

Act No. 16
Public Acts of 2007
Approved by the Governor
June 6, 2007
Filed with the Secretary of State
June 6, 2007
EFFECTIVE DATE: June 6, 2007

**STATE OF MICHIGAN
94TH LEGISLATURE
REGULAR SESSION OF 2007**

Introduced by Reps. Gonzales, Cushingberry and Alma Smith

ENROLLED HOUSE BILL No. 4512

AN ACT to amend 1943 PA 240, entitled "An act to provide for a state employees' retirement system; to create a state employees' retirement board and prescribe its powers and duties; to establish certain funds in connection with the retirement system; to require contributions to the retirement system by and on behalf of members and participants of the retirement system; to create certain accounts and provide for expenditures from those accounts; to prescribe the powers and duties of certain state and local officers and employees and certain state departments and agencies; to prescribe and make appropriations for the retirement system; and to prescribe penalties and provide remedies," by amending section 38 (MCL 38.38), as amended by 2002 PA 93.

The People of the State of Michigan enact:

Sec. 38. (1) The annual level percent of payroll contribution rate to finance the benefits provided under this act shall be determined by actuarial valuation pursuant to subsections (2) and (3), upon the basis of the risk assumptions adopted by the retirement board with approval of the department of management and budget, and in consultation with the investment counsel and the actuary. An annual actuarial valuation shall be made of the retirement system in order to determine the actuarial condition of the retirement system and the required contribution to the retirement system. The actuary shall report to the legislature by April 15 of each year on the actuarial condition of the retirement system as of the end of the previous fiscal year and on the projections of state contributions for the next fiscal year. The actuary shall certify in the report that the techniques and methodologies used are generally accepted within the actuarial profession and that the assumptions and cost estimates used fall within the range of reasonable and prudent assumptions and cost estimates. An annual actuarial gain-loss experience study of the retirement system shall be made in order to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) The contribution rate for monthly benefits payable in the event of the death of a member before retirement or the disability of a member shall be computed using a terminal funding method of actuarial valuation.

(3) Except as otherwise provided in this subsection, the contribution rate for benefits other than those provided for in subsection (2) shall be computed using an individual projected benefit entry age normal cost method of valuation. For the 1995-96 state fiscal year and for each subsequent fiscal year in which the actuarial accrued liability for health benefits is less than 100% funded, the contribution rate for benefits provided under section 20d shall be computed using a cash disbursement method. Beginning in the fiscal year after the fiscal year in which the actuarial accrued liability for health benefits under section 20d is at least 100% funded by the health advance funding subaccount created under section 11(9), and continuing for each subsequent fiscal year, the contribution rate for health benefits provided under section 20d shall be computed using an individual projected benefit entry age normal cost method of valuation. The contribution rate for service that may be rendered in the current year, the normal cost contribution rate, shall be equal to the aggregate amount of individual entry age normal costs divided by 1% of the aggregate amount of active members' valuation compensation. The unfunded actuarial accrued liability shall be equal to the actuarial present value of benefits reduced by the actuarial present value of future normal cost contributions and the actuarial value of assets on the valuation date. Except as otherwise provided in this subsection, the unfunded actuarial accrued liability shall be

amortized in accordance with generally accepted governmental accounting standards over a period equal to or less than 40 years. For the fiscal year that begins on October 1, 2006 only, the contribution for the unfunded actuarial accrued liability shall be equal to 4.5% of the unfunded actuarial accrued liability.

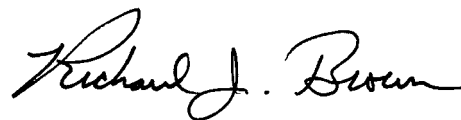

(4) The legislature annually shall appropriate to the retirement system the amount determined pursuant to subsections (2) and (3). The state treasurer shall transfer monthly to the retirement system an amount equal to the product of the contribution rates determined in subsections (2) and (3) times the aggregate amount of active member compensation paid during that month. Not later than 60 days after the termination of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department of management and budget the actual aggregate compensations paid to active members during the preceding state fiscal year. Upon receipt of that certification, the director of the department of management and budget shall compute the difference, if any, between actual state contributions received during the preceding state fiscal year and the product of the contribution rates determined in subsections (2) and (3) times the aggregate compensations paid to active members during the preceding state fiscal year. Except as otherwise provided in subsection (5), the difference, if any, shall be submitted in the executive budget to the legislature for appropriation in the next succeeding state fiscal year. This subsection does not apply for those fiscal years in which a deposit occurs pursuant to subsection (6).

(5) For differences occurring in fiscal years beginning on or after October 1, 1991, a minimum of 20% of the difference between the estimated and the actual aggregate compensation and the estimated and the actual contribution rate described in subsection (4), if any, may be submitted in the executive budget to the legislature for appropriation in the next succeeding state fiscal year and a minimum of 25% of the remaining difference shall be submitted in the executive budget to the legislature for appropriation in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. In addition, interest shall be included for each year that a portion of the remaining difference is carried forward. The interest rate shall equal the actuarially assumed rate of investment return for the state fiscal year in which payment is made. This subsection does not apply for those fiscal years in which a deposit occurs pursuant to subsection (6).

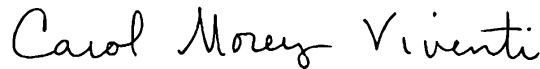

(6) For each fiscal year that begins on or after October 1, 2001, if the actuarial valuation prepared pursuant to this section for each fiscal year demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions exceeds the actuarial present value of benefits, the annual level percent of payroll contribution rate as determined pursuant to subsections (1), (2), and (3) may be deposited into the health advance funding subaccount created under section 11(9).

(7) Notwithstanding any other provision of this act, if the retirement board establishes an arrangement and fund as described in section 6 of the public employee retirement benefit protection act, the benefits that are required to be paid from that fund shall be paid from a portion of the employer contributions described in this section or other eligible funds. The retirement board shall determine the amount of the employer contributions or other eligible funds that shall be allocated to that fund and deposit that amount in that fund before it deposits any remaining employer contributions or other eligible funds in the pension fund.

This act is ordered to take immediate effect.

Clerk of the House of Representatives

Secretary of the Senate
