OVERVIEW

The General Government Appropriations Bill contains appropriations for Attorney General, Civil Rights, Civil Service, Executive, Information Technology, Legislature, Office of the Auditor General, Management and Budget, State, and Treasury. The following pages provide a summary of the changes for FY 2007-08.

1. **State Spending Reporting Section.** Reporting requirement regarding actual total State spending and payments to locals within 30 days of book closing. The Governor's Recommendation changed this section to require a report only if actual payments are less than the minimum required by Article IX, Section 30, of the Michigan Constitution. The Senate restored current year language. (Sec. 201(3))
2. **Hiring Freeze.** Imposes hiring freeze and provides for exceptions. Provides for a quarterly report to the chairs of appropriations committees regarding exceptions to hiring freeze. List of reasons for exceptions include; court order or other mandate, protection of the health or safety of Michigan citizens, to produce savings or secure revenue or to provide for the basic daily requirements of residents of State facilities. The Attorney General and Secretary of State may grant exceptions to the hiring freeze for their respective departments based on the same criteria that the State Budget Director grants exceptions. The Governor's recommendation substituted the State Budget Director "shall" with "may" regarding granting exceptions to the hiring freeze. The Senate amended the list of exceptions. (Sec. 205)
3. **Retention of Reports.** Requires departments and agencies receiving appropriations under this Act to receive and retain copies of all reports funded in the Act. Federal and State guidelines for retention of records shall be followed. The Governor eliminated this section. The Senate restored current year language. (Sec. 212)
4. **Communications with Legislators.** Prohibits disciplinary action against department employees for communicating with Legislators or their staff. The Governor eliminated this section. The Senate restored current year language. (Sec. 215)
5. **General Fund Restrictions.** Prohibits use of general fund appropriations in this Act where Federal funds are available for the same expenditures. The Governor eliminated this section. The Senate restored current year language. (Sec. 217)
6. **Information Technology Work Projects.** The Governor included new language providing that information technology funding in Part 1 may be designated as work projects. Funds are not available for expenditure until approved as work projects pursuant to Section 451a of the Management and Budget Act. The Senate did not include this section. (Sec. 218)
7. **Political Action Committees.** The Governor removed language that prohibited the use of appropriations in Part 1 to administer a committee, or to solicit, or obtain contributions for a "committee" as defined in the Michigan Campaign Finance Act. The Senate restored current year language. (Sec. 220)

Note: The Governor stated in the signing letter for the FY 2005-06 General Government Appropriation Bill (2005 PA 146) that Section 220 was unenforceable due to Article XI, Section 5, of the Michigan Constitution of 1963.

8. **Reporting Requirement.** The Senate added language requiring each department to report by April 1, 2008 on each specific policy change made to implement enacted legislation to the appropriations subcommittees, the chairperson of the joint committee on administrative rules, and the senate and house fiscal agencies and policy offices. The section also prohibits the use of funds in part 1 to prepare regulatory plans or promulgate rules that fail to reduce the disproportionate economic impact on small businesses pursuant to MCL 24.240. (Sec. 221)
9. **Budgetary Savings.** The Senate added language requiring transfer approval by the Legislature for budgetary savings pursuant to Section 393(2) of the Management and Budget Act. (Sec. 222)
