**OVERVIEW**

As of May 18, 2009, supplemental requests from the State Budget Office (SBO) for funding from or related to the American Recovery and Reinvestment Act of 2009 (ARRA) totaling \$218.1 million are pending before the Legislature. House Bill 4308 (H-2) contains appropriations for \$193.6 million of those requests. The bill also includes \$500,000 in new funding for food assistance outreach added by a House committee amendment.

Recommended boilerplate language applying to all funds in the bill would (1) automatically appropriate any additional federal funds awarded to Michigan through recalculation of formulas or under federal redistribution provisions, (2) allow unexpended funds to be carried forward to succeeding fiscal years (work project provisions), and (3) require subrecipients of the funds to comply with all federal requirements regarding certification, assurances, accountability, and transparency.

At least 60% of each state's allocation is to be subgranted to local units not eligible for a direct EECBG from DOE. Funds are to be used for various energy efficiency projects within the state and local units that reduce energy and fossil fuel consumption. In addition to the \$2.8 billion formula distribution, \$400.0 million is to be distributed on a competitive basis to states and local units. (3/13/09 SBO letter)

One-third of the funding is distributed for enacting an "alternate base period". (The base period is the one-year period used to determine if a claimant is monetarily eligible for UI benefits. It typically is the first 4 of the last 5 completed calendar quarters. The alternate base period, under the Michigan Employment Security Act (MCL 421.45) is the four most recent completed calendar, and is used to determine eligibility if a claimant has insufficient wages within the standard base period.
