### SUMMARY:

House Bill 4660 would amend the Michigan Vehicle Code to provide that a vehicle in a funeral procession, when going to a place of burial, has the right of way over other vehicles at an intersection if both of the following requirements are met:

- The vehicle displays a fluorescent orange flag with an appropriate religious symbol (a black cross, the Star of David, or the crescent and star). [This is currently required.]
- The vehicle activates its hazard warning lights or a flashing, rotating, or oscillating purple or amber light. [Currently, the vehicle leading or escorting the funeral procession, or any vehicle that is part of a funeral procession, may be equipped with a flashing, rotating, or oscillating purple or amber light but may only activate those lights during a funeral procession.]

Currently, the code allows a driver to use hazard lights to warn operators of other vehicles when he or she is experiencing a problem that could present a traffic hazard to approaching vehicles (for example, a flat tire or a sudden engine problem that causes difficulty steering or requires a reduction in speed). The bill would amend this provision to also allow hazard lights to be used during a funeral procession by any vehicle that is part of the funeral procession, including the vehicle leading or escorting the procession.

The bill would take effect 90 days after its enactment.

MCL 257.654 and 257.698a

### FISCAL IMPACT:

The bill would have no fiscal impact on the state or local units of government.
