**Overview**

The Michigan Department of Corrections (MDOC) operates under the codification of correctional statutes established under Public Act 232 of 1953. The MDOC budget funds operation of the state prison system, supervision of parolees and felony probationers, and a variety of offender programs both in prison and in the community. It also funds training of corrections officers and centralized functions of administration, research, and financial operations. Prison construction is funded through the Capital Outlay budget.

(as of 2/12/09)**      **Change  
From YTD**

**PRISON OPERATIONS**

**1. FY 2008-09 Facility Closures at Unspecified Locations**

**House** and **Executive** include 12-month savings projected from additional closures of more than 3,500 prison beds by October 1, 2009; locations are not identified. Bed savings would be achieved through a combination of paroles and expanded utilization of community corrections prison diversion programs. To support additional numbers of offenders in the community, increases to the Michigan Prisoner Reentry Initiative (MPRI), parole and probation supervision, and community corrections are included for FY 2009-10, and the Executive requests FY 2008-09 supplemental appropriations of \$20 million to provide additional funding for MPRI and parole supervision.

<b>Gross</b>	<b>N/A</b>	<b>(\$117,992,800)</b>
Restricted	N/A	(1,093,900)
GF/GP	N/A	(\$116,898,900)

Associated boilerplate language added by the **House** notes that savings could derive from various efficiencies and reductions in addition to bed closures.

**2. Remaining Scott Closure Savings**

**House** and **Executive** take remaining savings to be realized from closure of Scott Correctional Facility in Plymouth. FY 2008-09 budget reduced funding by \$13.2 million and 10.0 FTEs in anticipation of May 2009 closure. Bed count and remaining FTEs and funding are eliminated in FY 2009-10; savings include reduced costs of prison clinics, education, food service, transportation, and DIT. Funding for Camp White Lake is transferred to Huron Valley, in conjunction with that complex being converted to an all-female facility. Savings through consolidation of female population at Huron Valley are identified separately (see Nos. 8 and 12, below).

<b>House and Executive</b> restore the restricted funding and most of the 90.0 FTEs that were eliminated under the enacted FY 2008-09 budget in anticipation of bidding out of prison store operations and centralizing warehouse functions; does not replace \$1.2 million in associated GF/GP savings taken in FY 2008-09. Creates a new line item, "prison store operations," to appropriate prison store revenue and provide for 256.0 store-related FTEs. Costs of storekeepers would in part be supported with GF/GP funding remaining in the facility line items. Because prison stores are to continue to operate much as they have been (although with greater centralization and automation), the Executive is seeking restoration of the restricted funding that supports storekeeper positions.
