House Bill 5622 amended the Emergency 9-1-1 Service Enabling Act to allow for a one-time distribution, in FY 2010-11, of up to \$1.7 million from the Emergency 9-1-1 Fund to the Department of State Police for an integrated internet protocol-based 9-1-1 mapping system in the State. House Bill 6153 appropriated a total of \$3.4 million to the Information Technology Services and Projects line item of the Department of State Police's FY 2010-11 budget. These funds represented the cost of a project creating an integrated internet protocol-based 9-1-1 mapping system for use by all public safety answering points (PSAPs) in the State. The project was made possible in part by a grant program under the Federal 9-1-1 ENHANCE Act. The appropriation included \$1.7 million in Federal funds and a required match of \$1.7 million in State restricted funds.
