9 (3) The requirements under this section and section 1278b for
10 a high school diploma are in addition to any local requirements
11 imposed by the board of a school district or board of directors of
12 a public school academy. The board of a school district or board of
13 directors of a public school academy, as a local requirement for a
14 high school diploma, may require a pupil to complete the Michigan
15 merit examination under section 1279g or may require a pupil to

26 district or public school academy.

27 (b) A school district or public school academy shall base its

(c) A school district or public school academy shall also grant a pupil a credit if the pupil earns a qualifying score, as determined by the department, on the assessments developed or selected for the subject area by the department under section 1278b or the pupil earns a qualifying score, as determined by the school district or public school academy, on 1 or more assessments developed or selected by the school district or public school academy that measure a pupil's understanding of the subject area content expectations or guidelines that apply to the credit.

The superintendent of public instruction may

1 designate up to 15 high schools that meet the requirements of this
2 subsection as specialty schools. Subject to this maximum number,

5 instruction finds that the high school meets all of the following
6 criteria:

7 (a) The high school incorporates a significant reading and
8 writing component throughout its curriculum.

9 (b) The high school uses a specialized, innovative, and
10 rigorous curriculum in such areas as performing arts, foreign
11 language, extensive use of internships, or other learning
12 innovations that conform to pioneering innovations among other
13 leading national or international high schools.

14 (6) A high school that is designated by the superintendent of
15 public instruction as a specialty school under subsection (5) is
16 only exempt from requirements as described under subsection (5) as
17 long as the superintendent of public instruction finds that the
18 high school continues to meet all of the following requirements:

19 (a) The high school clearly states to prospective pupils and
20 their parents that it does not meet the requirements of the
21 Michigan merit standard under this section and section 1278b but is
22 a designated specialty school that is exempt from some of those
23 requirements and that a pupil who enrolls in the high school and
24 subsequently transfers to a high school that is not a specialty
25 school meeting the requirements of this subsection will be required
26 to comply with the requirements of the Michigan merit standard
27 under this section and section 1278b.

1 (b) For the most recent year for which the data are available,
2 the mean scores on both the mathematics and science portions of the
3 ACT examination for the pupils of the high school exceed by at
4 least 10% the mean scores on the mathematics and science portions
5 of the ACT examination for the pupils of the school district in
6 which the greatest number of the pupils of the high school reside.

7 (c) For the most recent year for which the data are available,
8 the high school had a graduation rate of at least 85%, as
9 determined by the department.

10 (d) For the most recent year for which the data are available,
11 at least 75% of the pupils who graduated from the high school the
12 preceding year are enrolled in a postsecondary institution.

13 (e) All pupils of the high school are required to meet the
14 mathematics credit requirements of subsection (1)(a)(i), with no
15 modification of these requirements under section 1278b(5), and each
16 pupil is offered the curriculum necessary to meet this requirement.

17 (f) All pupils of the high school are required to meet the
18 science credit requirements of section 1278b(1)(b) and are also
19 required to successfully complete at least 1 additional science
20 credit, for a total of at least 4 science credits, with no
21 modification of these requirements under section 1278b(5), and each
