## House Bill 5187

**Sponsor:** Rep. Andy Neumann

**Committee:** Senior Health, Security, and Retirement

**Complete to 6-1-10**

## A SUMMARY OF HOUSE BILL 5187 AS INTRODUCED 7-14-09

House Bill 5187 would amend Section 11a of the Social Welfare Act to add an employee of a financial institution to the list of persons who are required to make a report of suspected abuse, neglect, or exploitation of a vulnerable adult as prescribed in the act.

The bill would also add "financial exploitation" to the definition of abuse, and add related definitions of the terms "financial institution," and "financial services" to the act.

The bill would define the terms as follows:

Financial Exploitation would mean the action of a person in a position of trust and confidence and who by **intimidation** or **deception** knowingly takes control, title, use, or management of an incapacitated or vulnerable adult's assets or property with the intent to permanently deprive him or her of the assets or property.

Financial Institution would mean a state or nationally chartered bank or a state or federally chartered savings and loan association, savings bank, or credit union that maintains a principal office or branch in this state.

MCL 400.11a

## FISCAL IMPACT:

House Bill 5187 (and HB 5193) could increase the number of reports of suspected abuse of adults filed with and investigated by Adult Protective Services staff within county offices of the Department of Human Services. Further, it could increase complaint referrals to the Bureau of Children and Adult Licensing related to abuse or neglect of individuals served within adult foster care facilities or homes for the aged. Data does not appear to be available to estimate the number of new reports that would result from the bills.

Any increase in reports and referrals of suspected abuse or neglect would increase the workload for Adult Protective Services staff within DHS county offices and for staff within the Bureau of Children and Adult Licensing. When similar legislation was

introduced last session, the Department of Human Services indicated a belief that the bills will increase staffing needs in these areas, but did not have a specific cost estimate.
