House Bill 4134 as introduced
House Bill 4135 (proposed substitute H-2)
Sponsor: Rep. Edward J. Canfield, D.O.
Committee: Health Policy
Complete to 12-3-18

REVISED SUMMARY:

House Bill 4134 would add a section to Part 161 (General Provisions) of the Public Health Code. The section would provide that a physician would not need to maintain a national or regional certification not specifically required in Article 15 of the Code before receiving a Michigan license.

House Bill 4135 would add a section to Chapter 22 (The Insurance Contract) of the Insurance Code to provide that an insurer or health maintenance organization (HMO) could not require as the sole condition for paying a claim that a physician maintain a national or regional certification not specifically required by Article 15.

House Bill 4134

Under House Bill 4134, in other words, the proposed Section 16147 of the Public Health Code would state that, in spite of any provision in the Code to the contrary, the Department of Licensing and Regulatory Affairs (LARA), the Michigan Board of Medicine, or the Michigan Board of Osteopathic Medicine and Surgery could not require one of its licensed physicians or applicants for a license to maintain a national or regional certification not specifically required in Article 15, before granting a license or license renewal.

Proposed MCL 333.16147

House Bill 4135

The proposed Section 2212d of the Insurance Code would provide that maintenance of national or regional certification by an allopathic (M.D.) or osteopathic (D.O.) physician in the medical specialties of family practice, internal medicine, or pediatrics could not be the sole condition precedent to the payment or reimbursement of a claim. This prohibition would apply to an insurer that delivers, issues for delivery, or renews in this state a health insurance policy issued under Chapter 34 (Disability Insurance Policies), as well as an HMO that issues a Health Maintenance Contract under Chapter 35 (Health Maintenance Organizations).

Proposed MCL 500.2212d

BACKGROUND:

Similar bills were introduced in the 2015-2016 session as House Bills 5090 and 5091. They were considered by the House Health Policy committee, but were not reported to the full House. In addition to the provisions in HBs 4134 and 4135, HB 5090 would have prohibited a licensed hospital from denying admitting privileges to a physician because of failure to maintain certification not otherwise specifically required in Article 15 of the Public Health Code.

FISCAL IMPACT:

House Bills 4134 and 4135 would not likely have a significant fiscal impact on the state or local units of government.
