

Act No. 22
Public Acts of 2007
Approved by the Governor
June 26, 2007
Filed with the Secretary of State
June 26, 2007
EFFECTIVE DATE: June 26, 2007

**STATE OF MICHIGAN
94TH LEGISLATURE
REGULAR SESSION OF 2007**

Introduced by Reps. Gonzales and Cushingberry

ENROLLED HOUSE BILL No. 4766

AN ACT to amend 1965 PA 314, entitled "An act to authorize the investment of assets of public employee retirement systems or plans created and established by the state or any political subdivision; to provide for the payment of certain costs and investment expenses; to authorize investment in variable rate interest loans; to define and limit the investments which may be made by an investment fiduciary with the assets of a public employee retirement system; and to prescribe the powers and duties of investment fiduciaries and certain state departments and officers," by amending section 20m (MCL 38.1140m), as added by 2002 PA 728.

The People of the State of Michigan enact:

Sec. 20m. The governing board vested with the general administration, management, and operation of a system or other decision-making body that is responsible for implementation and supervision of any system shall confirm in the annual actuarial valuation and the summary annual report required under section 20h(2) that each plan under this act provides for the payment of the required employer contribution as provided in this section and shall confirm in the summary annual report that the system has received the required employer contribution for the year covered in the summary annual report. The required employer contribution is the actuarially determined contribution amount. An annual required employer contribution in a plan under this act shall consist of a current service cost payment and a payment of at least the annual accrued amortized interest on any unfunded actuarial liability and the payment of the annual accrued amortized portion of the unfunded principal liability. For fiscal years that begin before January 1, 2006, the required employer contribution shall not be determined using an amortization period greater than 40 years. Except as otherwise provided in this section, for fiscal years that begin after December 31, 2005, the required employer contribution shall not be determined using an amortization period greater than 30 years. For the state employees retirement system, the public school employees retirement system, and the state police retirement system only, for the fiscal year beginning October 1, 2006, the contribution for the unfunded actuarial accrued liability shall be equal to the product of the assumed real rate of investment return times the unfunded actuarial accrued liability. In a plan year, any current service cost payment may be offset by a credit for amortization of accrued assets, if any, in excess of actuarial accrued liability. A required employer contribution for a plan administered under this act shall allocate the actuarial present value of future plan benefits between the current service costs to be paid in the future and the actuarial accrued liability. The governing board vested with the general administration, management, and operation of a system or other decision-making body of a system shall act upon the recommendation of an actuary and the board and the actuary shall take into account the standards of practice of the actuarial standards board of the American academy of actuaries in making the determination of the required employer contribution.

This act is ordered to take immediate effect.

Clerk of the House of Representatives

Secretary of the Senate
