FY 2015-16 Year-to-Date Gross Appropriation	\$499,995,800
Changes from FY 2015-16 Year-to-Date:	
1. Leaking Underground Storage Tank Cleanups. The Governor and Senate included additional Refined Petroleum Fund revenue in the DEQ budget to address leaking underground storage tanks. This item also appears in the budget for the Department of Agriculture and Rural Development (DARD), where the money is currently used to support the Weights and Measures program. GF/GP would be used in DARD to replace this revenue.	1,500,000
<ol> <li>Clean Michigan Initiative (CMI) - High Priority Cleanups. The Governor and Senate included additional CMI bond proceeds which would use most of the remaining statutory allocation for response activities at sites deemed a high priority by the Department.</li> </ol>	14,900,000
3. Water Withdrawal Assessment Program. The Governor and Senate included \$800,000 in Clean Michigan Initiative - Clean Water Fund appropriations to increase the scope of this program. The program models the effects on large-scale water withdrawals on local water tables and water availability for residential wells. The Governor's total for FY 2016-17 for this program, including this increase, is about \$2.2 million.	800,000
4. Drinking Water Revolving Loan Fund - State Match. The Governor and Senate included additional one-time GF/GP appropriations to draw down all available Federal funds for the Drinking Water Revolving Fund program. The program provides low-interest loans to municipalities for improvements to drinking water infrastructure. The exact amount of funds available for this program is contingent on the Federal budget for FY 2016-17, but the average for this program is about \$30.0 to \$35.0 million.	2,950,000

5. <b>Flint Declaration of Emergency.</b> The Governor and Senate included a one-time appropriation including 10.0 FTEs for efforts related to Flint water issues. The proposal is comprised of three parts: \$1.5 million and 10.0 FTEs for corrosion control specialists, sampling staff, lab staff, and service line verification staff; \$3.9 million for three months of water payments to the Great Lakes Water Authority for Flint's water; and a \$100 placeholder for the Flint Emergency Reserve Fund. That fund was proposed as part of Supplemental Request 2016-6, which would appropriate \$50.0 million from the State General Fund to a new Flint Emergency Reserve Fund in the Department of Technology, Management and Budget. Part or all of that funding could then be authorized for expenditure in the DEQ budget through a contingency fund transfer by the Legislature.	5,400,100
6. Oil and Gas Regulatory Fund Replacement. The Governor and Senate included additional one-time GF/GP appropriations to replace appropriations from this fund for the Office of Oil, Gas, and Minerals. The Fund normally provides much of the revenue necessary to operate the Office, which oversees regulation of mineral extraction in the State. However, low oil prices have reduced Fund revenue, which is based directly on the market value of extracted minerals.	4,000,000
7. Contaminated Lake and River Sediment Cleanup. The Governor and Senate included additional one-time CMI-Contaminated Sediments appropriations to fund cleanups of toxic sediment from rivers, lakes, and streams. Typically about \$1.5 million is appropriated each year for these purposes. This increase would increase that by about half for FY 2016-17.	700,000
8. <b>Environmental Bond Site Reclamation Program.</b> The Governor and Senate removed appropriations for this program, as the underlying fund source, part of the 1998 Clean Michigan Initiative bond program, has been depleted.	(126,800)
<ol> <li>Brownfield Grants. The Governor and Senate removed appropriations for this program. Funding currently comes from the CMI allocation for response activities; the Governor proposed repurposing the remainder of these funds toward high priority cleanups.</li> </ol>	(1,500,000)
10. Removal of Five-Year Early-Out Deferred Sick Leave Payments. Department obligations will be satisfied as of FY 2015-16 for employees who opted into the 2010 early retirement program, which deferred sick leave payments over five years.	(243,300)
11. <b>Office of Oil, Gas, and Minerals.</b> \$5.4 million in Oil and Gas Regulatory Fund appropriation authority was removed from the Office of Oil, Gas, and Minerals as low oil prices have reduced revenue to this fund. The Governor and Senate included a total of \$10.8 million for this program.	(5,385,600)
12. <b>Remove FY 2015-16 Supplemental Appropriation.</b> The Governor and Senate removed \$13.1 million in FY 2015-16 appropriations for Flint water issues. These appropriations were related to one-time expenditures for the following: Reconnection of Flint's water to the Detroit Water and Sewerage Department (\$6.3 million); increased water testing of homes in Flint (\$1.0 million); aid to the City of Flint for unpaid water bills (\$3.0 million); Flint water system needs (\$2.0 million); Flint water infrastructure study (\$500,000); DEQ lab testing costs (\$250,000); and Flint water corrosion control (\$36,500).	(13,086,500)
13. <b>Economic Adjustments.</b> Includes \$788,800 Gross and \$122,800 GF/GP for OPEB and \$2,806,900 Gross and \$429,700 GF/GP for other economic adjustments.	3,595,700
14. <b>Comparison to Governor's Recommendation.</b> The Senate is \$0 Gross and \$0 GF/GP over the Governor.

FY 2015-16 Year-to-Date Gross Appropriation	\$1,220,654,700
Changes from FY 2015-16 Year-to-Date:	
<ol> <li>Constitutional Revenue Sharing. The Governor recommended an increase in constitutional revenue sharing of 3.9% to \$781,501,400. This is consistent with the January 2016 consensus revenue estimates. Constitutional revenue sharing distributes 15% of the sales tax levied at a 4% rate to cities, villages, and townships (CVTs) on a per capita basis. The Senate concurred.</li> </ol>	29,386,700
2. <b>CVT Revenue Sharing.</b> The Governor reduced nonconstitutional (statutory) revenue sharing for CVTs by \$5.8 million to \$243,040,000, a 2.3% reduction. The proposal would eliminate 101 local units from eligibility for the per capita distribution of about \$2.65 which started in FY 2014-15. Another 15 local units that received a payment increase under the per capita distribution would have their payments reduced. All other CVTs would receive the same payment in FY 2016-17 as in FY 2015-16. The Senate provided funding of \$244,983,000 in FY 2016-17, a reduction of 1.5%. The Senate maintained eligibility in FY 2016-17 for all local units that were eligible in FY 2015-16. The program is funded with \$244,536,600 in ongoing funding and \$446,400 in one-time appropriations.	(3,857,000)
3. County Revenue Sharing and County Incentive Program. The Governor increased funding by \$467,500 to cover the cost of counties that return to State-paid revenue sharing in FY 2016-17, for either the first full or part-year. County Revenue Sharing would increase by \$374,000 to \$172,134,000. The County Incentive Program would increase by \$93,500 to \$43,033,500. The Senate provided funding for the newly eligible counties and increased payments to all eligible counties by 2%. County Revenue Sharing would increase to \$175,576,700 and County Incentive Program would increase to \$43,894,200.	4,770,900

4. Competitive Grant Assistance Program (CGAP). The Governor proposed \$11.0 million for this program to provide grants to local units for costs associated with mergers, interlocal agreements, and cooperative efforts. The funding would consist of \$5.8 million in ongoing appropriations and \$5.2 million in one-time funding. The CGAP received State appropriations of \$15.0 million in FY 2011-12, FY 2012-13, and FY 2013-14, but has not received funding since then. The Senate did not include.	0
5. Financially Distressed Cities, Villages, or Townships. The Governor maintained funding for this grant program at \$5.0 million in FY 2016-17, the same level as in FY 2015-16. The program provides grants of up to \$2.0 million for CVTs with signs of fiscal distress for projects that move the city, village, or township toward financial stability. The Senate concurred.	0
6. Voting Machine Replacement Reimbursement. The Senate added \$5,000,000 in one-time funding for payments to all cities, villages, townships, and counties that purchase voting machines approved by the Department of State. Reimbursement would be calculated by the Department of Treasury in cooperation with the Department of State to provide an equal payment for each voting machine projected to be replaced in the next 3 years. The appropriation would be funded from \$4,753,600 in restricted sales tax revenue and \$246,400 GF/GP.	5,000,000
7. <b>Comparison to Governor's Recommendation.</b> The Senate is \$246,400 Gross and \$246,400 GF/GP over the Governor's recommendation.	0
Total Changes	\$35,300,600
FY 2016-17 Senate Appropriations Subcommittee Gross Appropriation	\$1,255,955,300

- 1. City, Village, and Township Revenue Sharing Payment Calculation. The Governor limited eligibility to those local units that received more than \$4,500 in FY 2009-10 in statutory revenue sharing. This would reduce eligibility from 587 CVTs in FY 2015-16 to 486 CVTs in FY 2016-17. Current year language allows each eligible CVT to receive the same payment in FY 2015-16 as in FY 2014-15, assuming that all accountability and transparency requirements are met. In FY 2015-16, each local unit with a population of more than 7,500 is eligible to receive either 78.51044% of its FY 2009-10 payment or a payment of \$2.64659 per capita, whichever is greater. The elimination of the per capita payments would exclude 101 local units from eligibility for the program and reduce payments to another 15 local units that received an increase under the per capita payment. Payments to other CVTs would not change. The Senate reduced funding by 1.5%. CVTs that were eligible for revenue sharing in FY 2015-16 would be eligible in FY 2016-17 for 98.45% of the amount for which they were eligible in FY 2015-16. (Sec. 1052(1))
- Revenue Sharing for Counties. The Governor fully funded revenue sharing payments to counties as provided by statute. Funding would be paid through the line items for county revenue sharing and county incentive program. The Senate provided that eligible counties would receive 102% of the statutory calculation, a 2% increase for each eligible county. (Sec. 1052(2) and 1055)
- 3. Extended Due Dates for Accountability and Transparency Reports. The Governor recommended an extension in the due date for cities, villages, townships, and counties to submit certifications needed to qualify for the full amount of revenue sharing for which they are eligible. Currently all eligible local governments receive the October payment of 1/6<sup>th</sup> of the amount for which they are eligible. Receipt of the remaining five payments requires that a local government has completed required certifications by the first day of the payment month. Under the Governor's proposal, a local government that did not file certifications by the first day of the December or February payment months, would be able to defer (instead of forfeit) those payments, provided that certifications were completed by April 1. Deferred payments would be paid on the last business day of August. The Senate did not include. (Sec. 20-952(4)(e))
- 4. Competitive Grant Assistance Program (CGAP). The Governor recommended re-establishing CGAP, a grant program that provides assistance for projects associated with mergers, interlocal agreements, and cooperative efforts. The Department of Treasury would award the grants. Cities, villages, townships, and counties would be eligible for grants. In addition, authorities, school districts, intermediate school districts, public community colleges, and public universities would be eligible for grant funding for a project to combine operations with a city, village, township, or

county. A work project would be established for any funds remaining at year-end. The Senate did not include. (Sec. 20-951)

- 5. **Performance Metrics for CGAP.** The Governor required the Department of Treasury to identify outcomes and performance metrics for CGAP, including grants awarded and mergers, consolidation of operations, and cooperative efforts of two or more governmental units. The Senate did not include. (Sec. 20-957)
- 6. **Revenue Sharing Workgroup.** The Governor and Senate deleted legislative intent language regarding a legislative workgroup on city, village, and township nonconstitutional revenue sharing. (Sec. 957)
- 7. Voting Machine Replacement Reimbursement. The Senate added language that specified the distribution of funds appropriated for voting machine replacement to cities, villages, townships, and counties that have purchased voting machines in a purchase that is approved by and meets the specifications established by the Department of State. The reimbursement amount would be calculated by the Department of Treasury by dividing the \$5,000,000 appropriated by the number of voting machines that the Department of State projects to need replacement over the next three years. The appropriation would be established as a work project. The Department of Treasury would be required to report on the recipients for funding by May 1, 2017. (Sec. 1058)
