#### **CONTENT**

Article II of the conference report for HB 4323 includes an FY 2016-17 supplemental appropriation of \$1,100 for eleven new capital outlay planning authorization line items and \$1,300 for thirteen construction authorizations.

Capital outlay is a two-step legislative process that is delineated in Section 242 of the Management and Budget Act (Public Act 431 of 1984). Planning and construction authorizations are implemented through \$100 line-items in appropriation bills. Planning authorizations are not a commitment on the part of the Legislature to appropriate funds for the completion of any project. A \$100 line-item planning authorization effectively gives permission for an institution or State agency to develop program statements and schematic planning documents. Those documents are then submitted to the Department of Technology, Management, and Budget (DTMB) for review and approval. Projects that are approved for construction by DTMB are then submitted to the Joint Capital Outlay Subcommittee (JCOS) for its approval. Subsequent to DTMB and JCOS approval, the Legislature may authorize a project for final design and construction with a line-item appropriation in an appropriation bill (construction authorization).

#### **FISCAL IMPACT**

The actual State share of a project's cost, if eventually authorized for construction, is funded through State Building Authority (SBA) bonding. State Building Authority rent payments are appropriated annually in the General Government budget to cover the debt service costs of the bonds. Boilerplate (Sec. 301) provides authorization for the mechanism that funds the State share of project costs through the SBA pursuant to the requirements of 1964 PA 183, MCL 830.411 to 830.425.

**Planning Authorizations**. <u>Table 1</u> provides a listing of planning authorizations included in the conference report, including the estimated total cost, State share, institution share, and estimated annual SBA rent payments (debt service). If all of the planning authorizations contained HB 4323 eventually receive construction authorizations, the total cost of the projects (not including the Northern Satellite Psychiatric Facility) would be \$187.6 million, with a State share of \$88.5 million. Annual SBA rent payments would be approximately \$6.6 million until the bonds are retired (approximately 17 years).

**Construction Authorizations**. <u>Table 2</u> contains a listing of projects authorized for construction included in the conference report, including the total authorized cost, State share, institution share, and estimated annual SBA rent payments (debt service). The construction authorizations result in total authorized costs of \$642.3 million, with the State share totaling \$376.8 million. Annual SBA rent payments (debt service) will total approximately \$28.3 million until the bonds are retired (approximately 17 years).

<ol> <li>Financially Distressed Cities, Villages, or Townships. The Governor and Senate recommended \$5.0 million in FY 2017-18 for this grant program, the same amount as in FY 2016-17. The House recommended \$4,999,900 for this program. Conference concurred with Senate.</li> </ol>	0
5. Revenue Sharing Payments to Counties. The Governor recommended a total of \$217,908,100 for revenue sharing payments to counties. This amount would be paid through two line items, \$174,747,700 for County Revenue Sharing and \$43,160,400 for the County Incentive Program. The Governor recommended increases of \$513,700 for County Revenue Sharing and \$126,900 for the County Incentive Program to cover the cost of two counties (Alcona and Charlevoix) that received part-year funding in FY 2016-17 and will be eligible for full-year funding in FY 2017-18. All other eligible counties will receive the same payments in FY 2017-18 as in FY 2016-17, assuming continued compliance with the accountability and transparency requirements of the County Incentive Program. The Senate included the Governor's recommended increases for new counties. The Senate also increased total payments for eligible counties by 1% or \$2,179,100 GF/GP and placed the entire increase in the appropriation for County Revenue Sharing. The recommendation included a total of \$220,087,200 for counties, consisting of \$43,160,400 for the County Incentive Program and \$176,926,800 for County Revenue Sharing. Items Included by the Senate and House

Amount Over/(Under) GF/GP Target: \$0

- 1. **County Incentive Program.** The Governor recommended the same payment calculation for FY 2017-18 as in FY 2016-17. The Senate and House concurred. (The Senate 1% increase in total revenue sharing payments to counties was built into the line item for County Revenue Sharing.) (Sec. 952(2))
- 2. **Online Option for Citizen's Guide to Finances.** The Governor added an option for a city, village, township, or county to certify that it is using the Department of Treasury online system for the citizen's guide to its finances instead of submitting a paper copy. The Senate and House concurred. (Sec. 952(3))
- 3. Extend Due Date for Accountability and Transparency Reports and Certification. The Governor extended from December 1 to April 1 the date by which an eligible city, village, township, or county is required to complete its accountability and transparency requirements without forfeiting any payments for which it is eligible. Currently revenue sharing payments are made on the last business day of October, December, February, April, June, and August. A local government must satisfy the accountability and transparency requirements by December 1 or the first day of a subsequent payment month. All eligible local governments receive the first payment which is made prior to the due date for the accountability reports. If the accountability and transparency certifications are not made by December 1 or the first day of any subsequent payment month, the payment for that month (1/6th of the total) is forfeited. Under the Governor's proposal, a local government that did not complete accountability requirements by December 1 but satisfied the requirements by April 1, would be able to receive ("defer" instead of forfeit) its second and third revenue sharing payments in August. The Senate and maintained current law. (Sec. 952(4)(e))

# Conference Agreement on Items of Difference

The Senate established the eligible payment amount at 101% of the eligible payment under Public Act 268 of 2016. The House set payments at 100% of the eligible amount under Public Act 268 of 2016, which would result in the same payments as the Governor. Conference concurred with House. (Sec. 952(1))
- 5. **County Revenue Sharing.** The **Governor and House** recommended the same payments in FY 2017-18 as in FY 2016-17. The **Senate** proposed that payments in FY 2017-18 be 101.986% of the payments for which counties are eligible under the Glen Steil State Revenue Sharing Act. This results in a total revenue sharing payment (from both the County Incentive Program and County Revenue Sharing) for which a county is eligible in FY 2017-18 that is 1% greater than the total of those payments in FY 2016-17. **Conference** concurred with the Senate. (Sec. 955)
