Senate Bill 9 (as reported without amendment)
Sponsor: Senator John Proos
Committee: Michigan Competitiveness

CONTENT

The bill would amend the Corrections Code to require the Department of Corrections (DOC), subject to its screening and approval policies and procedures, to permit representatives from all nonprofit faith-based, business and professional, civic, and community organizations that applied, to be registered with the Department to enter correctional facilities in the State for the purpose of providing inmate reentry services. Reentry services would include, but not be limited to, counseling, providing information on housing and job placement, and money management assistance.

The Department would have to develop and adopt policies and procedures for screening, approving, and registering organizations and representatives from the organizations listed above that applied to provide inmate reentry services. The DOC could deny approval and registration to an organization or representative if the Department determined that the organization or representative did not meet its screening guidelines.

The DOC would retain discretion to deny entry into a correctional facility at any time to a representative of a listed organization, regardless of whether he or she previously applied to and was registered with the Department to provide inmate reentry services within a correctional facility.

The DOC would have to post a Department telephone number and provide a registration application on its public internet website for use by representatives from an organization described above who wished to provide inmate reentry services, to obtain information and begin the application process for registration.

The DOC would be prohibited from endorsing or sponsoring any faith-based reentry program or endorsing any specific religious message. The Department also could not require an inmate to participate in a faith-based program.

Proposed MCL 791.269b

Legislative Analyst: Suzanne Lowe

FISCAL IMPACT

The bill would have no fiscal impact on State or local government.
