

**FY 2007-08 AND FY 2008-09
SUPPLEMENTAL APPROPRIATIONS
As Passed by the House
Senate Bill 1111 (H-3)**

**Director: Mitchell E. Bean
Supplemental Coordinator: Kyle I. Jen**

OVERVIEW

As passed by the Senate, Senate Bill (S-4) contained all pending supplemental requests received from the State Budget Office (SBO) for FY 2007-08.

The (H-3) version of the bill passed by the House is a multi-year supplemental appropriations bill, containing all pending supplemental requests received from the SBO for both FY 2007-08 and FY 2008-09, as well as additional legislative priorities for both fiscal years. Brief overviews of the supplemental adjustments in the bill are included below. Attached tables provide more detailed information on those adjustments.

FY 2007-08

Senate Bill 1111 (H-3) contains a total net Gross appropriation of negative \$53.6 million and a total net GF/GP appropriation of positive \$72.3 million for FY 2007-08. **Table 1** shows FY 2007-08 appropriation items in the bill by budget area, indicating which items reflect requests submitted by the SBO.

Major SBO-requested adjustments include consensus and fund source adjustments (replacing unavailable Merit Award and Medicaid Benefits Trust Fund revenue with GF/GP revenue) for the Medicaid program in the Community Health budget and fund source shifts in the Higher Education and Human Services budgets for the purpose of drawing down an available increase in federal TANF funding.

Additionally, a boilerplate appropriation of \$21.5 million GF/GP (not reflected in Table 1) is recommended for the Department of Management and Budget for a federally-required reimbursement to the State Sponsored Group Insurance Fund; the appropriation is to be funded from associated state employee health care rate reductions (see section 251).

Table 2 shows all FY 2007-08 boilerplate sections included in the bill.

In addition to SBO-requested items, the bill contains the following FY 2007-08 supplemental adjustments:

- A placeholder of \$100 GF/GP for a Capital Outlay planning authorization for a State Police Post in Battle Creek (total cost: \$2.5 million; 100% state costs).
- Foster Care-related adjustments in the Human Services budget, including a net appropriation increase of \$10.8 million GF/GP.
- A shift of \$6.5 million between Transportation Economic Development line items (no net appropriation change).
- Boilerplate language that would appropriate up to \$47.4 million GF/GP for various purposes, contingent on the existence of unreserved balances of at least \$190.0 million GF/GP and \$68.7 million School Aid Fund at the close of FY 2007-08 (see section 203 and **Table 3**). (If insufficient funds are available, the specified amounts would be reduced proportionally to the available funds above those fund balances.)
- Boilerplate language related to the Workforce Training Program in the Labor and Economic Growth budget.
- Boilerplate language recognizing the previous appropriation of \$50.0 million for the Michigan Promotion Program in the Treasury budget.

FY 2008-09

Senate Bill 1111 (H-3) contains a total Gross appropriation of \$35.1 million and a total GF/GP appropriation of \$11.1 million for FY 2008-09. **Table 4** shows FY 2008-09 appropriation items in the bill by budget area; **Table 5** shows FY 2008-09 boilerplate sections included in the bill.

In addition to SBO-requested items, the bill includes FY 2008-09 Foster Care-related adjustments in the Human Services budget, including a net appropriation increase of \$10.8 million GF/GP.
