SUMMARY:

House Bill 4291 would amend the Michigan Campaign Finance Act to revise the timing for the submission of campaign statements for committees (other than independent committees, independent expenditure committees, or political committees) and ballot question committees.

Currently, for those entities, the closing day for a **preelection** campaign statement is 16 days before an election, and the statement must be filed by 11 days before the election. A **postelection** campaign statement must be filed by the 30th day after the election.

The bill would retain this timeline for elections occurring in conjunction with a presidential primary election or for a special election held on a date other than a regular election date specified in section 641 of the Michigan Election Law. (Additionally, it would provide that, for a committee supporting a losing candidate in a special primary election, the committee would have to file according to this timeline, and if all liabilities were paid before the closing date and additional contributions not expected, the campaign statement could be filed by 25 days following the election.)

However, for all other elections, the bill would introduce a different timeline: the closing day for a **preelection** statement would be the 20th day of the month before an election, with the statement filed on the 25th day of the month before the election. A **postelection** statement would have to be filed by the 25th day of the month of the election.

MCL 169.233 and 169.234

FISCAL IMPACT:

The bill would have no fiscal impact on the state or local units of government.
