*The People of the State of Michigan enact:*

Sec. 4cc. (1) Subject to subsections (2) and (3), beginning January 1, 2016 through December 31, 2035, the tax under this act does not apply to the storage, use, or consumption of data center equipment sold to the owner or operator of a qualified data center or a colocated business for assembly, use, or consumption in the operations of the qualified data center or data center equipment sold or provided to a person engaged in the business of constructing, altering, repairing, or improving real estate for others to the extent the data center equipment is to be affixed to or made a structural part of a qualified data center.

(2) The exemption under this section only continues to apply after January 1, 2022, if the numbers gathered by the local economic development corporations are certified and reported to the department of talent and economic development and subsequently forwarded to the department and demonstrate that the qualified data centers, the colocated businesses, and the contractors of the qualified data centers, collectively, have, in aggregate, established in this state at least 400 data center industry jobs or data center industry related jobs, or a combination of both, since January 1, 2016. The department of talent and economic development shall submit a report no later than April 1, 2022 related to the number of data center industry jobs or data center industry related jobs that have been established since January 1, 2016 to the speaker and minority leader of the house of representatives, the majority and minority leaders of the senate, and the governor.

(3) The exemption under this section only continues to apply after January 1, 2026, if the numbers gathered by the local economic development corporations are certified and reported to the department of talent and economic development and subsequently forwarded to the department and demonstrate that the qualified data centers, the colocated businesses, and the contractors of the qualified data centers, collectively, have, in aggregate, established in this state at least 1,000 data center industry jobs or data center industry related jobs, or a combination of both, since January 1, 2016. The department of talent and economic development shall submit a report no later than April 1, 2026 related to the number of data center industry jobs or data center industry related jobs that have been established since January 1, 2016 to the speaker and minority leader of the house of representatives, the majority and minority leaders of the senate, and the governor.

(b) “Colocated business” means a person that has entered into a contract with the owner or operator of a qualified data center to use or deploy data center equipment physically located within the qualified data center for a period of 1 or more years.

(c) “Data center equipment” means only computers, servers, routers, switches, peripheral computer devices, racks, shelving, cabling, wiring, storage batteries, back-up generators, uninterrupted power supply units, environmental control equipment, other redundant power supply equipment, and prewritten computer software used in operating, managing, or maintaining the qualified data center or the business of the qualified data center or a colocated business. Data center equipment also includes any construction materials used or assembled under the qualified data center’s proprietary method for the construction or modification of a qualified data center, including, but not limited to, building materials, infrastructure, machinery, wiring, cabling, devices, tools, and equipment that would otherwise be considered a fixture or related equipment. Data center equipment does not include any equipment owned by a third party that is used to supply the qualified data center’s primary power.

(d) “Qualified data center” means a facility composed of 1 or more buildings located in this state and the facility is owned or operated by an entity engaged at that facility in operating, managing, or maintaining a group of networked computers or networked facilities for the purpose of centralizing, or allowing 1 or more colocated businesses to centralize, the storage, processing, management, or dissemination of data of 1 or more other persons who is not an affiliate of the owner or operator of a qualified data center or of a colocated business and the entity receives 75% or more of its revenue from colocated businesses that are not an affiliate of the owner or operator of the qualified data center.

Sec. 14b. (1) If an exemption from the tax under this act is claimed, the seller shall obtain identifying information of the purchaser and the reason for claiming the exemption at the time of the purchase or at a later date. The seller shall obtain the same information for a claimed exemption regardless of the medium in which the transaction occurred.

(2) A seller shall use a standard format for claiming an exemption electronically as adopted by the governing board under the streamlined sales and use tax agreement.

(3) A purchaser is not required to provide a signature to claim an exemption under this act unless a paper exemption form is used.

(4) A seller shall maintain a proper record of all exempt transactions and shall provide them when requested by the department.

(5) A seller who complies with the requirements of this section is not liable for the tax under this act if a purchaser improperly claims an exemption. A purchaser who improperly claims an exemption is liable for the tax due under this act. This subsection does not apply if a seller does any of the following:

(a) Fraudulently fails to collect the tax under this act.

(b) Solicits a purchaser to make an improper claim for exemption.

(c) Accepts an exemption form when the purchaser claims an entity-based exemption if both of the following occur:

(i) The subject of the transaction sought to be covered by the exemption form is actually received by the purchaser at a location operated by the seller.

(ii) The state in which the location operated by the seller is located provides an exemption form that clearly and affirmatively indicates that the claimed exemption is not available in that state.

(6) A seller who obtains a fully completed exemption form or captures the relevant data elements as outlined in this section within 120 days after the date of sale is not liable for the tax under this act.

(7) If the seller has not obtained an exemption form or all relevant data elements, the seller may either prove that the transaction was not subject to the tax under this act by other means or obtain a fully completed exemption form from the purchaser, by the later of the following:

(a) 120 days after a request by the department.

(b) The date an assessment becomes final.

(c) The denial of a claim for refund.

(d) In the instance of a credit audit, the issuance of an audit determination letter or informal conference decision and order of determination.

(e) The date of a final order of the court of claims or the Michigan tax tribunal, as applicable, with respect to an assessment, order, or decision of the department.

(8) The department may, in its discretion, allow a seller additional time to comply with subsection (7).

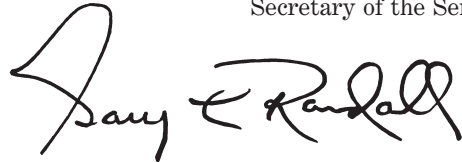

(9) A seller is not liable for the tax under this act if the seller obtains a blanket exemption form for a purchaser with which the seller has a recurring business relationship. Renewals of blanket exemption forms or updates of exemption form information or data elements are not required if there is a recurring business relationship between the seller and the purchaser. For purposes of this section, a recurring business relationship exists when a period of not more than 12 months elapses between sales transactions.
