OVERVIEW

A February 11 letter from State Budget Office (SBO letter 2010-10) contains requests for FY 2009-10 supplemental appropriations from funding to be received under the federal American Recovery and Reinvestment Act (ARRA) totaling \$34.2 million—with an additional \$219,300 in state restricted funds recommended in conjunction with an ARRA request. Note that this total excludes pending ARRA-related requests for the Human Services budget, which were transmitted in a separate SBO letter (2010-12).

House Bill 5405 (H-1) contains the recommended ARRA appropriations, with the exception of \$25.0 million in potential Race to the Top funding for the Department of Education. Consistent with previous supplemental bills containing ARRA funds, boilerplate language is included that (1) states that ARRA funds are temporary in nature, (2) appropriates any additional funds awarded to Michigan through recalculation of formulas, (3) provides for the carry-forward of unexpended funds into subsequent fiscal years, and (4) requires subrecipients of funds to comply with all applicable federal requirements.

The appropriations in this bill represent available ARRA funds that have been identified above and beyond those previously appropriated through FY 2008-09 and FY 2009-10 supplemental appropriations or through initial FY 2009-10 budget acts. To date, a total of \$7.1 billion in ARRA funding has been appropriated in the state budget—\$5.0 billion in the FY 2008-09 budget and \$2.1 billion in the FY 2009-10 budget.

FY 2009-10 Appropriation Items:

AGRICULTURE

1. Emerald Ash Borer (ARRA)

ENERGY, LABOR, AND ECONOMIC GROWTH**3. Labor Market Information**

The ARRA made available \$500.0 million for various programs under the Green Jobs Act. This included \$48.5 million for the State Labor Market Information Improvement grant program, which provided assistance to states to collect, analyze, and disseminate labor market information, and to enhance the labor exchange infrastructure for careers within the energy efficiency and renewable energy industries. A consortium of DELEG (Bureau of Labor Market Information and Strategic Initiatives), and the labor market information agencies in Indiana and Ohio were awarded a \$4.0 million grant for project that will coordinate efforts to assist employers, employees, and dislocated workers impacted by the restructuring in the auto industry by developing alternative career pathways in the energy efficiency and renewable energy sectors. The project will focus on identifying new skills and requirements in a restructured auto industry; examining and understanding new demands and skills in a restructured auto supply chain; identifying alternative green jobs for dislocated auto workers; and identifying the current and projected skills gap of the auto workforce, and the training necessary to transition into green occupations and other in demand sectors. (2/11/10 SBO letter)

Gross	\$1,325,400	\$1,325,400
ARRA	1,325,400	1,325,400

4. Workforce Training Programs Subgrantees

Also part of the ARRA's Green Jobs Act program funding, the ARRA included \$177.5 million for the State Energy Sector Partnership and Training Grants program. The grant program provided financial assistance to states to provide training to individuals in a number of "green" employment sectors, including energy efficient building construction, advanced vehicle drive train industry, renewable electric power. The state award totals \$5.8 million. Funds will be utilized by DELEG in partnership with other state agencies and other private organizations to implement the state's Green Jobs Initiative to provide training in advanced energy storage, solar industries, and energy efficient construction to nearly 1,300 displaced and incumbent workers. (2/11/10 SBO letter)

Gross	\$6,000,000	\$6,000,000
