**House Committee** Appropriations

**Analysis** **Summary**

To approve standard State Building Authority (SBA) lease agreements among the SBA, the State and the respective universities and colleges for Capital Outlay projects as shown in the table below. These properties are also conveyed to the SBA by the resolutions. Each of these projects received planning, cost, and construction authorizations under previous Capital Outlay budget acts. The projects are under construction.

Approval of these resolutions is the final remaining legal requirement to allow the SBA to issue both short and long-term debt instruments to finance the State's share of each project's construction costs.

The **Joint Capital Outlay Subcommittee** (JCOS) approved these resolutions, with recommendation. The Department of Management and Budget also recommends approval.

**State Fiscal Impact**

Legislative adoption of these resolutions commits the State to annually pay rent to the SBA until its debt obligations are fully satisfied. The cumulative annual GF/GP low-to-high rent payment range of **\$8,833,000 to \$11,244,000** is provided consistent with the State Building Authority Act (PA 183 of 1964). The actual rental amount, within or below the respective ranges, will be determined by an independent appraiser when each project is completed. Payments to the SBA begin after the long-term bonds have been issued.

#### AGENDA

1. APPROVE MINUTES OF MEETING NO. 8 – June 7, 2007

**Required Action:** Approval of minutes

2. CONCURRENT RESOLUTIONS TO CONVEY PROPERTY AND APPROVE SBA LEASE AGREEMENTS – VARIOUS PROJECTS

**DMB letter date(s): 5/8/07, 5/21/07, 6/12/07, & 7/17/07**

The State Building Authority (SBA) requests Legislative approval of 9 concurrent resolutions that authorize lease agreements among itself, the State, and the respective colleges and universities for projects authorized for planning and construction in previous Capital Outlay budget acts. Legislative approval of each resolution is a statutory requirement that allows the SBA to issue debt to finance the State share of the construction cost. The resolutions also convey the properties to the SBA who will continue to hold title until the SBA debt obligations are satisfied. All projects are currently under construction.

The GF/GP rental range identified below is consistent with P. A. 183 of 1964. A specific true rental amount, within or below the range, will be determined by an appraiser when each facility is complete. Legislative approval of each resolution commits the State to annually pay rent on the facility until the SBA debt obligation is satisfied. Combined, the 9 annual rent payments are estimated to be \$9.3 to \$11.9 million.

**Action:** Approve/Disapprove concurrent resolutions that convey properties to the State Building Authority, and that approve leases among the SBA, State, and the affected institutions.

### 3. CONCURRENT RESOLUTION TO AUTHORIZE A PROJECT COST INCREASE – JACKSON COMMUNITY COLLEGE – HEALTH PROGRAM EXPANSION & INFORMATION COMMONS PROJECT

**DMB letter date(s):** 6/29/07

The Department of Management and Budget and Jackson Community College requests subcommittee approval of HCR xx to increase the total cost of the partially State funded project entitled the Health Programs Expansion and Information Commons Project. The increase amounts to \$800,000 and will be completely financed by the institution. It represents an increase of 4.6% on the total project cost.

As outlined in the DMB letter, the college attributes unforeseen electrical, plumbing, and mechanical system expenses associated with a project scope change which caused the higher cost. The subcommittee approved the project scope increase on March 15, 2007 with the belief that it was cost-neutral. As more detailed planning has occurred, this assumption proved to be inaccurate.

This project was given cost and construction authorizations under PA 297 of 2005. Additionally, SCR 52 was passed by the Legislature in December 2006 which authorized a project cost increase of \$800,000 that was also completely financed by the institution.

Fund Source	Current Authorized Project Cost	Requested Change	Revised Authorized Project Cost
State	\$7,500,000	\$0	\$7,500,000
Jackson CC	\$9,800,000	\$800,000	\$10,600,000
Totals	\$17,300,000	\$800,000	\$18,100,000

**Required**

**Action:** Approve/Disapprove concurrent resolution no. xx that authorizes a project cost increase

4. USE AND FINANCE STATEMENT – UNIVERSITY OF MICHIGAN – ANN ARBOR

**DMB letter date(s):** 8/2/07

The Department of Management and Budget and the University requests subcommittee approval of a Use and Finance Statement for a self-funded project as described below. Subcommittee approval allows the project to commence, but does not directly commit State funds for construction, maintenance, or operational costs.

Project	Cost	Funding Source	Operating Costs Impact
<b>Ingalls Substation to Wall Street Utility Duct Bank.</b> This project entails the installation of a new electrical power duct bank from the Ingalls substation that will also accommodate University telecom cables.	\$3,800,000	Information Technology Central Services and Utility funds	NA

**Required Action:**

Approve/Disapprove Use and Finance Statement described above with the understanding that State funds will not be directly used for any aspect of the project.

5. USE AND FINANCE STATEMENT – WAYNE STATE UNIVERSITY

**DMB letter date(s):** 8/23/07

The Department of Management and Budget and the University requests subcommittee approval of a Use and Finance Statement for a self-funded project as described below. Subcommittee approval allows the project to commence, but does not directly commit State funds for construction, maintenance, or operational costs.
