

Act No. 522
Public Acts of 2006
Approved by the Governor
December 28, 2006
Filed with the Secretary of State
December 29, 2006
EFFECTIVE DATE: December 29, 2006

**STATE OF MICHIGAN
93RD LEGISLATURE
REGULAR SESSION OF 2006**

**Introduced by Senators Schauer, McManus, Birkholz, Jelinek, Brown, Kuipers, Cherry, Goschka, Allen,
Scott, Olshove, Barcia, Switalski, Basham, Clark-Coleman and Brater**

ENROLLED SENATE BILL No. 1420

AN ACT to amend 1994 PA 451, entitled "An act to protect the environment and natural resources of the state; to codify, revise, consolidate, and classify laws relating to the environment and natural resources of the state; to regulate the discharge of certain substances into the environment; to regulate the use of certain lands, waters, and other natural resources of the state; to prescribe the powers and duties of certain state and local agencies and officials; to provide for certain charges, fees, assessments, and donations; to provide certain appropriations; to prescribe penalties and provide remedies; and to repeal acts and parts of acts," by amending section 16903 (MCL 324.16903), as amended by 2002 PA 496.

The People of the State of Michigan enact:

Sec. 16903. (1) A person who owns or operates a collection site where less than 2,500 scrap tires are accumulated outdoors shall comply with all of the following:

(a) Scrap tires shall be stored in the tire storage area identified on the scrap tire collection site registration application map and approved by the department.

(b) Only scrap tires shall be accumulated in the tire storage area.

(c) Subject to subdivision (f), the scrap tires shall be accumulated in piles no greater than 15 feet in height with horizontal dimensions no greater than 200 by 40 feet.

(d) Subject to subdivision (f), the scrap tires shall not be within 20 feet of the property line or within 60 feet of a building or structure.

(e) Subject to subdivision (f), there shall be a minimum separation of 30 feet between scrap tire piles. The open space between the piles shall at all times be free of rubbish, equipment, and other materials.

(f) Scrap tire piles shall be accessible to fire fighting equipment. If the requirement of this subdivision is met, the local fire department that serves the jurisdiction in which the collection site is located may grant a variance from the requirements of subdivisions (c), (d), and (e). A variance under this subsection shall be in writing.

(g) Scrap tires shall be isolated from other stored materials that may create hazardous products if there is a fire, including, but not limited to, lead acid batteries, fuel tanks, solvent barrels, and pesticide containers.

(h) Except for scrap tires that are a commodity used to create a storage pad for, or a roadway for access to, other scrap tires that are also a commodity, scrap tires shall not be placed in the open spaces between tire piles or used to construct on-site roads.

(i) The owner or operator of the collection site shall allow the local fire department that serves the jurisdiction in which the collection site is located to inspect the collection site at any reasonable time.

(j) All persons employed to work at the collection site shall be trained in emergency response operations. The owner or operator of the collection site shall maintain training records and shall make these records available to the local fire department that serves the jurisdiction in which the collection site is located.

(2) A person who owns or operates a collection site where at least 2,500 but less than 100,000 scrap tires are accumulated outdoors shall comply with all of the following:

(a) All of the requirements of subsection (1).

(b) The tire storage area shall be completely enclosed with a fence that is at least 6 feet tall with lockable gates and that is designed to prevent easy access.

(c) An earthen berm not less than 5 feet in height shall completely enclose the tire storage area except to allow for necessary ingress and egress from roadways and buildings.

(d) The collection site shall contain sufficient drainage so that water does not pool or collect on the property.

(e) The approach road to the tire storage area and on-site access roads to the tire storage area shall be of all-weather construction and maintained in good condition and free of debris and equipment so that it is passable at all times for fire fighting and other emergency vehicles. If the local fire department for the jurisdiction where the collection site is located submits to the department a written determination that the on-site access roads do not ensure that the site is accessible to emergency vehicles at all times during the year, the department of environmental quality shall consider the on-site access roads to be in violation of this requirement.

(f) Tire storage areas shall be mowed regularly or otherwise kept free of weeds, vegetation, and other growth at all times.

(g) An emergency procedures plan shall be prepared and displayed at the collection site. The plan shall include telephone numbers of the local fire and police departments. The plan shall be reviewed by the local fire department prior to being posted.

(h) Scrap tires shall not be accumulated in excess of 10,000 cubic yards of scrap tires per acre.

(3) A person who owns or operates a collection site where 100,000 or more scrap tires are accumulated outdoors shall comply with all of the requirements of subsections (1) and (2) and that person shall operate as a scrap tire processor.

(4) Except as otherwise provided in subsection (5) and section 16903b, a person who owns a collection site shall maintain a bond in favor of the department. The amount of the bond shall be not less than the sum of \$25,000.00 per quarter acre, or fraction thereof, of outdoor tire storage area, and \$2.00 per square foot of tire storage area in a building. However, for collection sites with fewer than 2,500 tires, the bond shall not exceed \$2,500.00. A person who elects to use a certificate of deposit as bond shall receive any accrued interest on that certificate of deposit upon release of the bond by the department. A person who elects to post cash as bond shall accrue interest on that bond at the annual rate of 6%, to be accrued quarterly, except that the interest rate payable to an applicant shall not exceed the rate of interest accrued on the state common cash fund for the quarter in which an accrual is determined. Interest shall be paid to the applicant upon release of the bond by the department. Any interest greater than 6% shall be deposited into the fund. The department may utilize a bond required under this subsection for removing scrap tires from a collection site, for other costs of cleanup at the collection site, and for costs of fire suppression and costs associated with responding to a fire or an emergency at a collection site, if there is an emergency at the collection site, if the collection site owner becomes insolvent, or if the owner or operator of the collection site fails to comply with the requirements of this section and does not cause the removal of the tires at the direction of a court of competent jurisdiction.

(5) A bond is not required under subsection (4) for a commodity storage area that meets all of the following requirements:

(a) The commodity is stored in accordance with the requirements of subsection (1).

(b) Not less than 75% of the commodity, by weight or volume, that is stored at the collection site each calendar year is removed from the collection site to a market during that year, and the collection site owner or operator certifies compliance with this subparagraph on a form approved by the department.

(c) The areas of the collection site that are used for storage of the commodity are not larger than a total of 1 acre and those areas are indicated on a survey by a registered professional engineer submitted to the department as part of the collection site registration.

Enacting section 1. This amendatory act does not take effect unless all of the following bills of the 93rd Legislature are enacted into law:

(a) Senate Bill No. 1423.

(b) House Bill No. 6477.

(c) Senate Bill No. 1424.

(d) Senate Bill No. 1418.

(e) Senate Bill No. 1419.

- (f) House Bill No. 6474.
- (g) Senate Bill No. 1422.
- (h) Senate Bill No. 1421.
- (i) House Bill No. 6476.
- (j) House Bill No. 6475.

This act is ordered to take immediate effect.

Carol Morey Viventi

Secretary of the Senate

Sam E. Randall

Clerk of the House of Representatives
