency and to avoid disputes over avoidable and unavoidable negative outcomes, nursing homes and survey agencies must have a common understanding of accepted process guidelines and of the circumstances under which it can reasonably be said that certain actions or inactions will lead to avoidable negative outcomes. If the "state operations manual" or "the guidance to surveyors" published by the federal centers for medicare and medicaid services is not specific, a nursing home's overall documentation of adherence to a clinical process guideline with a process indicator adopted pursuant to subsection (18) is relevant information in considering whether a negative outcome was avoidable or unavoidable and may be considered in the application of that term.

(18) Subject to subsection (19), the department, in consultation with the clarification work group appointed under subsection (16), shall develop and adopt clinical process guidelines that shall be used in applying the terms set forth in subsection (16). The department shall establish and adopt clinical process guidelines and compliance protocols with outcome measures for all of the following areas and for other topics where the department determines that clarification will benefit providers and consumers of long-term care:

(a) Bed rails.

(b) Adverse drug effects.

(c) Falls.

(d) Pressure sores.

- (e) Nutrition and hydration including, but not limited to, heat-related stress.
- (f) Pain management.
- (g) Depression and depression pharmacotherapy.
- (h) Heart failure.
- (i) Urinary incontinence.
- (j) Dementia.
- (k) Osteoporosis.
- (l) Altered mental states.
- (m) Physical and chemical restraints.

(19) The department shall create a clinical advisory committee to review and make recommendations regarding the clinical process guidelines with outcome measures adopted under subsection (18). The department shall appoint physicians, registered professional nurses, and licensed practical nurses to the clinical advisory committee, along with professionals who have expertise in long-term care services, some of whom may be employed by long-term care facilities. The clarification work group created under subsection (16) shall review the clinical process guidelines and outcome measures after the clinical advisory committee and shall make the final recommendations to the department before the clinical process guidelines are adopted.

(20) The department shall create a process by which the director of the division of nursing home monitoring or his or her designee or the director of the division of operations or his or her designee reviews and authorizes the issuance of a citation for immediate jeopardy or substandard quality of care before the statement of deficiencies is made final. The review shall be to assure that the applicable concepts, clinical process guidelines, and other tools contained in subsections (17) to (19) are being used consistently, accurately, and effectively. As used in this subsection, “immediate jeopardy” and “substandard quality of care” mean those terms as defined by the federal centers for medicare and medicaid services.

(21) The department may give grants, awards, or other recognition to nursing homes to encourage the rapid implementation of the clinical process guidelines adopted under subsection (18).

(22) The department shall assess the effectiveness of 2001 PA 218. The department shall file an annual report on the implementation of the clinical process guidelines and the impact of the guidelines on resident care with the standing committee in the legislature with jurisdiction over matters pertaining to nursing homes. The first report shall be filed on July 1, 2002.

(23) The department shall instruct and train the surveyors in the use of the clarifications described in subsection (17) and the clinical process guidelines adopted under subsection (18) in citing deficiencies.

(24) A nursing home shall post the nursing home’s survey report in a conspicuous place within the nursing home for public review.

(25) Nothing in this amendatory act shall be construed to limit the requirements of related state and federal law.

(26) As used in this section:

(a) “Title XVIII” means title XVIII of the social security act, 42 USC 1395 to 1395hhh.

(b) “Title XIX” means title XIX of the social security act, chapter 531, 42 USC 1396 to 1396v.

Sec. 20156. (1) A representative of the department or the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, upon presentation of proper identification, may enter the premises of an applicant or licensee at any reasonable time to determine whether the applicant or licensee meets the requirements of this article and the rules promulgated under this article. The director; the director of the department of human services; the bureau of fire services; the director of the office of services to the aging; or the director of a local health department; or an authorized representative of the director, the director of the department of human services, the bureau of fire services, the director of the office of services to the aging, or the director of a local health department may enter on the premises of an applicant or licensee under part 217 at any time in the course of carrying out program responsibilities.

(2) The bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, shall enforce rules promulgated by the bureau of fire services for health facilities and agencies to assure that physical facilities owned, maintained, or operated by a health facility or agency are planned, constructed, and maintained in a manner to protect the health, safety, and welfare of patients.

(3) The department shall not issue a license or certificate to a health facility or agency until it receives an appropriate certificate of approval from the bureau of fire services. For purposes of this section, a decision of the bureau of fire services to issue a certificate controls over that of a local fire department.

(4) Subsections (2) and (3) do not apply to a health facility or an agency licensed under part 205 or 209.

Sec. 22210. (1) A hospital that applies to the department for a certificate of need and meets all of the following criteria shall be granted a certificate of need for a short-term nursing care program with up to 10 licensed hospital beds:

(a) Is eligible to apply for certification as a provider of swing-bed services under section 1883 of title XVIII, 42 USC 1395tt.

(b) Subject to subsection (2), has fewer than 100 licensed beds not counting beds excluded under section 1883 of title XVIII, 42 USC 1395tt.

(c) Does not have uncorrected licensing, certification, or safety deficiencies for which the department or the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, or both, has not accepted a plan of correction.

(d) Provides evidence satisfactory to the department that the hospital has had difficulty in placing patients in skilled nursing home beds during the 12 months immediately preceding the date of the application.

(2) After October 1, 1990, the criteria set forth in subsection (1)(b) may be modified by the commission, using the procedure set forth in section 22215(3). The department shall not charge a fee for processing a certificate of need application to initiate a short-term nursing care program.

(3) A hospital that is granted a certificate of need for a short-term nursing care program under subsection (1) shall comply with all of the following:

(a) Not charge for or otherwise attempt to recover the cost of a length of stay for a patient in the short-term nursing care program that exceeds the length of time allowed for post-hospital extended care under title XVIII.

(b) Admit patients to the short-term nursing care program only pursuant to an admissions contract approved by the department.

(c) Not discharge or transfer a patient from a licensed hospital bed other than a hospital long-term care unit bed and admit that patient to the short-term nursing care program unless the discharge or transfer and admission is determined medically appropriate by the attending physician.

(d) Permit access to a representative of an organization approved under section 21764 to patients admitted to the short-term nursing care program, for all of the purposes described in section 21763.

(e) Subject to subsection (8), not allow the number of patient days for the short-term nursing care program to exceed the equivalent of 1,825 patient days for a single state fiscal year.

(f) Transfer a patient in the short-term nursing care program to an appropriately certified nursing home bed, county medical care facility bed, or hospital long-term care unit bed located within a 50-mile radius of the patient's residence within 5 business days after the hospital has been notified, either orally or in writing, that a bed has become available.

(g) Not charge or collect from a patient admitted to the short-term nursing care program, for services rendered as part of the short-term nursing care program, an amount in excess of the reasonable charge for the services as determined by the United States secretary of health and human services under title XVIII.

(h) Assist a patient who has been denied coverage for services received in a short-term nursing care program under title XVIII to file an appeal with the medicare recovery project operated by the office of services to the aging.

(i) Operate the short-term nursing care program in accordance with this section and the requirements of the swing bed provisions of section 1883 of title XVIII, 42 USC 1395tt.

(j) Provide data to the department considered necessary by the department to evaluate the short-term nursing care program. The data shall include, but is not limited to, all of the following:

(i) The total number of patients admitted to the hospital's short-term nursing care program during the period specified by the department.

(ii) The total number of short-term nursing care patient days for the period specified by the department.

(iii) Information identifying the type of care to which patients in the short-term care nursing program are released.

(k) As part of the hospital's policy describing the rights and responsibilities of patients admitted to the hospital, as required under section 20201, incorporate all of the following additional rights and responsibilities for patients in the short-term nursing care program:

(i) A copy of the hospital's policy shall be provided to each short-term nursing care patient upon admission, and the staff of the hospital shall be trained and involved in the implementation of the policy.

(ii) Each short-term nursing care patient may associate and communicate privately with persons of his or her choice. Reasonable, regular visiting hours, which shall take into consideration the special circumstances of each visitor, shall be established for short-term nursing care patients to receive visitors. A short-term nursing care patient may be visited by the patient's attorney or by representatives of the departments named in section 20156 during other than established visiting hours. Reasonable privacy shall be afforded for visitation of a short-term nursing care patient who shares a

room with another short-term nursing care patient. Each short-term nursing care patient shall have reasonable access to a telephone.

(iii) A short-term nursing care patient is entitled to retain and use personal clothing and possessions as space permits, unless medically contraindicated, as documented by the attending physician in the medical record.

(iv) A short-term nursing care patient is entitled to the opportunity to participate in the planning of his or her medical treatment. A short-term nursing care patient shall be fully informed by the attending physician of the short-term nursing care patient's medical condition, unless medically contraindicated, as documented by a physician in the medical record. Each short-term nursing care patient shall be afforded the opportunity to discharge himself or herself from the short-term nursing care program.

(v) A short-term nursing care patient is entitled to be fully informed either before or at the time of admission, and during his or her stay, of services available in the hospital and of the related charges for those services. The statement of services provided by the hospital shall be in writing and shall include those services required to be offered on an as needed basis.

(vi) A patient in a short-term nursing care program or a person authorized in writing by the patient may, upon submission to the hospital of a written request, inspect and copy the patient's personal or medical records. The hospital shall make the records available for inspection and copying within a reasonable time, not exceeding 7 days, after the receipt of the written request.

(vii) A short-term nursing care patient has the right to have his or her parents, if the short-term nursing care patient is a minor, or his or her spouse, next of kin, or patient's representative, if the short-term nursing care patient is an adult, stay at the facility 24 hours a day if the short-term nursing care patient is considered terminally ill by the physician responsible for the short-term nursing care patient's care.

(viii) Each short-term nursing care patient shall be provided with meals that meet the recommended dietary allowances for that patient's age and sex and that may be modified according to special dietary needs or ability to chew.

(ix) Each short-term nursing care patient has the right to receive a representative of an organization approved under section 21764, for all of the purposes described in section 21763.

(l) Achieve and maintain medicare certification under title XVIII.

(4) A hospital or the owner, administrator, an employee, or a representative of the hospital shall not discharge, harass, or retaliate or discriminate against a short-term nursing care patient because the short-term nursing care patient has exercised a right described in subsection (3)(k).

(5) In the case of a short-term nursing care patient, the rights described in subsection (3)(k)(iv) may be exercised by the patient's representative, as defined in section 21703(2).

(6) A short-term nursing care patient shall be fully informed, as evidenced by the short-term nursing care patient's written acknowledgment, before or at the time of admission and during stay, of the rights described in subsection (3)(k). The written acknowledgment shall provide that if a short-term nursing care patient is adjudicated incompetent and not restored to legal capacity, the rights and responsibilities set forth in subsection (3)(k) shall be exercised by a person designated by the short-term nursing care patient. The hospital shall provide proper forms for the short-term nursing care patient to provide for the designation of this person at the time of admission.

(7) Subsection (3)(k) does not prohibit a hospital from establishing and recognizing additional rights for short-term nursing care patients.

(8) Upon application, the department may grant a variation from the maximum number of patient days established under subsection (3)(e), to an applicant hospital that demonstrates to the satisfaction of the department that there is an immediate need for skilled nursing beds within a 100-mile radius of the hospital. A variation granted under this subsection shall be valid for not more than 1 year after the date the variation is granted. The department shall promulgate rules to implement this subsection including, at a minimum, a definition of immediate need and the procedure for applying for a variation.

(9) A hospital that violates subsection (3) is subject to the penalty provisions of section 20165.

(10) A person shall not initiate a short-term nursing care program without first obtaining a certificate of need under this section.

Enacting section 1. Section 13310 of the public health code, 1978 PA 368, MCL 333.13310, is repealed.

Enacting section 2. This amendatory act does not take effect unless all of the following bills of the 93rd Legislature are enacted into law:

(a) Senate Bill No. 1133.

(b) House Bill No. 5860.

This act is ordered to take immediate effect.
