## STATE WEBSITE: LIST EMPLOYEE INFORMATION

Phone: (517) 373-8080  
<http://www.house.mi.gov/hfa>

**House Bill 4301 as introduced**  
**Sponsor: Rep. Brandt Iden**  
**Committee: Oversight**  
**Complete to 3-8-17**

Analysis available at  
<http://www.legislature.mi.gov>

## SUMMARY:

The bill would require employee salary information, updated monthly, to be listed on the state's website, in addition to the information currently required to be posted under the Electronic Open Access to Government Act, Public Act 370 of 2016.

Public Act 370 requires the Department of Technology, Management, and Budget (DTMB), by January 1, 2018, and at no cost to the public, to include links on the state's website to function and contact information for each executive branch department and its major divisions and subunits. Among other things, the act currently requires a description of the primary functions of each major division or subunit of the department and the telephone numbers and electronic mail addresses to be included in the information listed.

House Bill 4301 amends the Electronic Open Access to Government Act to also require, for each executive branch department and each major division or subunit with the department, that the information include a list of the department's employees as well as the employee's name, position title, classified or nonclassified civil service distinction, and salary for each employee. A department would not have to provide this information to the MDTMB if doing so would endanger the health or safety of the employee. This information would have to be updated monthly. (Other required information will continue to be updated quarterly.)

The bill would take effect 90 days after enactment.

MCL 15.451

## FISCAL IMPACT:

HB 4301 will likely impose costs to the Department of Technology, Management, and Budget but these costs are not yet known. A determination of the impact is currently in progress within the Department.
