In addition, beginning October 1, 1997, \$3,500,000.00 is appropriated from the Michigan transportation fund to the state trunk line fund for subsequent deposit in the transportation economic development fund to be used for economic development road projects in any of the targeted industries described in section 9(1)(a) of 1987 PA 231, MCL 247.909.

(i) Not less than \$33,000,000.00 as may be annually appropriated each fiscal year to the local program fund created in section 11e.

(4) For the fiscal year beginning October 1, 2003 only, the apportionment of 10% of Michigan transportation fund money to the comprehensive transportation fund as provided in subsection (1)(f) shall be reduced by \$10,000,000.00 and the \$10,000,000.00 shall be transferred to the state trunk line fund for capacity improvements to state trunk line highways.

(5) A fund to be known as the local bridge fund is established and is set up and maintained in the state treasury as a separate fund. The money appropriated to the local bridge fund and the interest accruing to that fund shall be expended for the local bridge program. The purpose of the fund is to provide financial assistance to highway authorities for the preservation, improvement, or reconstruction of existing bridges or for the construction of bridges to replace existing bridges in whole or part. The money in the local bridge fund is not subject to section 12(15) or 13(5). The local bridge advisory board is created and shall consist of 6 voting members appointed by the state transportation commission and 2 nonvoting members appointed by the state transportation department. The board shall include 3 members from the county road association of Michigan, 1 member who represents counties with populations 65,000 or greater, 1 member who represents counties with populations greater than 30,000 and less than 65,000, and 1 member who represents counties with populations of 30,000 or less. Three members shall be appointed from the Michigan municipal league, 1 member who represents cities with a population 75,000 or greater, 1 member who represents cities with a population less than 75,000, and 1 member who represents villages. Each organization with voting rights shall submit a list of nominees in each population category to the state transportation commission. The state transportation commission shall make the appointments from the lists submitted under this subsection. Names shall be submitted within 45 days after October 1, 2004. The state transportation commission shall make the appointments by January 30, 2005. Voting members shall be appointed for 2 years. The chairperson of the board shall be selected from among the voting members of the board. In addition to the 2 nonvoting members, the department shall provide qualified administrative staff and qualified technical assistance to the board.

(6) Beginning October 1, 2005, no less than 5% and no more than 15% of the funds received in the local bridge fund may be used for critical repair of large bridges and emergencies as determined by the local bridge advisory board. Beginning October 1, 2005, funds remaining after the funds allocated for critical large bridge repair and emergencies are deducted shall be distributed by the board to the regional bridge councils created under this section. One regional council shall be formed for each department of transportation region as those regions exist on October 1, 2004. The regional councils shall consist of 2 members of the county road association of Michigan from counties in the region, 2 members of the Michigan municipal league from cities and villages in the region, and 1 member of the state transportation department in each region. The members of the state transportation department shall be nonvoting members who shall provide qualified administrative staff and qualified technical assistance to the regional councils.

(7) Beginning October 1, 2005, funds in the local bridge fund after deduction of the amounts set aside for critical repair of large bridges and emergency repairs shall be distributed among the regional bridge councils according to all of the following ratios, which shall be assigned a weight expressed as a percentage as determined by the board, with each ratio receiving no greater than a 50% weight and no less than a 25% weight:

(a) A ratio with a numerator that is the total number of local bridges in the region and a denominator that is the total number of local bridges in this state.

(b) A ratio with a numerator that is the total local bridge deck area in the region and a denominator that is the total local bridge deck area in this state.

(c) A ratio with a numerator that is the total amount of structurally deficient local bridge deck area in the region and a denominator that is the total amount of structurally deficient local bridge deck area in this state.

(8) Beginning October 1, 2005, the regional bridge councils shall allocate the funds received from the board for the preservation, improvement, and reconstruction of existing bridges or for the construction of bridges to replace existing bridges in whole or in part in each region.

(9) Beginning January 1, 2007 and each January after 2007, the department shall submit a report to the chair and the minority vice-chair of the appropriations committees of the senate and the house of representatives, and to the standing committees on transportation of the senate and the house of representatives, on all of the following activities for the previous state fiscal year:

(a) A listing of how much money was dedicated for emergency and large bridge repair.

(b) A listing of what emergency and large bridge repair projects were funded.

(c) The actual weights used in the calculation required under subsection (7).

(d) A listing of the total money distributed to each region.

(e) A listing of what specific projects were funded pursuant to subsection (8).

(10) The state transportation commission shall borrow money and issue notes or bonds in an amount of not less than \$30,000,000.00 to supplement the funding provided for the local bridge program under subsection (6). The bonds or notes issued pursuant to this subsection may be issued by the commission for any purpose for which other local bridge funds may be used under this section. The bonds or notes authorized by this subsection shall be issued by resolution of the state transportation commission consistent with the requirements of section 18b.

(11) The state transportation department shall promulgate rules pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, governing the administration of the local bridge program. The rules shall set forth the eligibility criteria for financial assistance under the program and other matters related to the program that the department considers necessary and desirable. The department shall take into consideration the availability of federal aid and other financial resources of the highway authority responsible for the bridge, the importance of the bridge to the highway, road, or street network, and the condition of the existing bridge.

(12) Beginning October 1, 2004, the revenue appropriated to the local bridge fund pursuant to subsection (1)(d) shall be distributed only to the local bridge advisory board, the regional bridge councils, cities, villages, and county road commissions.

(13) Beginning October 1, 2008, the regional bridge councils shall determine what bridge projects are selected for funding from the local bridge fund created in subsection (5) and shall make a list of selected projects available to interested parties in the region. A determination that a bridge project is selected for funding in a given fiscal year is not approval to disburse the funds.

(14) Beginning October 1, 2008, a county road commission, city, or village may implement a bridge project if the bridge project has been selected for funding and is included in the appropriate regional bridge council's current multiyear bridge plan for the local bridge program but the regional bridge council has not allocated funds to the bridge project for the fiscal year that the bridge project is on the current multiyear bridge plan. A county road commission, city, or village may borrow funds to implement a project that has been selected for funding and is included in the appropriate regional bridge council's current multiyear bridge plan but has not been allocated funds by the regional bridge council. Based on available local bridge funds, when a bridge project that was implemented with borrowed funds is allocated funding in a subsequent fiscal year, the funding shall only be used to repay the amount approved by the multiyear bridge plan when the funds were borrowed. To be eligible for repayment of the amount borrowed, a bridge project that has been implemented with borrowed funds shall be administered through the department's local bridge program.

This act is ordered to take immediate effect.
