## <u>OVERVIEW</u>

Senate Bill 436 (H-1) contains GF/GP budget reductions totaling \$139.7 million. Potential General Fund savings totaling \$167.9 million have been identified through the use of restricted funds. Total General Fund savings from budget reductions and the use of restricted funds would be \$307.6 million.

Senate Bill 436 (H-1) also contains net positive GF/GP supplemental appropriations, consisting mainly of Executive supplemental recommendations, totaling \$209.2 million. The net impact of budget reductions and these net positive adjustments is a total GF/GP appropriation of positive \$69.5 million. With a few exceptions, the items in this bill mirror those in the (CR-1) conference report for Senate Bill 220. (Also, Senate Bill 436 (H-1) is identical to House Bill 4492 (H-2) as reported from committee.)

Negotiations regarding Senate Bill 220 also identified General Fund savings totaling \$167.9 million that could be achieved through the use of state restricted funds; those savings are identified in the table below. The use of these restricted funds to achieve General Fund savings would require separate statutory action in order to be realized.

The total General Fund savings resulting from budget reductions in Senate Bill 436 (H-1) and the restricted fund items identified below would be \$307.6 million.
